Cardowan men reporting for work at Polmaise, where about 30 miners from various pits re waiting at the gates. The Cardown men turned back almost immediately. The coal board is insisting that Polmaise will not reopen for work until the Cardowan men can work alongside the Polmaise men.

Meanwhile, a union leader at Polmaise has attacked the "Mafia-style" tactics of the Coal Board.

John McCormack, National Union of Minework ers delegate at Polmaise, said. "The Coal Board are using Mafia-style tactics in trying to force the Cardowan men to work at Polmaise.

### Workforce claim

yesterday accepted a pay increase of 5 to 6 per cent and a guarantee of no compulsory redundancies over the next 12

Almost 2,000 workers heard union leaders claim a victory and "absolute vindication" for their actions to fight compulsory redundancies and a previous company stance sugesting a zero pay rise for this year. The Timex Milton plant was the scene of a six-

week occupation sit in during April and May.

Mr Harry McLevy, district secretary of the AUEW, praised the efforts of the men who formed the occupation force. Everyone was to be retained by the company under the terms of the agreement and would be guaranteed the same wage they had been earning before the dispute,

Mr Graham Hay, director of haman resources for Times UK, said: "The company are pleased that the workforce have so emphatically accepted the deal," he said.

● The management at Britain's only zinc smelting plant which lost £10m last year, has proposed a survival plan for the firm involving the loss of 300 jobs out of 1,900. The workforce at Commonwealth Smelters, Avonmouth, Bristol, with specia was told of the plan yesterday the region.

# Jenkin sets deadline

Liverpool The Government will scrap the six metropolitan county councils within three years, Mr Partick Jenkin Secretary of State for the Environment,

confirmed yesterday.

A Bill transferring the func-tions of the Labour controlled authorities to district level was set to become law on April 1, 1986, he said.

Speaking in Liverpool, Mr Jenkin said the councils were a complex and confusing tier of local government.
"There are plenty of people

of all parties who believe almost all the functions of a county council can be perfectly well performed and the services carried out by the district councils", the minister said.
Mr Jenkin said there were a few services which would still

need to be administered on a regional basis, such as the police anf the fire service. "They will consist of council-

lors from the district councils nominated by their councils to serve on the joint boards. Our proposals will lead to a simplified structure and bring the services closer to the people". Mr Jenkin was on a day visit

to Merseyside to announce that he is to take over as minister with special responsibilities for

#### Trend towards home New Irish ownership grows envoy wins high praise More people than ever want bought houses worth 2.6 times

By Henry Stanhope iplomatic Correspond

The Irish Republic has chosen one of its most gifted diplomats as its new ambassador in London, signifying the high priority which the Dublin Government is giving to its

British relationaship.

The appointment of Mr Noel
Dorr, aged 50, was confirmed
yesterday and greeted with nods of approval at the United Nations, his last posting where he was among the most active, articulate and imaginative in the New York diplomatic corps. He is a native of Limerick, but moved with his family to Foxford, co Mayo, and was educated at St Nathy's College, Ballaghadreen; University College, Galway, and Georgetown University, Washington DC, where he took an MA in

philosophy.

It was during his time at the United Nations that Mr Dorr extended his reputation outside the relatively narrow circle of the Irish foreign service. His capacity for hard work was most marked during the two-year period of 1981-2 when Ireland was a member of the Security Council. Hardly a resolution that appeared before the council at that time did not have Mr Dorr's fingerprints

He says that reading philosophy is one of his recreations, but he also swims and jogs and, his friends say, is a very youthful man.

Mr Door joined the diplo-

matic service in 1960 after a short career as a teacher and tax inspector and began a rise to the top, which sources describe as

condemnation of the recommendation by

Channon announced in August that it

Sir Roy Strong, Director of the Victoria and Albert Museum, said it was a setback for the Theatre Museum. He added that

the Victoria and Albert and its branches

had expected to be affected by the country's financial difficulties, but empha-

sized that "the curtain must go up and the

show will go on here as before".

The halting of the project is likely to be only the first stage of cuts. Lord Gowrie intends to reduce spending by between 1 and 2 per cent during 1983-84.

### as peace women cut fence

65 arrested

women peace campaigners in incidents at Greenham Com-mon air base near Newbury, Berkshire, yesterday.

The arrests came after a 70ff section of the nine-mile permeter fence had been cut with bolt cutters, and other incidents in which demonstratores sat down in the road.

Ministry of Defence police, helped by RAF men and soldiers on patrol inside the fence, formed a human barricade to prevent the protesters from gaining entry. The women were noticed immediately after the chain link fence had been cut and none got inside the base. The county police were called to arrest them.

Shortly afterwards a 40-vehicle convoy, taking workers to the base, was successfully escorted in by the police. The arrests came on the fina

day of a week of action planned by women at the base. It was the largest number of arrests during a week in which workers have successfully entered the base every morning with police On other days the protest has

attracted up to 300 women, but yesterday there were an esti-mated 600 demonstrators at the base. Yesterday's demonstrators came mainly from the north of England and the Midlands, ing the women permanently at the base in their "peace camp". The damaged fence was replaced immediately.

Later, a smaller convey of vehicles escorted by police vans, entered the base after protesters sitting in the road had been moved by the police. There were no arrests. The atmosphere at the base was mainly good-humoured with protesters waving to police officers and troops inside the perimeter ad recieving waves back.

One of the protest organizers said she was pleased with the success of yesterday's actions.

#### Union disarmers

The Transport and General Workers' Union, decided to continue to cast its 1,250,000 block vote for a policy of unilateral nuclear disarmament. Only a dozen hands among nearly 1,000 delegates went in against the proposal at the union delegate conference at Douglas, Isle of Man.

Delegates also voted against cruise and Trident missiles being sited in Britain and for the removal of nuclear bases and for heavy reductions in

# Science report

**Earthquakes** caused by Moon's pull

By Pearce Wright Science Editor

the tidal rhythm of the ocean but also causes gravitational ripples through the surface of the globe to trigger earth-quakes, according to evidence published in the current issue

produced by the pull of the moon and earthquakes has been disputed for decades. Most of the presumed corre-lations between seismic events and the position of the Moon and Sun can be shown to be spurious, or due to the failure to apply the rigourous statisti-cal analysis needed to demonstrate such a link with

Furthermore, the tidal stresses of the ripple through the Earth's crust are small compared with the stress drop in the area of an earthquake when the strain is released i

The latest evidence reported by Dr S. Kilston, of the Hughes Aircraft Company, California, and Dr L. Knopoff, of the Institute of Geophysics and Planetary Physics, University of California, Los Angeles, are the most detailed studies in a narrowly defined zone, prone to seismic shocks, in southern California.

If correct, it would be another important factor in refining the calculations for earthquake prediction.

Dr Kilston and Dr Knopoli do not attribute all earth-quakes in the region to the pull of the Moon, or the combi-nation of Moon and San in certain alignents, but they suggest that large earthquakes are triggered that way.

mic records has shown statistically significant 12-hour, lenar-fortnight, and 18.6-year periods of the positions of the Moon and the San.

the maximum gravitational effect will be in November, 1987, and that during a "window" of a few years "window" of a 1ew astride of that date, at times of full or new Moon, and near smeet, one or more large earthquakes is likely in southern California. Source: Nature, July 7 - 13, 1983.

#### Union wants safeguards on pay docking to stay

By Frances Gibb, Legal Affairs Correspondent

The shop workers' union is to ress the Government not to repeal the provisions of the ruck Act, 1896, which guard

The Government has said in its consultative proposals, on wages law that "there is little evidence about the scale and press the Government not to repeal the provisions of the Truck Act, 1896, which guard against the docking of employees' pay to compensate for shortfalls in takings. Two petrol station cashiers

yesterday brought what is thought to be the first successful prosecution under the Act against Matzest Motors, their former employer, which was ordered to pay a total £1,000, including costs, for four offences of docking pay. The Union of Shop, Distribu-

tive and Allied Workers said yesterday: "We are naturally delighted about the decision which clarifies many workers' legal position". The union was to lobby the Government not to repeal the safeguards in the Act which protected them against "this totally improper practice". About one million manual workers, including cashiers, hopworkers, and milkmen are vulnerable to the practice,

which employers say dis-courages theft. But the Government's proposed reform of appeal for all workers to industrial tribunals.

#### Hospital closure plan 'kept quiet until election'

leading maternity hospital were kept secret before the general election because of their political sensitivity, a hospital official said yesterday.

According to Mr Ted Hayward, house governor of Queen Charlotte's Hospital, London, the Department of Health and Social Security wrote to all health administrators advising them not to publish documents that could be construed as politically delicate.

As a result, Queen Charlotte's Hospital decided not to publicize proposals to close its postoperation recovery unit at St Leonards, East Sussex, until after the election. Queen Char-lotte's and its sister hospital, the Chelsea Hospital for Women, face a deficit of £60,000 this year and believe they can save nearly £200,000 by closing the

recovery unit.
That would enable them to provide care-cots for sick newborn babies, improve cancer treatment, and develop a new

Plans to close a unit at a test tube baby unit. Mr Hayward added that most of the staff accepted the necessity of closure, although a final decision will not be made until September.

He said the hospital had received a letter from the

department warning it of the danger of becoming embroiled in political matters through announcements of such contentious matters as closures. The recovery unit is used by about 1,000 women a year who have had serious operations mostly hysterectomies - at the

9-15 JULY 1983 A WEEKLY GUIDE TO LEISURE, ENTERTAINMENT AND THE ARTS

# Sun, sand and permanent waves

As more and more British families spend the summer abroad, many English seaside resorts are making strenuous efforts to adapt to changing tastes. Others believe their best chance of survival lies in reinforcing their traditional image. In the second part of his survey of British holiday spots, Alan Hamilton visits two resorts determined to hold onto familiar though contrasting clientele. Great Yarmouth offers relentless jollity; Eastbourne's appeal

after 10 o'clock in the evening the lounge bar was as deserted. had slid into a trance of cataleptic boredom. My cataleptic boredom. My Askey used to tell them that he approach galvanized him back was working Eastbourne not for

is more sedate

and that's the last you see of them all night. They're all off to a show, and you can bet they won't even come back in here for a nightcap. We'd do better serving Horlicks, not booze." Despite efforts to broaden its. some other seaside towns by carefully nurturing that market. My hotel had an electric chairlift up the half-dozen steps

from front door to reception. They come to Eastbourne while they've still got a bit of life in them, then move on to Worthing when they haven't," manager says. "When we take their bookings we have to make it very clear to them that we are a hotel, not a nursing home. We're not doctors here, although some of

them think we ought to be." If they are all at a show, let's 30. Eastbourne has three good eatres, one large modern one which doubles as a conference nall, and two well-preserved raditional red plush ones. The nummer entertainment pro-pramme is equally traditional. ohn Hanson is a regular avourite, and this summer's orthcoming attractions include Moira Anderson and the Royal lank Regiment. As not even he 1,700-seat Congress Theatre ould accommodate all of them, we must assume that she

nerel and Eastbourne boasts the longest heatre season of any resort, 21 recks from May 6, at a time hen other summer shows are hortening their runs. The hit of be early season has been a ariety show starring Billy lainty and the piantst Russ onway, greyer than in his elevision days but otherwise istantly recognizable.

Billy Cotton used to tell me: Jon't try and educate an idience, son'. So I don't try to too brilliant with them. I ve them 'Side Saddie', and the eme from ET, things they low. I give them a bit of ichard Cleyderman; they may ver have heard of him, but ey'll have heard these intermible adverts for his records on e telly. And I usually end up the the Warsaw Concerto. 16y remember it from when it at came out in 1941.

"I expect a good percentage the audience come because by see my name and rememr it. I give them things that familiar, and I make sure I

silent visual slapstick comout that they're old. Arthur-Askey used to tell them that he "It's like this every night," he concession on the rubber tips on the end of the walking sticks.
"Everybody puts a tie on here

Eastbourne, like its clientele, is genteel, tidy. The motorcycle gangs tend to miss the turning to the town as they hurtle towards Brighton or Hastings. Despite efforts to broaden its appeal, Eastbourne remains predominantly a holiday resort for the elderly, and has weathered the recession better than some other sesside towns by Devonshire, who owns most of

> In this, the borough's centerary year, they still forbid any commercial premises except hotels on the seafront, and even the ice-cream kiosks on the beach, like the deck chairs at £1.70 for a weekly season ticket, are run by the Tory-controlled council in blatant defiance of current Conservative philosophy on public ownership. The news-stands are well stocked with Mills and Boon romantic bodice-rippers; Dark Seduction, Jungle of Desire, Passionate Intruder. As I walked the prom soon after nine on a soft but dull morning in late June,

brisk as the clientele settled into

The decorative iron lamp posts that line the at you telling them straight beginning to display serious rusting at their bases, doubtless the result of attention from some semblance of the fee, but because he had the terriers, but such minor decay is generations of West Highland more than overshadowed by Eastbourne's riotous annual complains. The whole lot of "Everybody puts a tie on here display of flowers, on the them come down on the dot of six, have one drink, march into dinner like Napoleon's army, and that's the last you see of they re in their seats."

"Everybody puts a tie on here display of flowers, on the seaffont and elsewhere. The council spends several hundred thousand pounds a year on its and that's the last you see of they re in their seats." thousand pounds a year on its gardens; this year they planted 40,000 tulips, each bulb handpicked to ensure that all came up exactly the same height, and 240,000 bedding plants. The town wins prizes for its floral

But it is not the flowers, or the absence of loud vulgarity, or Russ Conway, or even the kind climate, that is Eastbourne's principal attraction to the elderly holidaymaker. The main thing is, it is dead flat. Even the walk from the adjacent coach park to the 575 ft breezy chiff of Beachy Head is only marginally

steeper than walking on water. Nevertheless the town faces a dilemma. It caters well for the elderly, with two concerts a day every day of the season at its very superior bandstand and wheelchair ramps at all pave-ment crossings, but the elderly, even the comfortably-off elderly who all seem to be called Gwen or Joan, are not big spenders. It class. was, admittedly, early in the season, but on the night my hotel was full, I strolled through

chip shop in my experience to offer a choice of Liebfraumich or Anjou Rosé as an accompaniment to a fish supper. I was still the only customer. Anyway, the only proper accompaniment to English fish and chips is strong tea.

Eastbourne's dilemma is that wants to broaden its appeal without alienating its existing clientele. "I have had to resist very strong pressure from a commercial promoter who wants to put a circus on the beach here," Michael Mitchell, the town's director of tourism and leisure, says. Two-thirds of the holidaymakers are regulars who have been coming for years, and Eastbourne dares not

Caravans and camping are discouraged, and anyone who draws up on the prom in a Dormobile intending to spend the night in his vehicle is liable to be moved on. Yet the town can hardly be accused of snobbishness, the only major development permitted on the seafront in recent years has been an enormous and luxurious convalescent home for the Transport and General Work-Union. The objections at the time were based architecture rather than

Black and White Minstrel Show at the Congress Theatre featuring heavily in the promotions in

the Netherlands and France. "It's the nearest thing they'll find in Britain to the Folies Bergères." Mitchell says. Well, the resemblance is not that

astbourne's astbourne's long-term development plans in-clude the possibility of a yacht marina and a rather superior activity park. "We are looking at Disneyland to see if there are any ideas we can borrow," Mitchell says. "But for heavens's sake don't give the impression we are going to impression we are going to build another Disneyland in Eastbourne." Good Lord, no; it would be the rain of the place.

Disneyland, on the other hand, is exactly what Great Yarmouth would give its last jar of cockles to have on the scafront. Whereas Eastbourne has survived on tidiness and gentility, pandering to the holiday taste for doing nothing in particular provided it is done in the warm, Great Yarmouth continues to exist by strict adherence to the opposite school the school of relentless entertainment.

You cannot get away from comedians in Great Yarmouth. Eastbourne's hoteliers esti-mate that bookings for 1982 swimming pool being unbearab-were down by one-fifth on the ly jovial at 11 in the morning,

teaching a group of reluctant old ladies the steps of something called every holiday camp and, of course, at the end of the pier. Ian Tough and his tiny wife

Jeanette, who perform as the Krankies, are top of the bill at Yarmouth's end-of-pier sum-mer show. This is the factorybelt audience; they still want the old gags. The summer shows are the one place left where you can still get a genuine belly-laugh. You'd never do anything sophisticated here."

But, Tough finds, summer shows are not what they were. Our season starts two weeks later than it used to do; the audiences just aren't there in May and June like they used to And the shows themselves have been cut. Ours only has six dancers where it used to have 10; that's Equity rates for you. But at least we still have a 10-piece band. When they start

cutting the band, that's the beginning of the end." Don Reid's summer show, on the other hand, survives with a band of only two, an organist and drummer. Reid is heading an eight-strong company of relative unknowns in a summer revue at Gorieston Pavilion, and he was not at all amused to have them described as a concert party. "We are all full-time professionals here; a concert party is a bunch of hasbeens, amateurs or retired pros who are past it."

On their opening night they had a half-full house of about 160, and most of those were landladies on complimentary tickets. Always invite the landladies on opening night; they will spread the word more effectively than any advertisement. The dearest seat in the house is £2 and, Reid says, they expect to play to the elderly, and to young families who cannot afford a holiday abroad.

The potential audience in the Great Yarmouth area is immense, it being the most densely bedded area of the entire country, with 100,000 holiday beds in the immediate area, half of them self-catering. And a great many of them are in holiday camps, some of which have become far removed from the Hi-de-Hi image.

Brian Potter always dines with the 500 guests at his holiday club (to him the word 'camp" is taboo) on the basis of what's-good-enough-for-them.

As we waver between the roast pork and the rainbow trout he leaps to the microphone and addresses the assembly. I fear he is going to say: "Hello campers," but instead he asks those who have been in previous years to raise their hands for my benefit. At least

three quarters do.

"There you are," he beams proudly. "Loyalty." He then digs out Tom and Dora, who have been coming every year since 1946.

but we have met the

breezy east coast climate de-mands it. Anyone attempting an Eastbourne-style holiday of dedicated indolence could well be frozen as rigid as Lot's wife by the wind. You have to keep indoors, or keep moving, on a great many days of the year.

the cold facts of East Anglian climate, and in a local authority enterprise sev-Board pension fund and built covered entertainment centre with swimming pool, cafeterias. an auditorium where the obligatory comedian can exercise his desperate jollity Two million people have passed its turnstiles since it opened in [98]

The council has wisely handed over the running of the Marina Centre to a professional private company, but takes a cut of the profits.

"Yarmouth's holiday business was down 20 per cent last year, and this year it won't get any better," Rav Stringer manager of the centre, savs Rav Stringer. without this place, it would have been a great deal The whole holiday business is in slow lecline, or at best static, both from recession and from changing tastes Resorts have to be much more competitive, and those which don't cater for the appredictable British weather

The British holidaymaker is more predictable than the veather, it was a boiling June afternoon in Great Yarmouth, the hottest day of the year so far, and the dark recesses of the Marina Centre, with their rows of fruit machines, were absolutely packed out with holidaymakers. "Oh, I get so tired in be sun." a middle-aged woman ays, feeding endless tenpennies into the slot, her right bicep programme of one-arm-bandit-pulling.

It is spacious with buildings in the spacious with buildings in the puntaged and air skids and the sight of jagged snow-capped peaks sliding past your window.

First, however. hearken not to those who seek to help you by bidding you renounce one or other of your aspirations. The task before you is to rise above yourself and to scale a difficult mountain " And it is from here that Chile is poised for her next big chal-

> The youthful, cocky pilot, kept a straight course, just right of middle as the Beagle Channel is divided between Argentina and Chile. Then Puerto Williams came into view, looking like a mixture of a

Canadian logging camp and a New England whaling station. but in fact a permanent base of the Chilean navy. The mountains made a

dramatic impact, especially the jagged peaks known as Los Dientos - the teeth of Puerto Williams - and their snow caps and dense forests. Such a background recalled the exploits of Antoine de Saint Exupery

4PH (994 6477 x 191) offer a flight on Varig Brazilian Airlines for 2880 return. Leaving from Heathrow, the route is via Lisbon, Rio de Janeiro (change planes), Sao Paulo to Santiego. Visas ere not necessary. Internal flights by LanChile are cheep and efficient.

People: They are kindly, helpful and pro-British. They invariably show sympathy with our stand over the Falidands.

Money: Official rates fluctuate, It is wiser to take dollar travellers' cheques than sterling.

Food: Small working-class cafés

lenge, the exploration and development of that triangular wedge of Antarctica that belongs to her. Puerto Williams is on the island of Navarino which is shaped like a polar bear on the prowl, and just around the

corner, so to speak, are the islands of Nueva, Picton and Lennox which Argentina claims. When the two countries almost went to war in 1978 President Carter asked the Pope to intercede. Although the dispute has not been resolved the Chileans believe from the talks that have gone on that

Papal sympathy is on their side; and in any case they say they will never surrender the islands. The Chilean navy, of course, control the base, and almost the

provide a tasty and filling meal for between 80 and 120 peacs (about 65p-£1). An oily salad, ateaming fish soup with vegetables and bread followed by stew with two glasses of Canepa, a fine white wine, came to 140 peacs, including tip (about £1.15).

Hotels and transport in Santiago: A good modern hotel like the Foresta provides a comfortable room with bath from 1,000 pesos about £8.25). Cheaper places like the Sen Felipe on Avenida Mackenna offer rooms for as little at £1.50 a night. Tipping is usually

who flew over such Andean first thing these charming and at night I could hear the peaks in single-engined biplanes courteous naval officers will tell rattle of firearms as war games you is that Lord Cochrane (later

Dundonald) was the founder of their navy. An endearing insight into the pride they feel about this famous sailor is that they invariably say "Lord Cochrane" then repeat the name more fully "Lord Thomas Alexander Cochrane" so that there is no misunderstanding about the man to whom they are referring.

On this base, named after Juan Reboiledo Williams, one of the heroes of the Pacific War between Chile, Peru and Bolivia the last century and the son of John Williams, a Welshman, there is no overt naval activity.
An old Canadian destroyer is tied up at the quay and nearby two sleek motor torpedo boats were having two "big fish" rolled into them. One senses, however, that not far away there was much that was big and powerful that could be called

There are covered gun emplacements all over the port and in watchtowers young Chilean sailors sweep powerful binoculars across the channel. Toughlooking marines, paratroopers and infantrymen in battle dress march and drill along the front,

Buses are cheep and so is the small but clean, efficient Metro that runs along the Alameda or Bernardo O'Higgins Avenue, the main thoroughters. Taxis are reasonable and plentiful and necessary sometimes as the bus stations are away from the centre

My advice to anyone going to Chile is to read up about the country, get up-to-date information from the embassy in London, and when in Sentiago to spend the first day or so wellding around and studying the plan of the Metro. It will save you a good many dollars.

Yet neat rows of yellow wooden bungalows with their cylindrical gas containers out-side, washing on the line, around the triangular-shaped

As I walked by the Beagle Channel trailing my hands in its cold waters, I tried to think back to the days when Darwin first came to Tierra del Fuego. On that journey Captain Fitzroy was to return to the Land of Fire Jemmy Button, York Minster, and the young girl, Fuegia Basker, whom he had seized as hostages three years before for the loss of a boat and whom he had taken to England to educate and instruct in religion at his own expense. Boat Memory, the fourth native, died in England. The seasons, of course, are

reversed here, and it was towards the end of summer. The sun shone, the countryside was green and lush, the forests were alive with a variety of colourful birds and I even got to within six feet of two large and beautiful red-headed peckers. Streams rushed down the hills, the water sparkling as it splashed over rounded pebbles, and in the stillness and beauty of sun-dappled glades I could have been in north Wales

or the Lake District. There is one small hotel on the island (the Hoskria Walda, run by the navy) but I stayed in the Cafe Huspachum (the name is Yahgan for Puerto Luisa, the former name of Puerto Williams) in rather primitive conditions with tough and cheerful dockyard and construc-

might have seemed expensive, but Cecilia, a kind of Fuegian Eskimo Nell, knew how to fill one's belly with three navvy-

URUGUAY

Beached in one of the inlets housewives gossiping on the with its meadows and trees doorstep and children playing where herons, waders, wild with barking dogs geese and gulls had rich pickings the triangular-shaped was the hulk of the Contracatholic church, introduced a maestre Micalvi, an old transnormal and homely air to the port ship that first saw service place.

on the Rhine in 1925 and is now a marvellous play place for servicemen's children.

A maritime curiosity in the post is the prow of the Chilean ship the Yelcho which rescued the British expedition under Sir Ernest Schackleton (their quaint spelling) from Elephant Island on August 30, 1916. And a more recent British connexion is to be found in the small but imaginatively set out museum of Martin Gusinde, a priest who saved and collected many Indian relics, where, besides the many items connected with the Beagle, is a signed double paddie that commemorates the British kayak expedition round Cape Horn in 1977.

Puerto Williams is a sprawling rather ugly town, but it is surrounded by some of the most dramatic scenery in the world. It was a joy to be there in the summer, but in winter when the howling gales sweep in from the Atlantic and the Pacific it must be one of the coldest and bleakest places on earth.

I never saw any fires in this Land of Fire, and of the poor, ill-clad and wretched Yahganes there is only one left, and this middle-aged woman runs\_a grocery shop on the island. For me, however, it was the culmination of one of my ambitions, and although it had taken me a lifetime to achieve it, it had been well worth the. waiting and the journeying.

# Railway to runway

Forget about congested roads and the strain of driving for hours on the motorway, or frustrating routes through busy towns and cities. Forget time consuming stops at motels and restaurants. Forget the cost of long-stay car parking at the airport or in one of the car parks miles away.

Now, there's a much better, easier way to Heathron and Gatwick It's Railair, the modern rail-to-air service that starts at

your local rail or tube station, whether you're coming from North, South, East or West. Simply take one of Railair's many fast, no-fuss connections to London's Airports.

Get the Railway to Runway leaflet from your local British Rail station, or appointed travel agent, and see howeasy it is to take off to the sirport by train.

## Northern missions of the last frontier

We all know, from films and picture books, that California, the final frontier of the United States, was colonized as settlers moved west. What is less wellknown is the movement from Mexico from 1769 to 1823, when Franciscan monks made their way north establishing missions. These were to become staging posts for travellers and sanctuaries against the maraud-ing Indians. By 1823, there were 21 missions, all about one day's brisk walk apart and providing shelter and food. The active period of the

missions was short. The work of 65 years was ended in 1834 by the secularization law, which aimed to turn some of the land over to Indian families. Never-theless, many of the original churches are still in use and part or all of every mission has been restored, providing a focal point today for tourists, taking them away from the freeways and crowded beaches of California into lesser-known parts of this beautiful state. As with so much history, it

was a desire to colonize that led to the establishment of the missions. In the late 1760s, when Spanish influence in Mexico was waning the Fran-ciscan monks asked Charles II of Spain if they could establish missions in California. This suited the king, who even then was afraid of Russia moving down from the Bering Strait into the unknown lands of Alta Chief and Could be controlled to the California Code. (Upper) California. one to save souls and the other San Francisco. to preserve territory.
The missions s missions gave their names to many towns in California and parts of the main highway follow El Camino Real,

the king's road, which joined together all the missions. Though the missions have much in common - they all have heavy adobe walls, red-tiled overhanging roofs to protect them from the sun and Spanish-style churches - each mission has a unique feature its architecture, its church or painting, the reconstruction of the very humble quarters in which the monks lived, or

simply its glorious setting. Of course in California one needs a car, so landing at Los Angeles airport, drive south 10 San Diego where the first mission was established in

The history of the San Diego de Alcala mission was typical of many. Fights with Indians were common, priests were murdered by them, though in some missions Indians were enthusiastic worshippers. Mission development did not proceed steadily northwards: it was dictated by politics. The second mission was set up in 1770. San Carlos Borromeo is not directly morth of San Diego, but close to

San Francisco. The king reckoned that it was the northernmost point suitable to

defend his territory. The "king" of missions is San Luis Rey de Francia, so-called for its site, its huge church seating 1,000 worshippers and its scrupulous attention to annual records, which reveal a history. fascinating history. The "queen" is Santa Barbara, built and dedicated in 1786. There have been four churches, each succeeding one larger than the previous one, the third being destroyed by an earthquake in 1820. Then the present church was built, completed only long after the mission period was

The move to turn land over to Indian families failed. Many of them immediately sold to speculators who had set up omes around the missions. As result modern California developed. But, today, after a period of decay, careful restorations offer us an insight into a small but fascinating period in California's history. And in a fortnight's stay, there is still time for the fleshpots of Los Angeles and San Francisco, if you want them - and of course the beaches.

### Rich rewards when you cast your brood upon the waters

On the waterfront: Boating on the upper reaches of the Thames

We moored at Goring for the night without mishap, gently nudging our 37ft Thames cruiser into a tight gap between similar boats. At 7.30 pm supper was long overdue: The baked beans, the children's stanle fare, were still unopened. The tin-opener proved ineffective and slewed along the rim of the can. I recalled the incident in Three Men in a Boat, where George, Montmorency and Harris launched a frenzied attack on a can of pineapple. Much more of this and I too would take the boat hook to the obdurate tin. Instead, though, my wife went off along the quay and borrowed a tin-opener from a boat near by.

West of Reading, the Thames is a vast slow thoroughfare free from the frustrations encountered daily by both motorists and pedestrians. One rule is you must pass all oncoming boats on the right; everything else is relaxed and gentlemanly.

The distance covered in a weekend is limited but there's still plenty of fun to be had more so if there are plenty of locks. Locks are an endless source of amusement.

Stopping a boat weighing six tonnes alongside a narrow jetty before entering a lock is not casy. The trick seems to be to get the nose tied up first. However, if there is a wind from the stern the rear of the boat can swing out into mid-

runs beside wooded slopes and perhaps the most fitting way to wide flat meadows. This reach eat on a weekend on the river; is the stretch immortalized by wine, pate, bread and cheese for Kenneth Grahame in The Wind in the Willows and the banks on toast for those who insist on it. either side are puckered with Undoubtedly, the best time animal holes. The rather unafloat is the early morning. pleasant rash of wooden chalets Everything is still and quiet, the which edge the river near air fresh and clean, the light Reading, soon give way to more clear. On Sunday morning we interesting houses with river made an early start and after frontage and boathouses in a two quick locks at Goring vernacular style. Well-clipped covered the six-mile lock-free vernacular style. Well-clipped lawns reach to the water's edge; croquet games and garden parties are in progress; time

almost stands still. Once out into open country there is the freedom to stop almost any-

Goring, our base for the night, offers little in the way of restaurants although the Miller of Mansfield and the John Barleycorn are two respectablelooking public houses offering set evening meals. More substream. Fellow boaters nearly always come to the rescue.

The Thames from Reading, where we collected our boat, Streatley. Even so, al fresco is 64991).

the adults, baked beans and

stretch to Wallingford, where we turned round by 11 am.

By now we were "experi-enced" boatmen. The five locks back down to Reading pre-sented little problem; one or two heavy bumps at lock entrances and a nervous 10 minutes going through a regatta near Reading where the eights sped towards us like bydrofoils.

One of the additional delights of the river is the variety of water fowl to be seen; moor-hens, Canada geese, herons, coots, swans, crested grebe and kingfisher - all were spotted by my daughter Hannah.

Michael Young

Bridge Boats of Reading (9734 590346) offer a number of short break packages, flexibility being the keynote. If taking a youngster choose a boat with an enclosed deck space or one with an opening roof. But watch small children at all times and insist they wear life Jackets regardless of their prowess at the local swimming baths. For boating weekands or longer breaks throughout the country contact Hosessons Holidays, Surway

#### Gains and consolidations as the transatlantic air price war gathers momentum

entice you on board.

In theory, practically all the hundreds of bargain air fares can be sold by any travel agent. In practice many agents are still unaware of all the options, so to get the best deal the average traveller will have to do most of the groundwork himself.

Generally speaking, there are no discounted bucket-shop type of fares available to the USA. When airlines have the freedom, as they have on transatlantic routes, to tailor their fares to meet market demands they do not need to indulge in under the counter activities.

Hardly a week goes by without a new fares or routing being announced so deep an eye on the airline advertisements in war promises to intensify this autumn when the major airlines plan even lower fares. Until then, here is a roundup of what is available for travel in July

Special economy fares:

AEREBORG. Originally introduced at a rockbottom price to compete with Laker, these fares have been hiked substantially since the dimise of Skytrain. Available to all main destinations on either a one-way or return basis. Openjaw (travel to one destination, return from another) arrangements are possible. There are few booking restrictions and this is an ideal ticket if you want flexibility at an economical price. Sample one-way fares: New York £218, Chicago £273, San Francisco/Los Angeles/ Seattle £329 and Miami £225.

#### Stand-by:

In the Laker days these were scheduled airlines' cheapest fares, but not any more. They are now thought of as an unnecessary nuisance, and the airlines plan to screp them this autumn. Available on a oneway, return or open-jaw basis. Sample one-way fares New York £175, Chicago £238, San Francisco/LA £227 and Miami

The most popular promotional fare. Available on a return or open-jaw basis. Although more expensive than charter fares, APEX offers you a wider choice of destinations, departure dates

With nicket sales well down on nations in Canada or the can be accepted within 21 days previous years the airlines are Caribbean. For example, travel offering all sorts of deals to out London/New York and return Toronto/London, or out

London/Chicago and return Nassau/London. Travel can also be in the reverse direction. Sample return fares to single destinations: Atlanta £379, Boston £313. Chicago £366, New York £329, Miami £390, Dallas/San Francisco/LA/ Seattle £449. If you book a British Airways

or TWA APEX fare with operators like Jetsave or Travellers you get extra goodies thrown in, such as a free flight bag, free in-flight drinks and movies, half-price travel on British Rail.

#### Charters:

Available only to the main destinations. Some flights operate infrequently and open-jaw arrangements are strictly limited. Operators tend to specia-lize in certain routes and prices fluctuate depending on supply

Examples of approximate return fares with the operator shown in brackets: New York £245 (Airplan), £289 (American Express); Chicago £319 (Air-plan); Philadelphia £249 (Airplan): San Francisco £379 (Falcon), £399 (Airplan); Boston £269 (Airplan); Washington £289 (Airplan). Slade Travel is the only company to sell seats to New York on either a one-way or return basis. Slade's fare is £129 each way until September II when the price falls to just £85.

#### Consolidation:

A new exciting fare: Specialist operators like Airplan, Slade and Falcon book blocks of seats on scheduled flights which they then sell to individuals at a considerable discount on the cheapest APEX fare. Consolidation fares are available only for return travel to a limited number of destinations. Each operator specializes in different destinations and airlines.

Examples, with the operator shown in brackets: Atlanta £370 shown in brackets: Atlanta £370 (Airplan); Dallas £380 (Airplan), £410 (Slade); Denver £380 (Airplan), £420 (Slade); Los Angeles £399 (Falcon), £420 (Slade); Miami £359 (Falcon); New York £306 (Slade); San Engages £420 (Slade); Tampa Francisco £420 (Slade); Tampa

£349 (Falcon). Note: APEX, consolidation and charter fares must be booked at least 21 days in

The arrival of People Express and its cut-price unrestricted fares has revolutionized travel to the US East Coast. People's £99 fare to New York is well known. Not so well known are People's special through fares via New York to onward destinations on its network.

Examples of one-way fares (return double): Boston, Baltimore, Washington, Pittsburgh, Buffalo (gateway for Toronto, Canada), Burlington, Hartford and Portland, all £110; Jacksonville and West Palm Beach in Florida cost £127 and £140 respectively.

People Express is not allowed to operate more than five flights a week and with fares as low as these it might be difficult to get a seat in the peak season.

There is a one-way luxury £291 Premium class fare on offer too. An ideal way of crossing the Atlantic in style at a fraction of what the major

#### Internal US travel:

Provided you buy your ticket here before you set out, there are some amazing bargains to be had. Several airlines offer Airpasses. These either offer so many flights free of charge or, better still, unlimited travel for a specified number of days. Examples: Continental Air-

lines offers a 14-day Airpass covering the mainland and Mexico at \$425 until August 20 and \$325 thereafter. Continen-tal also offers books of flight coupons, valid for stays of up to 60 days, costing \$325 for four, \$399 for 12 and \$575 for 18. This airline also offers the cheapest coast-to-coast fares. If you travel on a Tuesday or a Saturday you pay just \$119 (a fare of \$149 applies on other days) to travel between any one of seven cities on both the East and West Coasts.

in total contrast, and to looks forward as well as back a team of designers from BL will be styling a full-size clay prototype of the company's latest model, the Maestro. Among traditional crafts

being demonstrated at the show are fly dressing, knife making, Windsor chair making, saddlery and rope working. The decora-tive arts featured include the painting of harpsichord sound boards, and there are more familiar skills such as glass engraving, print making, sculpture and embroidery. But, as its name implies, Art

in Action is not a passive show and visitors can join in practical classes in a variety of activities drawing, painting in oil and watercolour, clay modelling, pottery, lace making and spinning. There is also a craft market, with many stalls offering items for sale.

The Waterperry estate - the name probably meant pear orchard - is mentioned in the Domesday Book and for seven hundred years was held by two families, the Fitzelys and the Cursons. Their histories are recorded in the little church, next to Waterperry House, which is a Norman and Early English building containing the remnants of an even smaller

The frontage of Waterperry House was rebuilt in the Queen Anne style by Sir John Curson in 1713. The Henley family bought the estate in 1830 and it was sold to Magdalen College in 1925. Seven years later Waterperry Horticultural School was opened by Miss Beatrix Havergal and it was in her time that the fine Alpine nursery was largely developed.

Art in Action 1983, at Waterperry House, near Wheatley, Oxfordshire, July 14-17, 10.30am-5.30pm. Adults 23; children 6 to 16, pensioners and students £1.50; children under 6 free. Dance and musical performances and tuition in a practical class cost 50p: theatre performances are trae. Further information from Bernard Saunders, 96 Sediescombe Road. London SW6 (381 3192),

# Gilt on the gingerbread of an English country tour

Where are you planning to find your holiday loot you will find abroad. The people who make them this year? If you want to stack the car with wine are as full of tales of local lore, the traditional and cheese, cured ham, sherry, sweetmeats, local pottery and fine modern glass? The travel agents will suggest, in that order, France, Italy, Spain, Austria, Portugal and Sweden. I suggest the English countryside.

Light in absent any direction and any state of the way. Not exactly duty free, but often at prices much less than you would pay in your local than the satisfaction of knowing you have picked up a few bargains on the way. Not exactly duty free, but often at prices much less than you would pay in your local than the satisfaction of knowing you have picked up a few bargains on the way. Not exactly duty free, but often at prices are as fascinating.

Refreshment in every sense being the main point of a holiday, why not start with a visit to Harvey's wine museum at 12 Denmark Street, Bristol (0272 277661)? The twelfthcentury cellars, extending beneath several streets in the centre of the city house a fine collection of eighteenth-century English drinking glasses and one of the largest private collections of wine related antiques. The museum is open from 10am to noon and 2pm to 4.40pm on Fridays, admission 50p. There are also guided tours, including a film and tasting of five sherries for £2.50, Mondays to Thursdays. bookable

advance.
Still in a bibulous mood, but in search of more up to date glasses, you should head south for the Cider Press Centre, Shinners Bridge, Dartington, Totnes, where you will find many seconds items from the current Dartington ranges at prices about one-third less than

And if you want to see glass in the making, the Dartington glass works at Torrington are open from 9.30am to 3.25pm. For booking large parties telephone 08052 2321.

Heading back north, stop for tea at Sally Lunn's Tea Shop, 4 North Parade Passage. Bath (0225 61634). Built in 1482 it is the oldest house in the city and it became a tea shop in 1747 the original bread ovens are still in the crypt. The Sally Lunns (baps made from very rich bread) are sold to eat in the tea shop or to take away and claim to be the only ones made from the original eighteenth-century

#### Nottingham

A little bit of bread and no cheese is poor fare for a holiday, so the next pin you stick in your map should land on the Colston Bassett District Dairy on the On to the five towns where A46, two miles from Fosse Way and between Leicester and Newark, It is a small farmers' cooperative and makes what connoisseurs consider to be the perfect Stilton - the only one made the original way with unpasteurised milk, which gives it they say a more balanced flavour. You can buy it at the

#### Derbyshire M You should now be suf-

ticiently sustained to tackle a factory visit at the Denby Pottery which is two miles south of Ripley on the way to Derby. There are tours at 1.30pm and 2.15pm Mondays to Thursdays - you might be

Head in almost any direction and you will find shops. Here are some suggestions for your local specialities as interesting and curious as any bargain route through Britain.

years of its manufacture. John Beswick at Longton (0782 313041) and Minton at Stoke-on-Trent (0782 47771). where there is a splendid museum, also arrange visits. All are part of the Royal Doulton Group and each tour is £1 per head - no children under 14. Leaflets are available giving

Each factory shop has a representative selection of all the brands in the group, with an emphasis on its own speciality. Prices for seconds are between 33 per cent and 50 per cent off but do not expect to buy a whole service in seconds, you will find mostly odd plates and cups. Perfects are normal retail

The Wedgwood Centre at Barlaston was designed special-ly for tourists and includes a cinema, museum and demonstration hall where traditional hand processes are on view. The Centre is open Mondays to Fridays from 9am to 5pm (last complete visit 3.15pm), 50p adults, 25p accompanied chi-dren 5-15. No children under five. A leaflet is available from The Tours Supervisor (078 139 3218 or 4141).

The Spode factory at Fenton (0782 46011) is part of the Worcester Royal Porcelain group. Tours are at 10am and 2pm Mondays to Fridays for 50p per person refundable in the seconds shop on purchases over £2. They give discounts of up to 40 per cent. (No children under 12 in the factory.)

#### Worcestershire

The Royal Worcester Porcelain factory, Severn Street, Worcester (0905 23221) also has factory tours from 10am to 11.45am and 2pm to 3.45pm Mondays to Thursdays, and to 2.45pm on Fridays. Adults

A fascinating exhibition opens

on Monday in London, called The Goldsmith and the Grape at the Goldsmiths' Hall, Foster Lane,

EC2. There is a spectacular collection of silver dating from 2,200BC; and it challenges the theory that wine should be drunk

only from plain glass. The excellent catalogue mentions

that the seucer-shaped vessel used for tasting is now usually silver. It says: "Those who consider that silver has an adverse

affect on the tasts of wine should

Silver lining for the wine buffs

£1.25, children 55p. Their connoisseur's tour with visits to the usual tour is £4.50. The Dyson Perrins Museum has the world's largest collection of Royal Worcester and the shop offers 25 per cent discount on

#### Cumbria

First a little relaxation from culture and acquisition - for £5.75 per day, Wednesdays to Sundays, you can catch your own trout at the New Mills Trout Farm, New Mills, Brampton (Brampton 2384). For that price you can keep four fish. Cumberland rum butter is made by several companies, but

the one by Calthwaite Dairy Products is special because it is made from the milk of one of the few Jersey herds in the country. Rum butter was traditionally used at christenings in Cumberland - when the bowl was empty guests would put a coin in for the baby. There is also a local lore that if a childless woman is first to help herself to rum butter at the christening of a baby boy it will "smittle" her to have a child - a

pretasts of the exhibition. Seven tasters tried six wines, first in glass and then "blind" in silver. Only two got them all right, but overall their score was 22 out of 42.

Vessels on display include the Swan Mazer, a late-fourteenth-century bowl with a centre pillar

surmounted by a swan. If the bowle filled to the level of the swan's

dipped beak the contents are syphoned out through a concealed

tube, as if the bird were drinking.

Also typical of its period is a silver gillt corkscrew of 1840, lent to the

exhibition by the Queen. The many examples of religious and secular plate include the

Their local dialect word meaning infectious, contagious, certain as a stock getter".

Traditionally cured Cumber-land ham is available by post at £1.65 per ib plus peop from Bar Woodall, Lane End, Waberthwaite, near Millom – the fifth generation of a family business established 150 years ago. He also has a new and delicious speciality, Cumbria ham, to be eaten raw and paper thin, like Parma ham, at £1.25 per quarter pound plus p&p (065

You should not leave Cumbria without a visit to Sarah Nelson's, Church Cottage, Grasmere. The seventeenth-century three-roomed cottage was a school until Sarah lived there in 1854. When she was widowed she had to rely on her talents as a cook to keep herself alive and she sat at her door every day selling gingerbread from a tin tray. This same recipe passed from her great niece to the aunt and uncle of the present owner Margaret Wilson who keeps the recipe in the bank and the bakery going in the back room just as Sarah did.

The gingerbread is very

beautiful, spirally dragooned cup Illustrated (left), which was thought to be Victorian when it was found, discarded, in an attic, but in fact was made in 1493. There is also a was nated in 1455. There is also a selling exhibition of silver by 50 modern makers, including particularly beautiful work by Sarah Jones, Jocelyn Burton, Frances Loyen and Richard Geers. Maybe when you have seen the axhibition you will agree with me exhibition you will agree with me that the wine snobs can keep their plain glass for their fine wines. It you had a set of Frances Loyen's silver gobiets with plique-e-jour enamel you wouldn't need to serve

the best vintages - your guests would assume that whatever you

put in such stylish vessels could not be less than remarkable.

distinctive, crisp on the outside and slightly chewy inside –
foreign tourists who have
enjoyed it write for replenishments simply to The Gingerbread Shop, England – and even the Post Office computer knows where to send the letters.

The gingerbread comes oblong pieces, six for £1.20, 10 for £1.90, 20 for £3.55 or 10 plus a 6oz rum butter for £3.10 – all prices include p&p. Telephone 09665 339.

#### Yorkshire

On the Yorkshire coast south of Bridlington, stop at the Hornsea Pottery - you don't need to book and there are tours between 10 am and 4 pm. The shop offers 20 per cent off retail prices and there are always special offers on various ranges.

The flavour of the month in

York is always curd tarts - a short pastry base filled with a sort of sponge made with curd instead of flour and mixed with currants and nutmeg. They are about 30p each from Yates of York, 75 Low Petergate.

#### Cheshire

Try a visit to the Lion Salt Works, Marston, Northwich -you can even arrive by narrow boat. Bernard Thomson's family has been making salt since 1721 and the works, established in 1842, are now the only ones in the world to make block salt which has no chemical additives. They also make the natural crystal salt and coarse salt popular with health-food enthusiasts and they export to several countries. Telephone 0606 2066 to book a visit (adults 50p, senior citizens 40p, children 30p). After all, you have to take all travellers' tales with a pinch of salt.

#### SHOPFRONT

## Through rosé-coloured glasses . . .

"In my own family,

we have one hundred and seventy dinner services.

Pink wines are frivolous, fun and slightly decadent. It seems to me that actresses slippers could have been filled with nothing but pink champagne and that the picnickers in Manet's "Dejeuner sur l'herbe" must have been drinking vin rosc. Perhaps it's because we've had too many summer holidays that have floated by in a pink haze that we find it hard to take these wines seriously. Nevertheless, it is true that finding a good vin rose is extraordinarily difficult. Whereas I find it relatively easy to track down hundreds of excellent white and red wines every year, I feel I've done well if I manage to come up with a handful of reasonable

It may be just that pink wines are no longer the fashionable tipple they were 10 or 15 years ago, but I think the real reason is a more fundamental onc. The problem with pink wines is that they are neither one thing nor the other. They often lack both the clean cut refreshing crispness of white wines and the depth, fruit and flavour of red wines. In order to acquire their attractive hue, most rosés are vinified quickly, with the must kept in contact with the skins

He has judged them worthy to bear his name.

that give them character and colour for only a very brief period. As a result, far too many provide nothing more than a pink, sweet flabby mouthful, or are of the Portuguese pink

But there are some pleasant ones about and the key to appreciating them is not to expect too much. What you will be getting is a light, young fresh and slightly fruity wine. And indeed the wine world has a lot

in the first league, and although its sales in this country are dropping now, in its heyday, about £3.35 from most off-lithis rose introduced wine to a lot of new drinkers and provided useful stepping stones between beer and spirit and wine drinking.

Pink wines are above all perfect picnic and outdoor wines for occasions when all that one really wants is some-thing cool and uncomplicated that can be knocked back without bothering too much about vintages or vinosity. The problem is usually price, since in my experience a decent rosé around the £2 mark is well nigh impossible to to find.

Last year, however, I was

pleasantly surprised when Paul Masson's litre bottle of California Rose Wine came top by a very long way in a High Street rose tasting I had organized. Having tasted it again recently, I am happy to say it is still as pleasant. So if you have always determinedly paused by the carafe shelf in your local offto thank rose for - especially overcome your prejudices and that big Portuguese brand flip open the lid of this grapy, Mateus Rose. Although no one medium sweet rose. Its fruitycould put possibly put Mateus flowery character is unusually

But only four wines." BARON PHILIPPE DE ROTHSCHILD

censes. In fact the only drawback I can think of is its amazingly lurid colour which must be one of the most non wine-like I have ever seen.

France, as usual, is one of the

best sources of roses. But while I have enjoyed many refreshing Provence rosés on holiday in the South and Rosé and Cabernet d'Anjou wines wandering along the Loire, regretably none of these wines has tasted half as good as back home. One win rosé capable of making the journey, however and to my mind the finest rose France produces is the Rhône's Tavel. This is also one of the very few roses that can improve with age. So try Paul Jaboulet
Añê's delightfully fine, fruity
and elegant '78 Tavel L'Espiègle, which actually boasts
depth and body too. (From

#### IN THE GARDEN

## Heady pleasures of a perfumed bed

A garden at its best will give pleasure to all the senses - not least the sense of smell. There are countless varieties of scented plants, shrubs and herbs to choose from, and most are as attractive as they are fragrant. One obvious choice would be

the Eucalyptus. For its perfume, I prefer E globulus, aithough E. Gunnii, the famous Australian blue gum, is the most hardy for this country. It needs protection and a well drained site, and its foliage is strongly scented when crushed or bruised.

Populus balsamifera has a strong scented foliage without crushing or bruising, particularly early in the year as the leaves are opening. I much prefer the form P candicans Aurora with its creamy white and delicate pink leaves. To encourage the coloured leaves, it needs to be pruned hard every other year.

bay tree is strongly scented (when crushed) and the leaf is used in cookery. It makes an excellent dot plant or specimen in a border or lawn, but needs protection from cold winds. Rosemary, a herb used in cooking, is a real joy in the garden. Try gently trailing your fingers through its foliage, and notice how long its delicate perfume lingers. Lavender, which has leaves of a similar

For the connoisseur Among the hardy herbaceous plants which may be difficult to

stablish are the Meconops There are many varieties, but my avourites are the blue-flowered species: the himalayan poppy,
Meconopsis Balleyi (betonicifolia)
has vivid blue flowers, about 3in
across, carried at the end of shoots. The whole plant may grow to a height of 3ft. Meconopsis grandis has bigger flowers which sometimes have a red tinge. M cambrica, the welsh poppy, has yellow fowers, and aithough the dants are short-lived, once they are established they will constantly replenish themselves by seeding.

M chelidonifolia has unusual pale vellow flowers at the tips of its redstemmed shoots. in general, *meconopsis* like a rich deep soil, water-retentive but with a high organic matter content, so that

Plants cost about £1.20 each, and

seed is about 80p per packet,

surplus water drains away, and they need to be out of the full sun. Propagate by division or by seed.

Heaven scent (from left): Cotton lavender; lavender spike; sage leaves. Calamintha nepetoides,

Gaultheria procumbens may blue range, is a favourite for not be familiar, but it is a shrub which will give excellent ground cover in lime-free soils. Small keeping clothes sweet-smelling. Cotton lavender, Santolina shiny leaves clothe the plant, almost hiding its white flowers, chamaecyparissus, also has grey foliage and its perfiume will linger on your hands long after and when crushed, giving off a strong perfume of wintergreen. The red berries which follow the you have touched it. Sweet Briar, Rosa rubiginosa,

Some perfumed plants have or R Eglanteria to give it its uses in the house: the common modern name, needs its leaves to be crushed to give off its fragrance, although a strong enough wind or rain shower can have the same effect. It likes a limy soil. Two conifers come to mind

straight away: the junipers and the thujas, both of which will release a faint scent without being touched but the scent is much stronger when their foliage is handled. The thuja, particularly, I find irresistible.

flower will give an even stronger perfume.
Sage, in its greenleaved or variegated form, and rue, Ruta graveolens, add their own distinctive fragrance to a herb garden, while the mass have a

variety of fruity perfumes –
Mentha citrata is lemony, M
suaveolens will make you think of apples.

Monarda didyma. especially in the form Adam, is an excellent border plant, with rosy

red flowers as well as scented

**Ashley Stephenson** 

of your plants.

Meconopsis betonicifolia:

#### Begonias

As soon as the danger of cold nights, and more important, cold winds, is past - around mid-June bedding begonias really come into I prefer the tuberous forms, and

although I like the new seedling types like Cameo or the non stops, I am more enthusiastic about the giant doubles. Giant doubles come in scarlet.

orange, yellow, rose, salmon and white, and the flowers range from small-saucer size, to almost dinner plate. Fimbriatas come in the same range of colours, but they are distinguishable by their fringed or frilled petels. Crispa marginata have single flowers which usually have a picotee edge of a contrast colour. Pendula has hanging stems, massed with double or semi-double flowers, and is ideal

Tubers are not expensive, if you consider that they will last for a number of years, at around 40p each, or 230 per 100.

London gardens week The London Gardens Society

launches its first Gardens Week from July 25 to 30, in search of gardens in the Inner London boroughs which have added beauty and character to their surroundings.

Judges will be visiting gardens of all sizes during the week, and they will even assess hanging beskets tubs and window boxes. Entry forms are available from Alan Gloak, 4 Oakfield Street, London SW1. School forms from ILEA.

# What unspeakable dangers lurk behind these garish covers?

With his back to the wall and his upper lip stiff, Ion Trewin relives boyhood thrills

There's a climax in Dornford Yates's first adventure story.

Blind Corner, when Jonah Blind Corner, when Jonah Buildog Drummond by Sapper Mansel and co are trapped in an underground chamber with the The Mind of Mr J. G. Reeder by Wagensburg treasure: their tunnel has caved in behind them; the other way out is barred; and if they do break into a secret passage that leads to a 90st deep well, will the water level be low enough to allow their escape?

I defy the reader with any imagination to dog-ear the page, put out the light and sleep easily until the morrow before greed-ily reading on for the solution. Rereading Blind Corner and these other "Classic Thrillers" in Dent's new series a link soon emerges: each is indeed a pageturner, or, as Tom Sharpe puts it in his introduction to Blind

Corner, "a rattling good yarn".

The plot of Bulldog Drummond (originally published in 1920) may be absurd, with the demobilized Captain Drummond doing battle with archeriminal Carl Peterson massured as a Belshorik has querading as a Bolshevik, but I still find myself echoing Sharpe on Blind Corner: "I have no idea how many times I have read it, but I still find it enthralling."

With Buchan I have to try

harder. Castle Gay (written in 1930) has its moments, but I prefer the five Richard Hannay "shockers", as Buchan called them. Castle Gay begins with too much whimsy and only gets going when Jaikie and Dougal become involved in a compli become involved in a complicated plot to protect the humourless and pompons news-paper proprietor. Thomas Car-lyle Craw. Then Buchan's talent for description takes over, with even a touch of innocent sex in the person of the delicious

Alison Westwater.
For me the revelation of this quartet is Edgar Wallace's The Mind of Mr J. G. Reeder. By the time these stories of the omniscient clerk at the public prosecutor's office were published in 1925 Wallace was in decline. He could write a fulllength thriller in a night - and it showed. But I had forgotten that Mr Reeder was an exception in Wallace's final years, with twists in the stories rivalling those of Roald Dahl.

It is a mark of these stylishly produced reissues that the introductions add considerably to the pleasure. Only since A. J. Smithers's biography last year has the strange story of Dornford Yates's retreat into colonial recluseness become fully apparent, but Tom Sharpe has done further research and here

Julian Symons, who introduces Mr Reeder, remarks that read her. So in three months she Wallace showed none of the antisemitism that mars Sapper and Buchan - a charge vigo-

Blind Comer by Dornford Yates (All Dent Everyman paperbacks.

his hero shows him to be nonracist, un-snobbish and non-But it is Richard Usborne -

to whom we owe the phrase "clubland Heroes" which identifies this era of adventure writing - who, to my mind, hits the bullseye. Introducing Bulldog Drummond he recalls: "I wolfed his books first at an age when I wanted to be taught how to shoot the pip out of an age of dismonds. ace of diamonds at twenty paces; how to mix a Martini cocktail; how to twist a poker into knois; how to survive when, doped rigid by villains, I was put at the wheel of my Rolls and sent over the weir

Period pieces, you say? But they wrote their adventures to a high quality of plot and charm in that golden period of the genre. Classic thrillers? Without

doubt. New readers, raised on Forsyth, Bagley or Maclean, start here.

# Daunting memoirs of a harridan of virtue 'A readable feast

Harriet Martineau - the name itself is slightly forbidding, and forbidding in many ways the owner of it must have been. according to nineteenth-century testimony. Reading period memoirs, one has the impression that Harriet Martineau (1802-1876) was not easy to escape from, a feeling which her remarkable autobiography - all 1.000 pages - reinforces.

She is clearly impossible to ignore. No one interested in nineteenth-century social and biographical history can fail to come across her, and Virago, yet again, is to be wholly congratulated on making available to a wider public what is a vivid, if often opinionated, kaleidoscopic view of the political and literary life which Harriet records with near total recall and with such devastating

Driven to the peak of inspiration by duty, Harriet, in her 53rd year diagnosed as a dying woman, decided that life as she had known it and intellectualized about should be set down for posterity. Pos-terity's duty, in her view, was to completed, with the immaculate facility of a born journalist, this self-imposed task, which, clearrously opposed by David ly turned out to be therapeutic. Mill, the Darwins, Florence Self-examination: she was, she Daniell introducing Castle Gay, since she then immediately Nightingale. Thackeray decided, not made for love, only who insists that a full reading of recovered from the menace of Dickens, Maria Edgeworth, for work. And she then turned

Harriet Martiheau's Autobiography two volumes, introduction by Gaby Weiner (Virago, each volume £4.95 impending death and lived a further robust and productive

twenty-one years.

Obsessively methodical, she had made her will, arranged her litérary papers and issued strong instructions for all her letters to be destroyed (letters she considered written conversation, and conversation she deemed private). Whereas her immense volume of published work fiction, political works, essays remains neglected and in the main rightly so, this autobiography is a great classic. It has power and drive which insist on being noticed. It records events, issues and personality sketches which all contribute invaluable addenda to biographers and

Harriet was a very busy social creature, all the more remarkable in that she was deaf and used an ear trumpet, and the celebrities who run through her pages form a roll-call of the century's famous men and women - the Carlyles, Wordsworth, Rogers, the Brownings, Charlotte Bronte, John Stuart

Elizabeth Fry, Robert Owen, the list is never-ending. As a political activist, with

radical sympathies, Harriet, rational and anti-slavery, consulted by Westminster, took part in every social debate of her day and lived through many historical milestones - the aftermath of Waterloo, Victoria's coronation, the Reform Bill, the new Poor Law, to mention but a few. She was unfailingly interested in what was happening in her world, and her memory (aided by her diaries) is speciacularly selec-tive. She had a nose for news and people who influenced

The sixth of eight children in liberal Unitarian Norwich family, she enjoyed the comforts and privileges of a prosperous middle-class background. Early deafness fortui-tously saved her from a governess's life. The collapse of family fortunes, following her father's death, brought out all her indomitable will-power and

A series of 24 monthly essays - political economy in fiction -

from harsh religious doctrines to atheism. Henceforth she would deal only with what faced her. A house in Westminster, shared with her mother, was later given up for a small country estate at Ambleside. though trips to London were

frequent and so was travel.

While one admires her incredible commends her forthrightness about education, social equality and women's rights, one backs away a bit from Harriet. She is solemn beyond endurance, humourless, intensely critical of all weakness in others, a classic example of the wrong person saying the right thing. She barks at one; easy to imagine how frivolous she would make one in self-defence. Proud that she had "emancipated" herself "from all superstition", she would brook no frailty in the next person, and some of her judgments are very harsh.

She predicted world wars in the 20th century, foresaw "the scientific knowledge of human nature". One cannot fault her on principle. Her autobiography demands to be read. Harriet herself would insist we have a brought her success and finan-duty to listen to her right to the cial security. The death of her very end, even if one should fiance strengthened her rigid feel, as one does, a trifle

#### Decorum, doubts and deceit

The Reef by Edith Wharton oman Fever by Edith Wharton (Virago, £3.50)

"Nothing is more perplexing to man than the mental process o a woman who reasons he emotions", says Edith Wharton and nothing, it becomes clear was more fascinating to her Like her friend Henry James she was an American who spen a lot of her life in Europe, and like him, she was interested in the patterns of behaviour or schemes of moral judgment which are sometimes set up as concealments or expressions of powerful emotion.

In The Reef, first published in 1912, she contrasts two types of feminine sensibility in two contrasting women. Anna is a young American widow living in a beautiful French château. She seems, at first an ca-pression of the highest aspirations of sheltered womanhood. In her daily family life and her dealings with mother-in-law and stepson she never falters but when she falls in love and prepares to marry again she is suddenly vulnerable. Because she canot break out of the reticence she has developed she involves herself in convoluted doubts and misunderstandings about the man she loves.

Sophie is her counterpart. Her life has not been sheltered or secure, it has needed frequent reorganization and patching up. so the need for choice has kept alive her spontaneity and enthusiasm for life. Unlike Anna she is free to experience profound sexual love without analysing its context. Yet she is not the heroine. The author's real interest lies with Anna.

Many of the stories collected together in Roman Fever have similar themes. A woman runs away from her marriage and feels she is striking a blow against the rigid convention of marriage, but she finds she is not. In order to live peacefully with another man she must either be married to him or pretend to be, and this realization, which she can never fully discuss with him, lies between them, straining their relation-

Some of the ideas satirized here have now changed, but any social convention puts a restraint on behaviour and it is the restraint which interests Edith Wharton. By careful writing she will point out what is not said in a conversation. and often suggests a relationship by describing the quality of indistinguishable.

Anne Barnes

# With Bold Knife and Fork, by M. F. K. Fisher (Chatto & Windus, £3.95) Jane Grigson's Fruit Book (Pengun, £3.50)

The thing to do with food is cat it, with enjoyment if possible, and without making a religion of it. Reading about it, writing about it, and talking about it may be taking the whole business too seriously. But here in paperback this week are books by two of the best food writers in English, who can write as well as cook, and who can be read with pleasure as well as profiteroles.

M. F. K. Fisher is the dowager queen of writers on browsing and sluicing for the American press, particularly the New Yorker. If a food writer refers en passant to everybody from Robert Burton to the Beatles and The Deipnosophists. if she makes jokes and tells stories, if she is witty as well as learned, that will be Fisher, In theory this book offers more than 140 of her favourite and most famous recipes from Tripe Petronius to St Helena Flimflams. No doubt they are delicious, and presented in such a way that one could cook them oneself, if one decided that one wanted something other than grapenuts. But what is special about Fisher is not the tedious stuff about six teaspoons of dry mustard, but the literary dress-

Who but Fisher would

the fuss is about. Her book is an alphabetical guide to fruit, from apple, apricot, and arbutus to sapodilla, strawberry, and water-melon. Good judges of these matters speak highly of her recipes. Like Fisher, she writes around them with learn- a silence. The dramatic moment ing and wit that are rarely is always the moment of devoted to such a banausic concealment when good mansubject as stuffing food down ners and deceit

## Women's wiles unmask male vanities

The Jacobean playwright John Marston makes a rare appearance on the London stage next week. The National Theatre are reviving The Favon, a little-known comedy using a large number of characters to investigate the balance of power (and understanding) between the sexes, much to the men's

fumed be

Born in 1576, Marston wrote all his plays in his twenties before cutting off his career and going into the Church. The Malcontent is rich in his typical vein of expherantly snarling satire: The Dutch Courtesan is a disturbing tragi-comedy with an hilarious sub-plot. The Fawn is a fawning

flatterer at the court of Urbino. No ordinary flatterer, though: he is Hercules, the Duke of nearby Ferrara, come in disguise to watch his son, whom he has sent to Urbino as ambassador. Urbino's follies and vices tempt him to play first the cynical observer and then the manipulator, buttering up and encouraging the lecher, the adulterer, the jealous impotent husband, the conceited Duke of Urbino himself, until the time comes to humiliate them at the hands of the women they have underestimated. The victims characters are drawn with humorous gusto and the moral for men is clear.

The director, Giles Block, suspects that The Fawn may mark a crisis in Marston's personal life. "I think he had a great problem with sex as a young man in that carious period at the beginning of the seventeenth century - The Fawn

Lost souls: Ray Milland in The Lost Weekend; Karl Scheydt and Irm Hermann in The Merchant of Four Seasons

## Uneasy Hollywood takes to the bottle

its place in cinema history as the first serious treatment of m by a Hollywood studio but there are several other reasons for staying up and watching it on Channel 4 tonight (11.35pm-1.20am).

The film appeared in 1945, the year of victory in the Second World War which the United States had done so much to make possible, but at the cost of a tremendous social

dislocation as men left families for the battlefields of Europe and Asia.

If not directly related to that, The Lost Weekend can be seen as reflecting the anxiety in the country at the time, an anxiety faithfully echoed by Hollywood, whether in socalled problem pictures or in the moral ambiguities of the In its combination of heavi-

ly lit studio sets and location American society were inso-photography on the streets of lubie).

The Wilder-Brackett master-stroke was to cast as the central character (a failed Films on TV central character (a failed novelist driven by drink to the eras to enhance the effect), The Lost Weekend provides a sort hitherto known for his polished playing in light comedy: and the post-war movement towards quasi-documentary.

The director, Billy Wilder had been a contral character (a failed novelist driven by drink to the verge of suicide) an actor hitherto known for his polished playing in light comedy: Reginald Truscott-Jones from Wales, who came into films of the contral character (a failed novelist driven by drink to the verge of suicide) an actor hitherto known for his polished playing in light comedy: Reginald Truscott-Jones from Wales, who came into films of the contral character (a failed novelist driven by drink to the verge of suicide) an actor hitherto known for his polished playing in light comedy: The director, Billy Wilder.

had, in fact, just made one of the outstanding contributions to film noir in Double Indem-As an exercise in playing against type it worked trium-phantly, though paradoxically his very success in the part may have hampered, rather than helped, Milland's career. nity, though after The Lost Weekend his career changed direction and he became better He never did anything reknown for comedies.

As on many of his films, motely as good afterwards. Wilder was his own screenwrit-His consolation was winning the year's Oscar for best actor, er in collaboration with Charand there were Oscars, too, for les Brackett. They took The Lost Weekend from a novel by best film, for Wilder as director and for the Wilder-Brackett screenplay. Frank Charles Jackson, changing it only slightly to give a more hopeful ending (as if Holly-Faylen deserved one as well, for his chilling portrayal of the wood was not yet ready to admit that some of the ills of

Deliverance (1972): John Boorman uses the story of four men canceing down a dangerous river - to explore the savage baast within us (all ITV regions today, 10.30pm-12.30am).
Dracsile (1931) and Frankenstein

(1931): Double bill of classic horror from Universal Studios. Bala Lugosi and Boris Karloff a:a the respective stars (BBC 2, today, 10.00-12.30pm). The Chase (1966): Overheated yc: powerful melodrama, directed by Arthur Penn, about an alleged murderer (Marion Brando) breaking jail in Taxas (BBC 2, Sunday, 10.15-12.30pm)

The Merchant of Four Sessons (1971): Rainer Werner Fassbinder's acathing critique of the German bourgeoisie. (Channel 4, Thursday, 9.30-11 10-m) 11.10pm).

Trouble in Paradise (1932): Herbert Marshall and Miriam Hopkins in a superb comedy of manners directed by the master of Peter Waymark the genre, Ernst Lubitschi (Channel 4, Friday, 9-10.30pm)

#### Critics' choice

CAMBRIDGE FILM FESTIVAL Arts Cinema, Market Passage, Cambridge (0223 352001). Until

July 24. Starting tomorrow, the seventh fastival offers a welcome mixed bag of quality films just released London, films just around the corner (Charles Sturridge's Runners, Mon and Tues) and films still in limbo (Bertrand Blier's dotty but compelling Seau Père, Wed and Thurs). Also six fiery, fighting films by India's Mrinal Sen, including The Royal Hunt and The Man With the Axe (Thurs).

CONFIDENCE (15) Gate, Bloomsbury (837 1177/8482) István Szabó's austere, compelling tale of emotional conflicts be two fugitives posing as a man and wife in Nazi-occupied Hungary; filmed with the same sureness, insight and excellent use of modest resources that marked the director's Mephisto (made two years later).

THE KING OF COMEDY (PG) Sinecenta, Panton Street (930

Gata, Mayfair (483 0691)
Screen on the Hill (435 3368)
A comedy only on the surface:
deep down, Martin Scorsese's
striking film offere a bleak, low-key
examination of desperate people trapped in fantasies. Jerry Lewis gives a remarkable, sour performance as a TV star kidnapped by an ambitious fan; Robert De Niro and newcomer Sandra Bernhard are hardly let...

L'ARGENT (PG) Camden Plaza (485 2443)
The bleak story of a young man's drift towards crime, based on Tolstoy and presented with all the matic intensity its extraordinary director, Robert Bresson, can muster. Action and human feelings are all pared to the bone; the sum total is devastating. LE JOUR SE LEVE (15)

Academy 3, Oxford Street (437 8819) Jean Gabin as a besieged murderer going through his last hours. A welcome revival of French fatalism, written by Jacques

Prévert and directed by Marcel Carné in 1935, with Jules Berry and Arletty.

ONE FROM THE HEART (15) Lumiere (838 0691) Francis Coppola's studio-bours musical fantasy offers scarty human feelings and abundant technological fireworks. Lovers and drifters shift positions one holiday weekend in Las Vegas; the heart is unmoved, but the eye is beguiled.

PAULINE AT THE BEACH (15) Academy 2, Oxford Street (437

Eric Rohmer's new film follows the fortunes of a young divorces (Arielle Dombasie) who encounters an old flame on a seaside holiday and begins a romance with his

THE PLOUGHMAN'S LUNCH (15) Gate, Bloomabury (537 1177/8402) Striking cirematic debut by stage and TV director Richard Eyre; a subtle portrait of post-Falklands Britain, built around a radio journalist with shady morals. Ian McEwan's intelligent script is bolstered by fine location

SISTERS: THE BALANCE OF

HAPPINESS ICA Cinema, The Mail (930 3647) Margarethe von Trotta's disturbing account of clashing temperament made in 1979, seems like a preparatory exercise for the later German Sisters, though the resonant acting (from Jutta Lampe, especially) easily holds our attention. The display of talent makes the melodramatic vacuity of von Trotta's later Friends and Husbands (now at the Academy, London) all the more disappointing.

THE YEAR OF LIVING INGEROUSLY (PG) ABC Bayswater (229 4149) ABC Fulhern Road (370 2636) ABC Shaftesbury Avenue (836 8861)

Plaza Piccadilly Circus (437 1234) Peter Welr's flawed, striking drama about an Australian Journalist's confrontation with the troubled Indonesia of 1985.

The information in this column was correct of the line of going to prime Late of mana and other made and a is an easile to check, using

## Omar Sharif shows his hand

The Treasury and the CBI are suit, write: "Fourth suit forcing which were played between showing strength in both spades and diamonds. Klinger awards the most popular of all the half impending economic recovery. constructive bidding that one the problems in the bidding and 3 points to one spade, and 2 Those who seek confirmation of this optimistic assessment must be heartened by the recent spate of new bridge books, because the publishing world has been especially harshly affected by

Omar Sharif has published Omar Sharif has published Improve your Bridge the his Life in Bridge, translated Lederer Way, by Rhoda Lederer and adapted by Terence Reese, and Amanda Hawthorn (Biblia-Sharif as buccaneering "Cairo will find that the real Omar has wish to be confused by the an artistic, even introspective complexities of advanced play side to his character. There are or the endless artificialities of many amusing anecdotes and some modern systems. ample proof in a good selection of hands that Omar is not only a fine actor but also an incurable bridge addict.

Bridge, the Modern Game, by Terence Reese and David Bird from the pen of Terence Reese, rommands attention. But de-spite the usual lucid style, this is out to provide a description of the largely natural methods employed by today's leading players; but the attempt to simplify is not wholly successful. The authors, describing in two short pages the com-plexities involving the fourth

wonders how the giants of vesteryear managed without it" Times change. I remember vividly one giant, namely Reese himself, once describing the fourth suit forcing as "a pitiful

(Faber and Faber paperback, gora, £3.95), provides a £3.50). Those who think of valuable stepping stone for those who have mastered the Fred", the lover of the good life, elements of the game but do not

Admirers of Harrison-Gray's Losing Trick Count will be able to obtain the authoritative pamphlet from Bibliagora for XJ953
90p. Ask some experts how they value their hand, and they will (Faber, £7.95), like everything reply loftily "by inspection". But I can reveal that there are those among their number who use the losing trick count to a curious book. The authors set confirm the results of their masterful intuition

> World Championship Pairs Bridge, by Ron Klinger (Victor Gollancz, £8.95), is perhaps the best of the crop. All the hands are taken from the five Olympic World Pairs Championships

play that confronted the competitor at the time. When the reader has decided what he would bid and which card he would play, the anthor reveals the full hand, allotting marks for most of the possible bids

Here is an example which the author subtitles "Absence makes the heart go wander". This hand occurred in the 1970 Pairs Olympiad in Stockholm.

and alternative lines of play.

Love all. Dealer West.

765 KJ96 Q865 Q5 ♦ J3 ♥ 10842 AK1098 73 AKJ9 82

The reader is initially presented with the South hand. The bidding has started:

The choice is obviously between a simple overcall of

one spade and a take-out double

points to the double, on the basis that if South fails to introduce his five card suit now the bidding may become incon-veniently high for him to do so

In practice, most players doubled, with the effect that South had to play in three spades West led the VA and switched to the 010. Declarer

won, cashed the two top spades, and played a heart to dummy's king. With nine tricks in the bag, South must address his mind to the overtrick. He could continue with the V9 or the VJ. The nine would succeed if West had started with A Q 5. The knave would produce the extra trick if West had A 10 5. The solution lies in West's failure to switch to a club at trick two. This almost certainly places East with a top club, which leaves West, if he did not hold the VQ with insufficient points to justify his opening bid.

For leading the  $\nabla 9$ : 7 points; for leading the  $\nabla J$ : 4 points; for any other play: 0 points. An unusual and excellently presented book.

Jeremy Flint

## Counter-attack from Tudor times

open defences and there are two basic reasons for this. One is that, despite its antiquity (it was already popular in Tudor days and one can well imagine Henry VIII employing it to while away his welding night with Anne of Cleves), it has about it a highly modern flavour. There is a certain piquancy about this paradox which I find unfailingly attractive.

But, more important than this is the undoubted fact that the Sicilian is not just a defence, it is a counter-attack and is always used as such by the world's best players. Little wonder too that it

figures strongly in the ever-increasing flood of books on openings that have threatened to fill my house and drive me out of it in the past 20 years. It almost goes without saving that the most prolific source is Batsford and there are four of their books which I have failed to review before but which all deserve commendation.

The first contains an odd paradox in that it is, at one and the same time, old-fashioned and very modern: Sicilian: Lines with .e5 by T. D. Harding and P. R. Markland (105 pages, paperback, £6.95). 4.,e5 (or in descriptive P-K4) was advocated by Labourdon-

nais, Lowenthal and Emanuel Defence is the 20-year-old Lasker in the nineteenth century and it was revived in this century by Boleslavsky.

Also old-fashioned but in

Levy (112 pages, paperback, 1982. More modern and very dangerous for both sides is Sicilian Keres Attack by Jon Kinlay (102 pages, paperback, £5.95). It is well written and interesting and possesses the

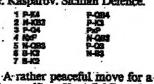

virtue of explaining the ideas behind the opening. Another interesting and still paperback, £4.95).

But far and away the best of O-B3. all these books on the Sicilian is one from a publisher who has announced that he is abandoning the publishing of books on chess: The Najdorf Variation, Sicilian Defence by Yefvin Geller, Svetozar Gligoric, Kavalek and Boris Spassky (originally RHM Press, then Pitman and now A. and C Black, 388 pages). It takes the trouble to explain the ideas and in so doing is of intense interest to anyone who wants to understand more about the

game of chess. Among the more notable Q4; with an active game for practitioners of the Sicilian Black.

Soviet chess genius, Garry Kasparov, who handles the defence with a delightful fresh some respects much alive is with it that was played in the Sicilian Dragon: Classical and Levenfish variations by D. N. L. Championship at Kisland and Levenfish variations by D. N. L.

## Cricketer fined

Sylvester Clarke, aged 28, the West Indian fast bowler, was fined £100 and banned from driving for a year by Horseferry Road Magistrates' Court yester-day, after pleading guilty to driving with too much alcohol in his blood.

# End exams, businessmen say

By Lucy Hodges, Education Correspondent

A group of prominent educationists and industrialists is to recommend to the government that examinations should be abolished and that school curriculum should be revised radically.

Their proposals, worked out over the past week at a conference of a new organiza-tion, Education 2000, also include a legal entitlement to further education and training for all, They say that O levels and CSE examinations should be replaced with new methods

of assessing children. Education 2009, launched last year with the Duke okf argh as its patron, ses to spend the next porters before a second conference is held to work out a plan for what education should be like in the year 2000.

The conference, attended by about sixty people from industry and education at Westfield College, London University, included Mr Albert Dodd, personnel and industrial relations manager of Ferranti, Dr John G. Axford, manager of education and scientific programmes at IBM, Mr Tim Brighouse, chief education officer of Oxfordshire, Mr John Sayer, head of Renhury School Banbury School, Oxfordshire and Dr Ray Rickett, director

of Middlesex Polytechnic. Set up by Dr Bryan Thwaites, the retiring princi-pal of Westfield College, and Mr Christopher WysockWright, chairman of Wright-son Wood, management consultants, the organization will papers written at the conference, to be published in the autumn by the Cambridge University Press.

The group is recommending "changes in the pattern and provisions of education which our developing society needs over the coming two or three

"The key issue is the replacement of the GCE and CSE examination system by new methods of assessing from time to time the progress, capability, and achiev

#### Bereaved parents call for safer double-glazing

The parents of two girl Mrs Doreen Horton, Miss friends who died in a house fire Horton's stepmother, had been yesterday called for national action to ensure safer furniture and double-glazing.

Michelle Horton and Julie Kendall, both aged 18, died in Miss Horton's home in Nuneaton as neighbours tried to smash through a double-glazed

as a battering ram, but the girls had died through breathing toxic fumes from a settee. Mr Alan Dixon, the North Warwickshire Coroner, record-

ed verdicts of accidental death.

He said he was satisfied that the

blaze began in a settee where

Eventually a ladder was used

Horton's stepmother, had been smoking a cigarette. Mrs Hor-ton is recovering in hospital from burns. The coroner said she had told the police she had no recollection of the events of that night. The family had returned from celebrating Miss Horton's eighteenth birthday in

Mrs Dorothy Kendall, Miss Kendall's mother, of Bredon Way, Stockingford, Nuneaton, said: "A lot has been made of the difficulty in breaking the double glazing, but in my opinion the settee was a bigger factor. It is time there were regulations governing the use of materials in lounge suites."

#### Test-tube baby girl makes NHS proud

A little girl weighing 6lb 2oz yesterday became the first test tube baby to be born on the National Health Service for over a year and could be the harbinger of a new programme at the Hammersmith Hospital in London (John Witherow writes).

The girl as yet to be named, was born after a caesarean section on Mrs Elizabeth Hornett, aged 35, who had been trying for 10 years to have a baby.

Although the child is the

first test-tube baby to be born at the hospital, Mr Robert Winston, director of the infertility unit, is planning for fertilized who otherwise could

baby conceived outside the womb at the hospital is

expected in two weeks.

More than one hundred test-tube babies have been born in Britain, almost all of them in two private clinics in London and Cambridge, where hopeful parents pay between £900 and £1,800.

The National Health Service has been inkewarm in its support of test-tube units and only last year one closed at the Royal Free Hospital in Lon-

#### 'Perfect husband' freed after killing

A man who strangled his domineering wife after suffering years of humiliation and violence walked free from the Central Criminal Court yester-

day.
Peter Bandy aged 59 at fireman at a West End theatre had suffered "more than any man should have to bear" Judge Tudor Price, the Common Serjeant, said.

Bandy was given a 12 month sentence suspended for two years for the manslaughter of his wife, Maureen aged 61. His plea of not guilty to murder was accepted on the ground of overwhelming provocation.

The judge told him: "Nothing can punish you more than the

sense of shame sadness, and guilt which will be with you for the rest of your life. It is mare that a man who kills another goes free. But I do not think that the public interest could possibly be served by sending you to prison

Bandy had been voted "Mr.
Perfect" by newspaper readers in a competion, A father of three, from Hainault Essex he said wanted to take holy orders and has been in retreat with monks at Ampleforth Abbey, North Yorkshire, since being

granted bail.

After the killing he told his parish priest: "I have got my crucifixion now and nobody can

ever punish me any more' Mr Michael Worsley, for the prosecution, said the couple married 40 years had "wretched lives" together

Mrs Bandy developed bone cancer in the early 1970's and had to have a leg amputated. As her mental and physical con-dition worsened the "total humiliation" of her husband

His wife took to heavy drinking and was constantly abusive to him once pushing himdownstairs and on another occasin brining his cheek with

Bandy strangled his wife in the hallway of their home on December 27 after a "wretched" Christmas. His daughter, Theresa described him as having "the

#### Britain's future dependent on training of its young people

COMMONS

Eritain would not have a competi-tive base if it did not have the right people with the right skills, Mr Peter Morrison, Minister of State for Employment, said in opening a debate in the Commons on the youth training scheme. Unless they got the training of the youngsters light the country's future was in

Britain's training record had not been good enough. More than one in three youngsters had no training or turther education. The Govern-ment had given an undertaking that by Christmas all 1983 16-year-old school leavers who remained without a job would have been offered a place in the scheme, plus many 17-year-olds as well as deabled 18-year-olds.

The first year's training would serve as a foundation on which to build further more specific skills. A majority of the schemes would be lased in the real world of industry and commerce where profit maisered and therefore relevant training employers, as managing agents, who would ensure that that training was

There were Weary Willies who were still sniping away. There were cries, for example, that the allowance should be increased. It had been decided that it should be left at £25 per week, simply because very pound on to the allowance sas one pound off the training

The level of the allowance had to spending. It was entirely appropri-cie that the hon's share of the amount of money available should

go to the training.

The scheme was not a social service. It was there to teach the work was about arriving on time, giving of your best during the working day and maybe staying on a

little longer to complete an unfinished task. ornesters leaving the youth opportunities programme showed that 42 per cent of those who had erieted the programme a year carlier, between January and March. 1932, were in employment at the time of the survey. A further 11 per

cent had gone into further education or training. He was confident that the youth training scheme would provide even

srekesman on employment (Alynand Deeside, Lab), said the minister's fine words could not distance the fact that the youth training scheme, which they all wanted to see become a rattling need success, was starting at the worst possible time when 1,300,000 prople aged 25 and under were out

work.
The figures showed the bleak nec'atmarish reality and it was into this wretched scene of economic dischine that the graduates of YTS would have to step in 1984.

The sectretary of state had been mean and mistaken to reject the MSC's proposal to increase the weekly silowance out of hand. The CBI's puppet master, Sir Terence Beckett, had said in The Times that an increase was out of the question.
Such Scrooge-like certainty was

both foolish and insensitive.

Was the scheme to be voluntary
or compulsory? It appeared that
youngsters who refused a place on the grounds it was unsuitable might lose their supplementary benefit entitlement. That might be con-strued as blackmail of the school leaver to take a place or else. They would understand it to be an offer they dare not refuse.

With current Government policies, the successful YTS student

would graduate only to the dole

Nellist: Measure to keep youngsters off the street

Mr Lewis Stevens (Nuncaton, C), in a maiden speech, said he greately welcomed the YTS scheme. It was a tremendous opportunity for young people to go forward. One advantage of the scheme was

that it was not stereotyped and the more they would look at people and their aptitudes before they were selected, and try to fit them in, the better. It was a wonderful oppor-tunity to fit people into the right

Mr John Thompson (Wansbeck, Lab), in a maiden speech, said the reduction in the number of apprentices in training would leave a huge gap in the country's requirements in the next decade. Britain's European neighbours were well ahead in their concept of youth

Mr Paddy Ashdown (Ycovil, L), in a maiden speech, said that it was insufficiently realized by many people and especially by many members of the Government that

there was a differential aspect of miscry between those unemployed in rural areas and those in town. In the country they were not only psychologically separated from other members of society but physically separated from facilities

going to bappen was that at the end of this year youngsters' visions of the future might well have risen, but there would be nothing there to

In many ways it was not, as the Government would have them believe, a bridge from school to work but a stepping-stone into the oblivion and misery of the adult

Mr Parrick Thompson (Norwich North, C), in a maiden speech, said he hoped the Government would press ahead with the modest and interesting scheme to give some of Britain's young people the oppor-tunity to spend a year in the Army, There would be problems with

dole queue.

the scheme. There might be a risk that it was open to exploitation and it might be that some of the courses were not as broad-based as they

Mr Robin Corbett (Birmingham, Erdington, Lab) said the scheme was approved far 100 late against a ound of staff cuts and turmoil in the Manpower Services Commission. The Government would live to regret its decision to wring the necks of the industrial training

Mr Richard Holt (Langbaurgh, C), in a maiden speech, said one of the acheme's problems was that it was geared to a one year system. They should consider how long it would anotal consister flow rough two works
take to train someone to become
adequate at a particular job.
If it only took six months, or if it
took two years, the scheme should
be flexible enough to provide that

Mr Charles Wardle (Bexhill and Battle, C), in a maiden speech said that employers had been encouraged by the practical content of the training. There would be some hiccups in the pilot schemes and some carping. It was hopelessly short-sighted to

regard the £25 allowance as a wage to be subjected to the process of collective bargaining. That would undermine the very spirit of the

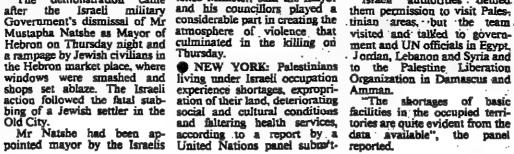

Mr David Nellist (Coventry South East, Lab), in a maiden speech, said YTS was not born out of an altrustic gesture gesture by the polictical representatives of the ruling class. It was concrived as a policing measure to keep the youth off the streets and dole figures. It had nothing to do with giving young workers a chance to make a genuine

contribution to society. The training content of the course was negligible; the prospect of a job remained a cruel myth. The allowance had been frozen since January 1982 at a paltry £25 a week.

were a calculated and cynical attempt to drive down the general level of young workers' wages. Mr James Lester (Broxtowe, C) said that the YTS was a beginning and should develop to meet the needs

caused by future changes.
It was essential that qualifications nd services.

He had a great fear that what was should be recognized in the YTS and that a degree of training for particular industries be recognized: in supermarkets and stores, trainees represented a value for the employer, while in engineering they

## **Press Bill causes** storm in Canada

The Canadian Government has stirred up a hornet's nest with controversial draft legislation aimed at curbing the

growth of newspaper chains.

A Bill recently made public would make it an offence for any individual or group owning daily newspapers that account for more than 20 per cent of national circulation, to purchase more newspapers or start

The penalty for infractions is The penalty for infractions is a fine of up to \$Can500,000 (£263,000). The proposed Bill would stop Canada's two largest newspaper chains – Southam and Thomson Newspapers – from acquiring any more

Southam already owns 15 of Canada's 115 daily newspapers, with 27.6 per cent of total national circulation and Thornson 41, with 21 per cent of national circulation.

The Bill steers clear of any

divestiture provisions, though either group would have to be broken up if it changed

The long-awaited Bill was immediately condemned by spokesmen for the newspaper chains, as well as by the parliamentary opposition, after being unveiled by Mr James Fleming, the Minister for Multi-Culturalism.

Mr Perrin Beatty, the Conservative Party's media critic, called the proposals odious, dangerous and quite possibly

illegal. Mr Gordon Fisher, president of Southam, said there were some major unanswered questions as to the constitutional validity of the

proposed Bill. Mr Ken Thomson, president of the Thomson chain, said there was every possibility that the Bill's constitutionality could be successfully challenged in court. Freedom of the press is protected under the Bill of Rights, which forms part of

Canada's new enacted last year. Mr Fleming insisted that the Liberal Government would win the legal battle which would ensur if it pressed ahead

The legislation is a direct result of a convulsion in Canadian journalism three years ago when two old, established newspapers, the Thomson-owned Ottawa Journal and the Southam-owned Winipeg Tribune, were shut on the same day. The moves left the Southam-owned Octawa Citizen and the Thomsonowned Winnipeg Free Press without English-language competition in their respective

More jailed political leaders are expected to be released gradually in a an attempt to improve the political climate in anticipation of local elections to be held early next year.

Under pressure to return Bangladeah to civilian rule, nounced that a general election could take place by March, 1985, if conditions were right.

Earlier this year he promised elections by October, 1984, but local elections would precede national elections to build up 'viable grass-roots democracy'

DELHI: The Government will construct a "Berlin Wall" on the Bangladesh border to stop Bangladeshis crossing illegally into Assam, Mr Hiteswar Saikia, Chief Minister of the northeastern state said yesterday

(AFP reports), The 160-mile wall would seal the border and Indian border security units would check any violation or detect people trying to scale it, Mr Saikia added. The wall would cost 570m

rupees (£35m) and construction would start soon, he told the

#### **OAU** split as Chad war widens

From Godfrey Morrison

As the fighting intensifies between government troops and rebels in Chad, inter-African diplomatic lobbying is splitting the continent into its tamilar moderate and radical blocs.

A message from President Hissene Habre of Chad was due to be delivered to King Hassan of Morocco yesterday, amid speculation that the Chad Government may be seeking Moroccan help in its battle against the forces of the former president Mr Goukouni Oued-Moroccan officials said they

thought it unlikely that Morocco would send troops to help the Chad Government, though Morocco has expressed support for Mr Habre against the rebels, who are believed to be receiving strong support from Libya.

A communique issued here last weekend after talks between King Hassan and Colonel Gaddafi, the Libyan leader, was silent on Chad, even though it was a principal subject during the first talks between the two leaders for more than a decade that, despite Colonel Gaddafi's visit, Morocco and Libys remain at odds on the issue.

Zaire, a leading moderate, in the only African state so far to have sent troops - 250 para troopers - to help Mr Habre, a move strongly criticized by Lieutenant-Colonel Mengistu Haile Mariam, the Ethiopian leader, who is chairman of the Organization of African Unity and a leading radical. Earlier this week Mr Inonga

Lokingo Lome, the Zairean Transport Minister, held talks here with Muhammad Beucettas, the Moroccan Foreign Minister, which are believed to

have centered on Chad.
That the Chad fighting should reopen the moderateradical split is hardly surprising, because disagreement about who should represent Chad was a principal cause of the failures last year to hold the annual meeting of the OAU.

## Murdered Bloomingdale | Pope pleads mistress was destitute

Some people believe that sleeping on a rockhard bed is the answer to adequate body support. Hardness, they believe, helps keep the spine straight and flat thus avoiding the stresses and strains

that lead to backache.

one that bends you rigid.

lives up to its name.

But hardness isn't the answer. The best way to avoid stress and strain on the spine is by supporting it naturally, which means you need a bed that shapes to your shape instead of

Beautyrest Backcare - The Bed That Shapes to Your Natural Shape. In every respect, the Beautyrest Backcare bed

Thanks to its unique construction, it supports your body like no ordinary bed can because each and every spring of a Beautyrest Backcare bed is totally independent.

As you can see in the picture above, a Backcare bed shapes itself to fit the contours of your body. Whether you're on your side or your back you get the support you need exactly where you need it.

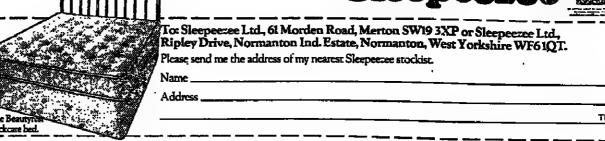

All of which helps to explain why Beautyrest Backcare beds are among the best selling beds you Buy One Now and Save Some Money.

Because it's no ordinary bed, you can't expect a Beautyrest Backcare bed to carry an ordinary price.

But, if you hurry along to the summer sales, you could buy a Beautyrest Backcare double bed for as little as £399. So why not treat yourself to one of the most

backsaving beds that money can buy at an attractive summer sale price. Apart from saving your money, it could easily

save your back.

#### THE TIMES DIARY

#### Peace work

The Polish exile composer Andrzej Panufnik has dissociated his latest work, A Procession for Peace, commissioned by the Greater London Council in its "peace year", from any political campaign. "I composed it", he says in a programme note for tomorrow's world premiere, "having no affiliation to any reserve organization of ation to any peace organization or political party". He told PHS: "It has nothing to do with CND. One reason I wrote it was to show that I, an anti-communist, want peace just as strongly." The eight-minute work was originally called *Procession for* Peace with Freedom and Justice. Panufnik was persuaded to shorten the title by his publishers and the GLC. The composer, who has lived in Britain for 30 years, says he is unversed in domestic politics. He was surprised to hear that the GLC's leader is commonly known as "Red

#### Quick March

Sir Roy Strong, director of the Victoria and Albert Museum, has emerged as the person most likely to at the Royal College of Art. Strong is prominent among the committee of six who are to put forward a successor to Dr Lionel March. At yesterday's emergency meeting of the RCA Council March outlined at length a development plan for the college. The outgoing rector was cut short by another council member, Sir Huw Wheldon, who said simply: "But you won't be here". Dr March was then asked to leave the room.

wing an MCC team at Hurlingin they could muster only 98 in to more than 240. MPs caci Mates, David Madell and Ourt Hicks were all out for ducks, top scorer (30) was Lord Orr-wing. Lord Orr-Ewing is 72.

#### Jenkins' year

As I observed in May, they need not have bothered to hold the general election because Old Moore had predicted the outcome a year ago and of course he was right. Now, though, the boot is rather on the other fact. Old Moore need not have bothered to publish the 1984 Almanack, now on the stands, because several of its most interesting predictions have already oc-cured. Most notable among these is cured. Most notable among these is Michael Foot's resignation of the Labour leadership. On the other hand, the sage sees 1984 as a year in which Roy Jenkins could gain "considerable authority", which seems unlikely. There is no mention of Dr David Owen, Jenkins successful Owen, Jankins successful Owen, as a dougle of the described Owen as a dougle of the Michael Court as a dougle of the Michael Court as a dougle of the Michael Owen as a dougle of the Michael Court as a dougle of the Michael described Owen as a dangerous and unstable figure with a "Node on the rising Uranus." I can understand that that would put the soothsayer

BARRY FANTONI

'In the old days you had to be in a West End play to do this in public'

#### In hot water

Perhaps Princess Alexandra will spare a thought for her new neighbours at the bottom of Richmond Park, whose housing estate she opened in April. So heavy estate she opened in April. So heavy was the flooding in the park on Wednesday that a lake formed against the perimeter wall, finally sceping through to flood and damage properties in the Queen's Road estate. Now the angry residents' association says neither the landlords the Powel Park and the landlords, the Royal Parks, nor Richmond Council will accept responsibility, and that the tenants cannot embark on repairs because they may not be reimbursed. There are no such problems for the Ogilvys, whose Thatched Lodge stands on one of the highest points in the park.

#### Telling all

God and Mammon take turns at the huge Connaught Centre in Hongkong. Hongkong Land has started lending the ground floor banking hall to the Jesuits to run religious services for the colony's Filipino maids. The bank counters serve as confession boxes.

the society's shop at Sandy, Bedfordshire, were called off when 30 long-eared bats, some pregnant, were found in the roof space. Bats as well as birds are protected by the Wildlife and Countryside Act, and at the suggestion of an adviser from the Nature Conservancy Council the RSPB sales department has postponed work until September when the bats will have finished breeding. Then the ceiling will be raised, instead of removed as originally planned, so that the bats can still have a nursery above it next year.

Piers Brendon traces unyielding Church attitudes to the influence of

the Oxford Movement, 150 years old this month

# A High road to Anglican UDI?

been an infernal muddle. Its liturgy is Catholic, its Articles are Protestant and its clergy runs from High, through Broad to Low. It forbids women to be priests but its head is a woman - who becomes a Presbyterian when she sets foot in Scotland. Its adherents range from permissive trend-setters to Festival-of-Light fanatics. Almost anything is allowed in the Church of England - even

Christianity.

History, of course, is responsible for all this confusion. After the break with Rome at the Reformation, the established Church had to accommodate a compromise in its beliefs and a nation in its pews. It could only do so in a spirit of uneasy toleration. The ecclesiastical expression of that spirit is still visible. There are Anglican churches as stark as dissenting tabernacles, where dour ministers preach the Word in the fashion of Puritans during the Civil War. And, also within the Church of England's fold, one can attend Mass celebrated by genuflecting priests dressed in copes and chasubles, and surrounded by enough candles and images to satisfy

the Pope.
Yet "smells and bells" and suchlike were unknown to the Hanoverian Church, even though it was so latitudinarian that Bishop Warburton could delclare: "Orthodoxy is my own doxy; heterodoxy is another man's doxy. For in the perpetual tug-of-war between High and Low the latter was winning. The and Low the latter was winning. The eighteenth-century Evangelical revival stressed Protestant doctrines, especially salvation by faith, and the Catholic channels of grace, the sacraments, were neglected. In most churches Holy Communion was celebrated only three times a year.

One hundred and fifty years ago, however, an event occurred which

however, an event occurred which pulled the Church of England decisively back to Catholicism. On July 14, 1833, a High Church Oxford divine named John Keble, speaking before the assize judges from the pulpit of the University church, denounced "National Apostasy". He condemned the reforming tasy". He condemned the reforming Whig government, which proposed to abolish 10 Irish bishoprics, for laying secular hands on sacred property and thus abandoning Christianity. Keble reasserted the independent authority of the Church, which rested not on state support, but on Christ's commission to St Peter. This had been transmitted from bishop to bishop down the ages and the apostolical down the ages and the apostolical succession bridged the gulf of the Reformation. In other words, Keble argued, the established Church was not the Protestant Church of England, but the Catholic Church in England.

Even by the standards of the day (when Oxford preachers could be heard extolling the merits of Abraham as a country sentleman) Keble's sermon was hardly an exciting one. Compared to the dramatic popular crusade launched by Wesley a century before, it was arid and academic. Yet it sparked off the greatest religious revival of the nineteenth century. This was the Oxford Movement or Tractarianism (not to be confused with the Evangelical Oxford Group or Buchmanism in the 1930s) which stamped its mark permanently on the Church, and thus on England.

How was it that a small clique of donnish parsons, using old-fashioned tracts as their means of propaganda, could achieve such a revolutionary result? A general answer is that the Oxford Movement, which revived elements of beauty and mystery in Anglicanism, drew strength from the prevailing Romantic climate. Hostile to the secularism and rationalism of the enlightenment, alarmed by the French Revolution, alienated by the hideous processes of industrialization, men looked back with nostalgis to the faith, piety and order of the Middle Ages. The Oxford Move-ment was part of the Victorian rage for medievalism, otherwise manifested in Disraeli's Young England

THE POPE "TRYING IT ON" MR. JOHN BULL.

movement, the Gothic revival, Pre-Raphaelitism, Ruskin's Guild of St

George and so on. A more specific reason for the Oxford Movement's success is to be found in the character and ability of its leaders. Keble, its "true and primary author", was a saintly figure in an age when sanctity was a more palpable force than it is to a generation from whom the sea of faith has largely ebbed. His poetry was as influential in its day as Wordsworth's, though Sydney Smith (who disliked the Tractarians for preferring the earthly candlestick to the heavenly light) unkindly dismissed *The Christian Year* as "The Sunday Puzzle". Other Tractarian chiefs, notably E. B. Pusey, were men of outstanding intellectual and

moral stature. The genius of the Oxford Movement, however, and its preeminent spiritual leader was John Henry Newman, Newman had the imagination of a great artist. His senses were so subtle that the Fellows of Oriel made him choose their wine, though he seldom drank. His mind was worldwide to it we owe the hymn "Lead Kindly Light" and How Punch viewed the Oxford Movement's Catholic tendency, with E B Pusey as the Pope. Left, John Keble, who effectively founded the movement with a sermon in July 1833 in which he linked the Anglican hierarchy directly – despite the guif of the Reformation – via Rome to Christ's commission to St Peter

what is perhaps the finest autobiography in the English language, the Apologia Pro Vita Sua. Newman, intent on achieving "a second Reformation", also wrote the most vigorous and effective tracts. And this sermons were so imbued with the beauty of holiness that, hearing them, many of his contemporaries understood for the first time the religious meaning of what they had been saying all their lives.

Newman's influence was im-mense - it extended even to The Times, which thundered on his behalf. For hundreds of young men, was said, "Credo in Newmannum" was the genuine symbol of faith. A generation of Oxford undergraduates adopted his views, treasured his hints as oracles, imitated his mode of speech, slumped into their pews as he did, and adopted his long-tailed coat as the badge of the movement. Before long many of them had become devout and high-principled clergymen and were spreading the Tractarian message through the parishes of England.

At first the Church responded favourably to the Oxford Movement. The bishops were pleased to have their spiritual authority magnified, though they were somewhat dubious about Newman's good wishes: "We could not wish them a more blessed termination of their course than the spoiling of their goods and martyrdom. Soon the doubts grew into suspicions that Anglo-Catholicism was leading to Roman Catholicism. But even

though Newman did secode to Rome in 1845 (followed by some disciples, including the future Cardinal Manning), his spiritual impulse had been so strong that it enriched both the Church he left and the Church he joined.

As the Victorian age progressed, the High Church Movement embraced an increasing number of Anglican clergy, many of them in large incustrial towns. It prompted the foundation of them in the foundation of the fo the founding of monastic orders, the revival of worship, especially its sacramental side, and above all the elaboration of ritual.

came to terms with ritualism, as it had done with so many other apparent anomalies. And by the twentieth century Angio-Catholics probably constituted the strongest party in the Church of England. They also provided the firmest bulwark against what Newman had foreseen as a major new threat to organized religion - "all-corroding. all-dissolving scepticism".

Today it is the High Church brigade who resist joining the Methodists aboard a "celestial omnibus". They prevent the ordination of marine And it is tracked. omnibus". They prevent the ordination of women. And it is probable that they will lead the way to the inevitable disestablishment of the Church of England. Modern "successors of the Apostles" (as Macaulay irreverently dubbed them) will thus take the Oxford gospel of ecclesiastical independence, which Keble so memorably enunciated a century and a half ago, to its logical century and a half ago, to its logical Conclusion. O Times Newspapers Limited, 1983

#### Alastair Brett

## No longer a law unto themselves

Last year was a distinctly un-comfortable one for the Law Society, the governing body for the country's 42,000 practising solicitors. An increasing number of solicitors' bills were referred to the Society for adjudication as to their reasonableness and more claims were made against solicitors for professional negligence. In addition, a real threat to the profession's monopoly on house conveyancing prompted the Society for the first time in more than five years to prosecute four unqualified conveyancing agents for preparing cut-price transfer docu-

To add to its misery, the Society not only had to fight a rearguard action against banks and trust corporations which are croding the profession's monopoly in probate matters (the right to administer a deceased's estate) but also had to oppose the Lord Chancellor's Department over new legal aid

But while the Society may have had a had year shoring up its creaking edifice, it showed what it could do when confronted with a hadly drafted Bill which offended the profession and the essence of a free democratic society. In its representations to the Government over the Police and Criminal Evidence Bill, it scored a notable first in opposing increased police powers which were not balanced by adequate safeguards for the suspect and the confidentiality of pro-

After yesterday's annual general meeting, it is this dilemma which faces the newly elected president and Council of the Law Society. Is it to be little more than the custodian of restrictive legal practices, tinkering with peripheral legal reforms, or is it to become the powerhouse of a reforming movement dedicated to streamlining a ponderous legal system already bowed under the increasing burden of legal costs? It is becoming clear that if the Law Society does not put its own house in order, others will.

The worst problems require real reform and not fine-tuning. At the heart of these lies the ever increasing cost of going to see a solicitor. This is partly the result of serious shortcomings in the legal system itself but is also caused by straightforward overcharging by some solicitors for services which could be provided for half the cost.

Whereas conveyancing used to be one of the most profitable areas cornered by the profession the really lucrative work for solicitors now lies n the company/commercial field. Large companies rarely query solicitors bills and some City solicitors are charging £100 an hour

or more for expert advice.

While this may be acceptable to many wealthy corporate clients, largely because legal fees are tax deductible, a charge of £100 an hour or more is light years away from the scale of rates laid down by the Lord Chancellor's Department for criminal logal aid cases or what would be people.

litigation.
It is in fact the wide divergence between the scale rates allowed by the courts and the hourly rate usually charged for un-contentious business which so often baffles the layman. And it is in the un-conten-tious business field that the Law Society has particular responsibility to check its members' bills when asked. But this is precisely where, to its harshest critics, the Society comes perliously close to outright hypocrisy with its little-known and largely ignored booklet The Expense

of Time, a guide on how to work out an hourly charging rate for each solicitor in a partnership. Criticized in 1979 by Mr Justice Goff in R v Wilkinson, and now in its third incarnation, The Expense of its third incarnation, The Expense of Time still perpensions the highly "misleading" idea of "notional salaries" for partners - £15,250 for Central London and £11,450 elsewhere. But these notional salaries, published monthly in the Law Society Gazatte, bear little or no relation to what partners, particularly £100-an-hour partners in the City, actually take borne, a fact openly admitted by one of the Society's full-time officers.

Moreover, according to the same

Moreover, according to the same officer, The Expense of Time is "not meant to be understood by the layman", a statement likely to perpetuate the belief in some quarters that the Society is shrouding its activities in secrecy and behaving little better than some of the more powerful trade unions in protecting its own members' mon-

protecting its own memoris mon-opoly.

The increasing mease over some solicitors' fees provoked the CBI to hold a one-day conference last month on "Managing legal costs". Almost without exception the speakers recommended that com-panies with a sufficient volume of level work in particular conveyance. egal work, in particular conveyancing, litigation and some specialist fields, should set up their own legal

departments.

Apart from scrapping The Expense of Time and devising a simpler and more straightforward guide to solicitors' costs, the Law Society must come to grips with the urgent need to reform certain aspects of civil prodedure. Most notably it must accept that in many cases it is an unnecessary and cases it is an unnecessary and expensive luxury to have both a barrister and solicitor in court at the same time. This not only leads to a doubling of costs but a barrister accompanied by a junior clerk or the client in person would in many cases be just as effective.

If the Society fails to grasp this nettle and continues to oppose the Lord Chancellor's Department in trying to reduce unnecessary legal

trying to reduce unnecessary legal costs it will encourage the belief that it is nothing more than the custodian of restrictive practices with nothing better to do than prosecute unqualified conveyancing agents who see themselves as the Freddie Lakers of the legal world. This will hardly elevate the profession in the eyes of right-thinking

#### Jonathan Sale

## Read all, analyse, take heart

Here is consolation for anyone now whom the fates had shifted slightly taking, waiting for results of, or above the pass-mark. But if my BA contemplaing low marks in examin- was a skin-of-the-teeth affair, how ations, and indeed for the parents of much more miraculous was that of those three unhappy categories. the man who was supposed to There is life after exams, even if the accompany me to supervisions. marks achieved suggest that the candidate should never have been even more of his time than mine, he allowed further than a remedial reading class.

I do not actually hold it against a young person who chalks up high marks, I was one myself, once. Alas, it has been downhill all the way since. When I was 13 I won an exhibition. At 15 I failed just one of a string of 0-levels. At 18 I failed an A-level which I had passed the year before. Then there was university. The

most important event of my first year was calling on a lecturer who was saying goodbye to a student at the end of his academic (if that's the word) career. "Don't worry," kindly old soul said, tapping the side of his nose, "I happen to know that when the Finals results are announced next week, you'll be all right." The lad's face lit up and he right." The lad's face lit up and he strode off happily into the outside world, where a theatrical directorship awaited him.
"You mean," I said, "he's got a

"No, no," said the lecturer, "a

Third—but he has got a degree."

Third—but he has got a degree."

How pathetic, I thought, that scraping the lowest possible Honours degree was cause for congratulation. At least, I thought that for a time, until my own lack of skill in the examination chamber of horrors became apparent. Realizing that I was not exactly a high flyer, I took the precaution of finding a job before the results of my Finals could spoil my chances. Then I went to take my leave of the lecturer.

"Don't worry," he said, lowering his voice, "you'll be all right."
"You mean?" I gasped, "a Third?
My very own degree?"
He tapped the side of his nose.

As it turned out, I need not have worried. My employer-to-be had spent his first two years at university driving his sports car and inheriting a fortune. His tutor gently suggested that there might not be a third year, so he climbed into his car and drove to London, where he bought himself a magazine to pass the time. On which, much later, I worked.

Not only did my boss refrain from asking about my degree, he was pretty impressed that I had been clever enough to last three whole years at a place of higher learning. Or lower learning, as it was in my

Michael Hamlyn | case. I was, in fact, an exam failure who isn't during exam week.

even more of his time than mine, he could never quite squeeze super-visors into his schedule and they simply assumed I was on my own. In the few days before Finals, he took it into his head to accompany

me and I introduced him to the surprised academics as "This is Richard - I don't think you've met." He was in turn astounded when I came out with difficult words like "Dickens", "Kears" and - once, when I was really on form - "the Romantics". I was cross when he Romantics". I was cross when he clocked up the same degree as I did, reckoning that if he was worth a Third, I should have been a professor at least.
He came to a bad end, I'm afraid,

as a presenter on Channel 4. If only he had stuck to his studies, he could have been an unemployed lecturer like the rest of our contemporaries.

It is, as we discovered, easier to fiancel your way to an Arts degree than to a Science. The same is true at both O and A levels, or certainly was the case last year for entrants to the Oxford and Cambridge Board. At O level, 95 per cent offering English Language achieved some sort of pass, as opposed to 38 per cent of science entrants. At A level approximately twice as many English and Physics candidates made the grade.

Even so, there are those who fall through the bottom of the most generous of nets. In my time there was always some poor soul who writhed around for a bit over his papers and then rushed out. There are cases of candidates experiencing an actual paralysis of the writing arm. (With me it was the brain.) Some make themselves so high on

stimulants that they have to be led into the exam room and pointed at the paper, which they answer as best they can, that is, by writing down their own name and nothing but their name for the next three hours. Robert Morley's way of passing the time was to write down the names of the Twelve Apostles ad infinitum. He failed, generally, like the medical student whom a friend of mine observed with the rabbit which candidates were supposed to dissect. Instead, this one proceeded to turn up the Bunsen burner and barbecue the creature. He turned out to be mentally unbalanced, but then,

## After the vindaloo, an evening of video piracy

With a grinding of gears, and a spin of the wheels eddying dust around the crowded midnight bus station, the long-distance coach from Karnataka to Bombay pulled in for a passenger "comfort stop". But no one got off.

All the passengers were glued to their seats, watching a television screen above the driver which was showing an Indian film starring heart-throb actor Amitabh Bachan Only when the conductor pulled out the plug and the screen went blank did they scrabble out to stretch their cramped limbs.

As the driver pulled out and the video tape started running again, several bystanders ran alongside to catch a glimpse of the action.

The long-distance video bus is only one manifestation of the extraordinary growth of the video industry in India. Video screens showing the latest films in Hindi, Tamil, Bengali, or any other of the 16 languages covered by the Indian film industry, are popping up as enticements to custom in bars, cases

restaurants and five-star hotels. Shree Ram Bohra, president of the Motion Picture Producers Association, says crossly: "I went to the Maurya Hotel in Delhi and they PHS were showing five films on closed-

Unreleased in India but widely watched on video: E.T. and Rocky III

circuit TV. Three English and two because of the video boom. "Every

He was angry because every video-taped film shown in India is shown illegally. "Not only do we not release films for video-taping, we have actually forbidden it," he says.

The Indian film industry is vast.

Last year its turnover was 8,000m rupees (£500m). It employs 350,000 geople and makes almost 800 He produced a programme for the Ordnance Club, a Defence Ministry institution in Calcutta, which advertised a showing of Rocky III. The film has not even opened in Indian cinemas. Nor has E.T., but that is widely available in the video shops springing up in every big bazzar of every town of any size.

The underground bazaar in the centre of Delhi has three such stores. The range of films available is astounding, and the hire cost can be as little as 10 rupees (about 65p) a

The smarter invitations these days read: "So and so invites such and such for a buffet supper and video". In fact one middle-class Indian of my acquaintance declared that a supper invitation that did not include a video show was very

The film industry is of course cruelly hit by this illicit and widespread exploitation of its product. Mr Bohra said his organization estimated that cinema box-of-fice receipts had fallen by 30 per cent time a video tape is shown, we lose five balcony scats", he said. The Indian film industry is vast. people and makes almost 800 feature films a year. Because of the video ouslaught, that number seems

likely to fall. The industry is also feeling the pressure of an entertainment tax imposed both by state and central government Interest on the money rrowed to finance a film can be as

gh as 36 per cent. Film makers blame the govern-ment for an imadequate law of copyright which is permitting the wholesale piracy of their product, and blame it also for opening the floodgates to the video machines.

Two years ago a video cassette player cost more than 50,000 rupees (£3,500). By last year the price had dropped to 30,000 rupees (£2,000), the result first of smuggling to those suxious to be ahead in the status stakes, and, second, because a few companies had started assembling sets from imported parts.

At the end of last year, in time for the Asian Games, the government decided to allow the import of 90,000 colour TV sets in kit form to

be assembled by Indian companies it also announced that Indians abroad could make gifts of TV sets to relations back home at a lower rate of duty. Early this year it decided to allow video cassette players to be brought in as part of personal luggage, again at a lower rate of duty.

No one knows how many cassette players there are in the country now, hough the national magazine India Today hazarded that 300,000 are already installed and that the number is growing by 20,000 a out, has one car or telephone for every 100 in the United States. But in video cassette recorders it has one for every 15. Since the government is bismed.

the government is looked to for relief. What the film industry wants first of all is an enforceable copyright law, similar to that proposed in Britain. It also wants lower taxation, but then so does everyone else. In the meantime, producers make

sure the master print of a new film never leaves their possession before general release. "It stays under my

#### NEEDFUL BUT PAINFUL

Only four weeks into the life of emphasis on heroic financial the new Government, and already the axe falls on health services and social benefits: no wonder that its opponents have. returned to the election theme of a secret manifesto. Only two days before the election, Mr Norman Fowler declared that it was out of the question that a reelected Conservative Government would cut NHS spending: where are those promises now? Unscathed, as a matter of fact, if the small print is consulted. Mr Fowler took care to confine his pledge to cuts in the planned spending laid down in the annual public expenditure White Paper. Mr Lawson is demanding changes in response to evidence that the NHS, and indeed the public sector as a whole, is overrunning the spending limits set for the current year, and to bring the figure back to target.

But this will not pacify either those looking for material to feed a political outcry or those patients who will suffer from the impairment of services that the announcement will lead to - or, since the ways and means behind specific vexations are seldom indentifiable, any patients who suffer delay or inconvenience in a service where these things are not rare, and want someone to

blame. Like all Governments, this one has many audiences to appeal to, and cannot please all them all the time. Its the total, and represent little

control makes it sensitive to signs that control is less than perfect. So it acts boldly to impress the City over endemic failures of public-sector targetry that do not immediately threaten its strategy and might in other circumstances have been left to be mopped up by contingency funds. There is prudence in acting early as well as solicitude for the image. But for the sections of the public for whom cash limits are a hazy abstraction, an assault on social services when the new Tory recruits in the Commons have scarcely. been sworn in risks creating an impression of lack of heart, and also of frankness. This may be a problem of growing significance, if, as seems possible, further nudges to reassert control be-

It is not the case that these adjustments exist in a realm of high accountancy remote from the everyday. In a service where planning needs to look well ahead and existing commit-ments cannot be shelved lightly, cuts imposed within the current year can scarcely fail to be disruptive both of present care and of attempts at rational

come neccesary in coming

months.

disposition of resources. Overall control there must be, of course. The cuts demanded of the NHS are only a minor part of

more than a hundredth of NHS spending. Given the general constraints on public spending since 1979, the Government has not dealt harshly with the NHS. No doubt there is scope for savings in some manpower areas and in some inefficient practices. Mr Fowler's own affirmations that no fundamental threat is intended to the NHS (which the evidence suggests is the fairest available provider of health care in hard times) have been vehement

overspending comes The mainly in two areas which cannot be cut, under present practices - social benefits and general medicine. Whatever scope there may be for economies in these areas, it is impossible to eliminate the unpredictable from our social provision altogether. The Government itself, by narrowing the margin of error this year, added to the risk of embarrassing reversals like this one. Policies that favour the well-off, like the raising of mortgage tax relief (which alone will cost half as much as all the savings the NHS has to find) risk promoting the impression that the Government is not concerned to spread burdens fairly. and tend to obstruct the task of getting across to the public the important and inescapable message that a society can only afford the public services that it is able

#### ONE RUNWAY AT A TIME

mothers in Stansted, Hoggeston, Yardley Chase and Wing, and even a few in Foulness, who were not yet born when the interminable merry-go-round of hearings and submissions on Stansted and its more or less unwilling rivals to become London's third major airport first started turning. After so long a history of inconclusiveness it may seem naive to attach any definite hopes to the ending this week of the current inquiry's hearings after 21 months. It may be as much as a year before the inspector has reported and the Government has announced its decision - and it is touch and go can result before the 1990s. This finding of the Commons committee which first pointed the finger at Stansted in 1961, that Heathrow and Gatwick would only be able to handle the expected traffic until 1972.

That prediction was wrong only one of innumerable husks of false prophecy scattered along the way. It is easy to ridicule the planning procedures which have lct twenty years pass without a decision that would stick. But it has to be admitted that a snappy process of selection would have lumbered us in the years just before the oil price crisis with a giant new airport that we did not need, sited in an area of valuable countryside, at a cost far dwarfing even that of the successive inquiries which have successfully averted that threat.

र १५५५ 🖰 अधि

· heari

But these are negative provide not only a means of

There must be fathers and the necessity upon us already? In the last few months the Department of Trade and British Airways have yet again scaled down their predictions of traffic levels between now and the end of the century. But all estimates envisage growth, and if Britain is to continue to reap the considerable rewards of being one of the air crossroads of the world, it will have to be provided for. Some choices are pre-empted by failure to make a choice, and a point may come when we may find we have missed our best

The final decision will in any event be a political one. But it will be made in a political whether a working air terminal climate formed, partly at least, by the evidence brought forward is slow work, in the light of the in the inquiry. Slow and costly as it has been, the inquiry seems to have proved an instrument better suited than its predecessors to comparing the multiple choices before it. Is new growth needed at all - how much - when - and where? Often there seems to be a case in planning inquiries for a two-stage process, where the general questions can be got out of the way before the question of where - which rouses the deepest territorial passions is approached. But in this case at least the economic and technological arguments are so continually in flux that a serial pattern would have been unhelpful.

The conflict has not been a straightforward one between environmentalists and developers. British Airways and the British Airports Authority have taken opposed positions, with achievements for a planning the regional lobby making a system. Can the mechanism strong diversion, and the enviroumentalists bringing up the dignified procrastination over rear with Foulness or an unquestions that prove to be complicated "Not near me!". premature, but also a decisive. The airline has no enthusiasm and acceptable yes, when that for Stansted being reluctant to eventually becomes necessary? Is have its traffic rusticated to

another far-off site while there is any chance at all of accommodating growth at Heathrow and

Gatwick The BAA insists that all it is seeking at present at Stansted is a relatively modest expansion up to the capacity of the existing runway - a size similar to that of Gatwick today. But the authority's enthusiasm is clearly influenced by the fact that Stansted would be capable of expansion up to Heathrow size and far beyond, if permission could be obtained, solving all capacity problems far into the next century. Commitment to the first phase would undoubtedly strengthen the case for the second, and opponents have not unfairly raised the cry of salami tactics.

Heathrow and Gatwick are expanding but in sight of their limits, and the controversial fifth terminal at Heathrow could not be built as quickly as the first stage at Stansted. The preference should be for concentrating development at the existing centres where possible. But financial constraints and local opposition make it improbable that a major airport on a wholly new inland site will ever be acceptable, and if traffic continues to grow this gives a kind of inevitability to fuller use of Stansted's existing runway. There is no reason why this should involve a commitment to a second runway (with its huge sacrifices of countryside and public money) in preference to Heathrow Five. It should be possible - and if possible it would be wise - to keep options for the more distant future open. until a second generation has begun to grow up in the noiseshadow of Stansted argumentation. We can still nurse the hope that by then aircraft will be

#### NO CULT - BUT WHAT A PERSONALITY

This week people in China have Mao's left-leaning successor Hua Chinese Communist leaders been digesting the thoughts of Deng Xiaoping, in the form of his Selected Works, 1975-82. Some twelve million copies of the book have been published: nothing to compare with the last volume of Chairman Mao's Collected Works, which ran to two hundred million copies, but still an immodestly large print order even by Chinese standards. Given his commitment to collective leadership, which he has done a great deal to foster, it is a trifle disillusioning that Deng has seen fit to advertise himself in this way. Admittedly other Chinese leaders have had their Works published in recent years. But these have on the whole been dull chronicles of Communist Party history. Deng's Works, on the other hand, have an immediate bearing on Chinese politics today. They drive home many of the assumptions on which Deng and his supporters work: that Chairman Mao's revolutionary ideals are to be abandoned, but the memory of the man himself preserved; that economic modcrnisation is a desirable end in itself, and is to be achieved with the help of Western aid and expertise; and that Chinese

intellectuals should be culti-

vated, not cowed, even though

the Party itself must still reign

supreme. The Works also in-

Guofeng - now in a state of semi-disgrace, but not without secret sympathisers - for being wrongheaded enough to oppose Deng and his policies in the late 1970s

The Works of Deng thus constitute a sort of doctrinal ABC, and one on which the official Chinese press has heaped indecently fulsome praise. For the past few years Deng has shown a courageous determination to rid China of the twin scourges of dictatorship and personality cult. But in this instance there are disturbing echoes of the last years of Chairman Mao, when his writings were treated as an infallible guide to right thinking, and as a talisman for warding off wrong

Deng himself must have realized this, but pressed ahead for reasons of his own. One consideration must almost certainly have been the rectification movement, or purge, on which the Chinese Communist Party recently embarked. The movement is designed to bring Party membership - now numbering some forty million - into line with the prevailing political orthodoxy, cleansing it of corbureaucratism and ruption, dissent

Deng's problem is one that has clude an attack on Chairman been faced by a succession of

since the 1940s; how to make such a campaign work. When political purges were in the hands of Maoists during the Cultural Revolution, more than decade ago, the Party's chief instruments were coercion and fear. As his Selected Works bear out, Deng has turned his back on practices of this kind - in theory at least. The alternative he favours is political persuasion reinforced by the threat of disciplinary sanctions. For this reason he must hope that his Selected Works prove to be - as the People's Daily put it recently - the "sharp ideological weapon" with which to "improve the Party's work style".

The trouble is that most Party cadres in China are no longer amenable to political persuasion. Ideologically the Party is exhausted and disillusioned, much like its Soviet and East European counterparts. The only way to reawaken its energies would be to conduct a fundamental review of its nature and purpose, something a first-generation Communist like Deng Xiaoping could never dream of doing Consequently the rectification movement will be a tame affair, and Deng's Works will end up like the Works of other Party leaders, gathering dust on a shelf - a handy form of political insurance, but scarcely a source of inspiration.

#### LETTERS TO THE EDITOR

#### Protest at curbs on town halls

From the Chairman of the Associ-ation of London Authorities

Sir, The new Tory Government has wasted no time in intensifying its attacks on the foundations of local democracy. Vesterday's edict from Patrick Jenkin (report, July 6) confirmed that the Government will again be taking rate-support grant from the urban areas of greatest need and redistributing it to the

Since 1979 ministers have taken £1.7bn from London ratepayes. London's share of the national cake has dwindled from 17 per cent to under 14 per cent. This inevitably threatens the ability of councils to deliver services to those in greatest need and has led to unacceptably high rate rises across London.

The Government's actions amount to a sustained attack on local democracy across the country. Labour-controlled authorities are the prime targets, but those under Tory control will be equally worried by the long-term implications. This is recognised by the Conservative-controlled Association of District Councils. At their recent conference they condemned the Government's plans for "rate-capping" legislation.
Local politicians and local authority associations will unite in

raising three principal objections. First, the Government is perpetrating a confidence trick on the people of this country. By its own cuts it forces rates up. Then, by shoddy rhetoric, it condemns the rises and uses them to justify unprecedented constraints on local government. If the Government controls the local purse it destroys the power of local authorities.

Tories say they are committed to limiting the role of government, but in fact are increasing and centralising power as never before. They are riding rough-shod over the only other elected institutions we enjoy in this country. They are disfranchiseing local people who have a real understanding of local needs and

priorities. Why shouldn't local people determine local services? It is dangerous and arrogant of Mrs Thatcher and Mr Jenkin to destroy a system of local government that has been an integral part of our democracy since the fourteenth century.

Second, the very authorities that have lost most grant are those that, on the Department of the Environment's own figures extracted from the 1981 census, have the greatest need in terms of multiple depri-vation. The Government's targets are quite unrealistic and, as Patrick Jenkin was forced to admit yesterday, have even been distorted by elementary arithmetical and computer errors. The truth is that they are politically motivated, for Mrs Thatcher will not tolerate oppo-

Third, it is ironic that on the very day that Patrick Jenkin announced "penalties", it was revealed that Government itself is quite incapable of meeting its own targets. In the mumbo-jumbo of monetarism, money supply, sterling M3, has risen at 16 per cent over the last year, when the Government were aiming for 7 per cent.

Local authority expenditure for 1983-84 is currently only 3.8 per cent over the Government's unrealistic targets. Perhaps the Government should be looking to the local authorities to learn how to provide essential services efficiently and cost-effectively.

Yours faithfully, MARGARET HODGE, Chairman, Association of London Authorites, Town Hall, Upper Street, NI.

#### Coach safety

From the Director General of the Bus

& Coach Council Sir, Mr Dencer, in his letter (July 5) on coach safety, bases his argument on the agricultural tractor which, by the nature of its design and work, is extremely vulnerable to roll-over accidents. The British coach, by contrast, is the most stable vehicle on the roads. Each new vehicle is submitted to a rigorous tilt test by the Department of Transport engin-eers, as a result of which it is 10 times less likely to overturn than any other vehicle. Government statistics for the last five years actually show 13.6:1 in its favour.

The suggestion that roll-over accidents are responsible for paraplegic conditions is therefore - not only in theory but in practice - of little relevance to coach passengers. It is also irrelevant to Mr Dencer's own work as a plastic surgeon because the unfortuntate accidents relate to coaches and not to cars, even though they count as roll-over accidents, are not related to body

A coach which skids on its side and there has been one such accident this year - does not suffer from the collapse of structural pillars. It is therefore difficult to see the relevance of the point which Mr Dencer is making. However, it is

#### Locked churches

From the Chairman of the Council for the Care of Churche

Sir, Following recent correspon-dence which reflects the sadness that many people feel when they find a church locked, my sympathies are entirely with them. It would indeed be a black day for England if the locking of our churches, except when services are taking place, were to ecome general.

Nevertheless, facts have to be faced. The Ecclesiastical Insurance Office reports that approximately 4,000 churches a year have claims for theft or vandalism. This represents about one in four of the parish churches of England.

There is no easy answer to the problem and each parish needs to examine carefully what steps it ought to take. Many have highly organised schemes of "church watchers"; others a system of "key holders" and notices are posted to that effect. Some solve the problem

#### Orchid survival

From Mr P. R. Butcher

Sir. I was interested to read your ence Report on June 28 in which Hugh Clayton described the efforts being made to preserve wild orchids on the Thames Valley chalks. As he says, it is accepted by the botanists concerned that these dwindling populations are probably doomed and that the most that can be done is to try to prevent their demise being hastened by direct human interference. However, species which are of marginal visibility in an environment cannot hope to survive once the population has fallen below a self-perpetuating level.

Particularly is this so if the species in question are dependent upon a fungal saprophyte, as in the case of many wild orchids. Thus the only preservation is to recreate artificially a friendly environment and this can only be done in a

#### Happy ever after

From Mrs Mary Delorme Sir, So Homer Howard (features, necessarily be soppy?

farming and other human activities. Of course they do and always have done. The sensible botanist or naturalist will not advocate the segregation of substantial areas of useful land from human influences, the total extermination of wild rabbits or any other extreme and unrealistic measures in order to perpetuate a species which, in evolutionary terms, has had its day in that environment. Consequently it may be more

constructive to expend efforts on establishing viable specimen popu-lations of such species in protected habitats rather than try to keep a constant guard on the few survivors in fields and commons. Yours sincerely.

P. R. BUTCHER, 42 Lyndale Avenue, NW20. June 28.

July 1) also nods occasionally. Who said that romantic fiction must Jane Austen's boys invariably

Romantic fiction, dear fellow, and not a soppy moment in sight. Yours faithfully, MARY DELORME 343 Horse Road, Hilperton, Trowbridge, Wiltshire.

#### Prospects of a Labour daily paper

Sir, In The Doctor's Dilemma Shaw introduces a "Newspaper Man" who is "disabled for ordinary business pursuits by a congenital erroneousness which renders him incapable of describing accurately anything he sees, or understanding or reporting accurately anything he hears." May I be allowed to nominate Bernard Levin for the Shaw Award of the

market-research survey undertaken by an independent agency with unrivalled experience in this field. It latest technology.

it clear that he should "certainly not shrink from criticism of the movement's institutions or policies - as well as those of the business

the Labour Party" is quite without foundation. Chapter six makes it evident that their role would be to provide a further safeguard against interference by other members of

Indeed, the very notion of a trust, which finds no place in Mr Levin's account of things, is designed to protect editorial independence and Guardian. This was the device independence of the editor of The Observer, until 1976. It also safeguarded the position of the editor of The Times, until 1967. It is advanced because it it thought to offer "the greatest degree of editorial freedom and the best opportunity for establishing a newspaper whose policies and character best withstand

Of course there are reasonable grounds on which to doubt whether the proposals advanced are feasible. We assume that "commercial considerations would outweigh any reluctance on the part of advertisers to advertise in a Labour paper based on prejudice or political bias." Mr Levin may well wish to argue that he better ti thinks they are much more bigoted than we assume.

From Lord McCarthy

His account of our feasibility study for a new Labour newspaper (The Times, July 4) must surely qualify him for this prize. To take but a few points at random: the figure of 300,000 was based on a was not worked out by me. The prospect of "breaking even" at this figure arises from the fact we propose that the new paper would not be printed in Fleet Street and would make the most effective use of the

Far from suggesting that its editor would be required to "follow unswervingly the political line of the labour movement" the report makes world and the political parties."

The suggestion that the editor would have to "answer to the general secretaries of the TUC and

is modelled on the example of The which successfully preserved the

the changing times."

Thus if a new Labour daily were established on the lines suggested, its editor and staff would have more freedom from day-to-day pressure and the threat of sudden dismissal than any in Fleet Street - I cannot speak for the position of freclance comic columnists.

More importantly, it is made clear

#### Identity problem

From Mr Michael Cooke Sir, One may extend the good point made in Mr Stephen Walker's letter (June 30). Far from deploring public transport tickets and cards with a

photograph of the holder as oppressive to the individual, I have long felt aggrieved that our free and democratic society offers me no satisfactory and explicit official means of identifying myself. I do not drive a car (a greater shame in our warped scale of values

the church in relation to the than illiteracy), so have no licence. I detest credit cards, I loathe travel (so churches are in a sense sacramental. do not have a passport), my birth certificate can be obtained by They are outward and visible signs of God in our midst. People need an anyone willing to pay the exorbitant fee at the General Register Office. churches simply because they are and I have no pension or social security book. All I can produce, at different from other buildings. They offer a sense of worship, beauty, order and mystery. Locking them, best, is my cheque book, medical card, or National Savings Bank book, all of which also contain A parish where the incumbent and people share this view of their irrelevant private information.

I contend that we all have a civil right to proper evidence of our dentity and should be entitled to a free official identity card upon demand, complete with photograph. await with interest the reaction of the civil rights experts to my enlightened suggestion. Yours faithfully. MICHAEL COOKE.

18 Dudley Court, Rogers Street, Oxford.

#### Feet on the ground

From Sir Peter Masefield

Sir, Not only in The Times (July 2) but also in a presidential pronouncement in the USA, reference has been made to the two hundredth anniversary of the Montgolfier brothers' first flight".

Certainly the Montgolfier brothers (Joseph and Etienne), paper manufacturers of Annonay, constructed the hot-air balloon used for the first successful manned and unrestrained flight nearly 200 years ago on November 21, 1783. But the intrepid aeronauts" were not the Montgolfier brothers but Francois Pilatre de Rozier and the Marquis d'Arlandes. They ascended in their Mont-

golfier balloon of 79,000 cu ft, made from cotton-cloth and paper, from the Château la Muette (the residence of the Dauphin in the Bois de Boulogne, Paris) and flew downwind 8.2 km (5.1 miles) to alight at the butte-aux-Cailles, near the Place d'Italie, 25 minutes later. The Montgolfier brothers were early, but not the first, aspiring aircraft constructors and the first to go into production. But they never themselves left the ground. Yours faithfully. PETER G. MASEFIELD.

Rosehill.

July 2

Doods Way,

that "start-up costs" of £6.7m will need to be found before any revenue from sales and advertising can be expected. This is the real and substantial barrier to any effective breach in the present Fleet Street cartel.

Mr Levin could well take the view that the Labour movement would be unwise to risk a sum of this size, given its existing obligations, modest means and the hostile environ-ment in which it now struggles to survive. He might go on to argue that in his opinion no outside body or individual would be prepared to help it out on terms that would be compatible with the broad aims and objectives of the paper.

But this is merely to say that we cannot have a paper as broadly committed to Labour as The Times is to the Tories - even if it would not require the same thumping annual deficit and could well make money in the not-too-distant future. This seems to some of us to be a trifle unfair, and no great advertisement for the so-called "freedom of the

Yours faithfully, McCARTHY, Nuffield College, Oxford.

From Mr Nicholas Palmer

Sir. Bernard Levin (July 4) trots out the ancient legend that the Daily Herald failed because of an inability to attract readers. In fact, even at the end, its circulation of 1,200,000 was substantially in excess of The Times and Guardian combined (then or now). The problem, which leads directly to the 7-1 imbalance against Labour in the daily press today, is that advertisers are not very interested in most of the people who read Labour papers and most newspapers depend heavily on advertising.

Democracy requires not only freedom to vote but also exposure through the press to a wide range of opinions. The Swedes recognise this and transfer revenue from an advertising levy to the less favoured

Wouldn't it be good for all of us if we had the same system here? Yours sincerely, NICHOLAS PALMER, Treasurer, Chelsea Labour Party. 7 Delahay House, 15 Cheisea Embankment, SW3.

From Mr Stanley Orme, MP for

Salford East (Labour) Sir, I would like to make an addition to Mr Bernard Levin's proposed list (July 4) of contributors to a new Labour newspaper, namely, Mr Bernard Levin, with a special article by him on "How the Americans won the war in Vietnam".

STAN ORME. July 5.

#### Clerical habits

From Ms Angela Wheateroft Sir. The report (June 30) of the Bath and Wells diocese making use of management consultants to reorder the work habits of clergy is at least a step in the right direction, albeit rather late in the day. Would it not be far better to amend the curricula of theological colleges so that the end product, while obviously theo-

logical, would have some real management know-how? Why are the clergy overworked when the lay membership of the C of E, potentially a vast resource, is so grossly under-employed? Is it not because clergymen have been inade-quately trained to manage the resources already available to them?

Lay people may be uninterested or just downright lazy; they may also be embarrassed that management techniques which they apply readily to earn their daily bread in the world are, by and large, viewed with suspicion and regarded as inappropriate in the spiritual realm. Let us have more elerical members of the British Institute of Management. Yours faithfully.

ANGELA WHEATCROFT, 55 Saffron Road, Doncaster. South Yorkshire. July I.

#### Bus stop seats

From the Managing Director of London Buses Sir. Mr David C. Humphreys (July 5) and other bus passengers may be interested to know that London Transport is providing seats at bus

Following trials with tip-up seats at busy stops in Sutton and Lewisham, 200 stops by hospitals and in some suburban shopping areas are to have similar seats installed later this year. I very much hope that the funds can be found to extend the scheme, so that seats at stops become the "norm" rather than the exception. Yours faithfully. DAVID QUARMBY.

Managing Director (Buses). London Transport Executive, 55 Broadway, SW1.

#### In for a duck

July 6.

From Mr Roger Levett

Sir. Is your reporter sure this offspring of a duck and a gander (July 6) is a guck rather than a dander? Or is it, like a mule, devoid of gender? This is not an idle or frivolous question. Choice of sauce hangs on it. For your delightful pictures show that, paternity not-withstanding, he/she/it takes like a duck to water. Yours sincerely, ROGER LEVETT. <sup>20</sup> Muschamp Road, Peckham, SE15.

## Tournament will recapture wartime feeling

What was it like to shuffle along a queue to get a cup of tea at a street stall after an air raid? More alarmingly, how did it feel to be in a night club at the moment it was blazed? These are a couple of the couple of the events will start with blazed? These are a couple of the Royal Horse Artillery. These couple of the Royal Horse Artillery. These but it will not all be in the past. In each owith their vigour. night club at the moment it was bhitzed? These are a couple of experiences that the public will be invited to share at this year's Royal

The background to the show, to be held at Earls Court from next Wednesday to July 30, is London during the Battle of Britain. Time will spin back 43 years as

soon as visitors enter the stadium. They will see attendants in air raid wardens' uniforms, civil defence vehicles from the 1940s, and wartime signposts. Sirens all over the place will be warning of an air

In the static display area a Battle of Britain room, set up by the Imperial War Museum, will be manned by RAF vererans who fought in the battle. They will be standing by to "scramble" to visitors' questions about what it was

an RAF crew parachuting into enemy-occupied territory. They will be interrogated by resistance fighters and passed down the escape life-line gallantry of the people of the conversation with a caller on the occupied countries who risked death other side of the world, courtesy of a to get shot-down aircrews back into

the fight.

Although the tournament, now 103 years old, is the Armed Forces' annual demonstration to the nation of the skills they are developing, tributes will be paid time and again this year to the spirit of the civilians who endured the blitz and in particular to the people of the voluntary services. A total of 818 tradition by cutting show-jumping firemen died, 194 Boy Scouts were killed on duty, and the ambulance service transported 48,709 casu-

night club other than Glean Miller?
But it will not all be in the past. In
the side display areas, visitors will be able to see modern weapons and to a neutral country, a tribute to the equipment and they can even have a

> technological worlds it is conquering and there will be a miniature bandstand where musically minded children can work out fantasies without the need of imagination.

Colonel Iain Ferguson, director of the tournament, has side-stepped

The constant theme running This year's star entertainers will through the arena events and the include Dame Vera Lynn. RAF side displays will be a reminder that iike.

In the arena, a bomber hangs from the roof and an air raid siren will wall even before the show's traditional opening fanfare. Just another sound effect for many, but the state of the sound and the state of the sound and the state of the sound state of the spirit of the people, colonel Ferguson said.

It would not be the Royal Tournament without the Royal and the spirit of the people, colonel Ferguson said.

The overseas events include a

troop of herdsmen from two collective farms in the Hungarian plains who will demonstrate how one man one drive five horses at a gallop while standing on the backs of two of them, one foot on each. Celebrating its seventy-fifth anniversary this year, the Territorial Army will be represented by 300 of its members giving a display in the middle week.

Ever since it made its first appearance in 1880 at Islington as the Grand Assault-at-Arms, the tournament has raised money for Service charities. The target is

Service charities. The target is £50,000 this year.

Inevitably, reminders of the Falklands will appear throughout the show. The administrative battalion this year are the 2nd Battalion, the Scots Guards, who were at Tumbledown. The present commanding officer, Leutenant-Colonel Andrew Joscelyne, was a company commander during the fighting.

Dioceses are administrative the beginning, a bright and pure units, but can we define the light, uniform and one." One reaction was to regard what Newman said as "imprac-It was the realization of the tical", the other - surely a trator? At the heart of the organic nature of the diocese in contemporary view - was to cry Oxford Movement was the role the context of the temporalities disloyalty, because of the of the dioceson bishop, for Bill which was to transform the populist overtones.

precincts. (Photograph: Harry Kerr).

The lost apostolic role of bishops

although it is customary to often repeated phrase, "Bishops recognize Keble's sermon on are centres of unity, types of national apostasy as the opening of the campaign, the catalyst and compelling reality which The Tractarians were not put off by such accusations because they believe that the bishops must become true apostles. named Church Temporalities
Bill of 1832, which passed into
the idea of a bishop being a successful administrator that we shut off that They listened to the appeal of vicars like Simeon Pope, who wrote to Newman in 1831: 'Just consider my situation have perhaps shut off that apostolic dimension which "roused the clergy to assist the here. How little episcopal there is connected with it. His Lordship was here two years ago - so he will not come for bishops by our voice" in the Tractarian Movement. When ago - so he will not come for two years more; no arch-deaconry visitations, no meet-ings of the clergy - no strengthening of each other's hands." Because of this, New-man would proclaim: "Spirits of Noble Ambrose, wake St Mary's in the autumn of 1834 he was to see the transformation for himself, for Newman preached that "the presence of every bishop suggests a long history of conflicts and trials,

Many thought that the tracterians were being carried away by romantic visions of the and anticipated Keble in a sermon (unpublished) in the embassy chapel at Naples: the bishop's "presence at the day is the fruit of them all. He is continue as it is. What is the living monument of those who are dead. He is the promise a bold fight and a good past but history showed the diocese as a dynamic reality and the episcopal system as a "vital

over the world and apparently of a bold fight and a good vanishing?...Let us do our confession and a cheerful utmost, each in his own place, martyrdom now, if needful, as The objection was raised at the time by Archbishop Howley (in a letter to Dr Bagot) that "the principle, if carried out would make each diocese a to make the Church what it was was instanced in those of old

further, introduce a system liable to change according to the opinions of individual bishops in succession". Rather than take up the challenge of the Tractarians the problem was handed over to Convocation and Synod. But the point was made by Newman that, unlike

bishops, Convocation would not be "a real and existing power". If one wants the local church to live then the bishop must exercise real authority in his diocese; one cannot be like King Lear and retain power, while handing it over. It is that dilemma which faces both Anglicanism and Roman Catholicism in the concept of synodical government and episcopal com-missions. On the one hand, there is a desire to stress the

pastoral dimension, on the other an unwillingness to accept the consequences. But in opting for the central processing unit. which allows for episcopal noises instead of the bishop as the centre of unity, are we not getting the worst of both worlds?

#### **OBITUARY** MR HERMAN KHAN Thinking the unthinkable

He first became known for his book On Thermonuclear War, published in 1960, in which he set out to make a dispassionate analysis of the prospects of such a war, and what should be done to minimize the damage. This led to attacks from critics, who accused him of thinking about things which should not be thought about, and of conse-quently making the horrors of nuclear war more likely. But he took up this gauntlet with another book, Thinking About the Unthinkable (1962), in which he took his ideas further; and this concept became some-thing of a trademark for him.

In 1961, together with some associates, he founded the Hudson Institute in Croton-on-Hudson, New York, of which he became the director. The institute aimed to provide reasoned predictions of trends in world affairs, which would be reliable enough to be the basis for planning by governments and private institutions. He himself published books on a wide range of subjects, from the future of Japan to the prospects for world economic

Perhaps the most striking feature of these works was that he set himself against prediction of doom. He consistently took the view that in spite of forecasts by environmentalists and others that mankind would use up the available natural resources and make the world uninhabitable, ingenuity and technology would in fact find ways of avoiding this and improving the quality of life.

He himself was a large, ebullient man who revelled in ideas and argument, who worked incessantly, and whose conversation was a constant flow of new thoughts. In the long run his contribution lay, not so much in the accuracy of his predictions, but in the fact that he forced people to try to make them, and to reexamine preconceptions.

Kahn was born in Bayonne, New Jersey, on February 15, 1922, but grew up in Los Angeles. During the Second World War he served in the army as a telephone linesman. He received degrees from the University of California at Los Angeles and the California Institute of Technology before beginning work as a mathema-tician and physicist.

In 1947 he joined the Rand Corporation as a laboratory analyst, and became fascinated by the problems being worked on there. From 1948 to 1961 he was continuously employed there as a senior physicist and military analyst. He developed systems analysis, and then worked on early and influential studies for government agencies on the air force, on nuclear strategy, and on civil defence.

choes of Clausewitz. In this atternatives to income tax, and that nuclear weapons, once invented, were here to stay, and that nuclear warfare was not only a possibility, but a probability. This being so, it was necessary to prepare for the worst, but at the same time try

atternatives to income tax, and diversity of these subjects reflected the outlook of Kahn, a man of inexhaustible mental energy who was prepared to turn his mind to any problem.

He is survived by his wife, Jane, and a son and daughter.

to devise ways in which any nuclear exchange could be contained at the lowest possible level. A nuclear war, he argued, need not mean the annihilation of civilization.

Kahn was quite unabashed by the criticisms this provoked, and went on the develop his and went on the develop his views in later books, Thinking About the Unthinkable and On Escalation Metaphors and Scenarios (1965). He even seemed to relish the publicity his books brought him, travelling widely to put forward his views and presenting them in flamboyant style. It was to a great extent because of Kahn and his views that the concept of escalation in a nuclear exchange became

publicly known.
In later years Khan and the
Hudson Institute broadened their canvas to consider future trends in the world economy as a whole, as well as the prospects for individual countries. Here again Kahn was quite definite in rejecting the view that things were going from bad to worse as a result of the exhaustion of energy resources, pollution, population growth and food shortage.

He argued that this negative view, and the belief that economic growth was wrong stemmed from such factors as a misreading of signs, guilt feelings among affluent liberals, and a failure of nerve on the part of the West. The world, he said, was in the middle of a 400-year period during which it passed from pre-industrial povery to a post-industrial culture of affluence; and popu-

lation growth would taper off. "I'm not saying", he told an interviewer, "that there won't be shortages of some things, that we won't have to make changes, and that there won't be problems. I'm saying that with reasonably good management, the world can get through without catastrophe

In 1967 he published, with Anthony Wiener, The Year 2000, setting out his optimistic views, and in 1979 he followed it up with World Economic Development. Meanwhile the range of his interests had been shown by such other books as Can We Win in Vie Nam? (1968), Why ABM? (1969), and The Emerging Japanese Superstate - Challenge and Response

Hudson Institute became one of the best known and most influential "think tanks" in the United States, receiving large sums of money in grants and One of the fruits of this was government contracts, and On Thermonuclear War, a title taking on such issues as how to chosen deliberately for its win a war in El Salvador, echoes of Clausewitz. In this alternatives to income tax, and

#### JACK GREENALL

The modernized Eustace, no longer Useless, has been drawn bis creation a clever twist. He by Peter Maddocks since Greenall retired from the Daily Mirror in 1975, but millions of readers will recall the familiar viewed as a symbolic comic fat fore of the original. fat face of the original. Useless Eustace made his debut in the Daily Mirror on January 21, 1935, and for 40

#### Bombing Hampstead

The Offshore Island Old Red Lion

Arguments supporting the "vi-able option" of nuclear warfare are apt to offer an idyllic picture of rural survivors recreating merrie England as a preinde to getting the old country back on its feet. That argument has been going strong since the 1950s when Marghanita Laski's play first appeared and one justifi-cation for this revival is that The Offshore Island puts it through the political crunchers.

The first act offers a reassurwith Flash Gordon's spaceship in the old Saturday morning serials. Indeed, the whole of Mr ing post-nuclear pastoral. Rachel and her two children Marlowe's piece is a subtly have survived the strike in their packaged enterprise because, if West Country farmhouse, and the opening episode is anything to go by, it is an amalgam of struggled along for eight years on a patch of uncontaminated land. Their civilized possessions are wearing out, but they have Peter Davalle food, freedom and family life, not to mention playing anatches

of Schubert on penny whistles. Rachel even has a lover who turns up every few months with provisions, and who plans to settle down with her daughter

and propagate the race.
However, no sooner have you decided that Miss Laski's theme is the transition from old Hampstead values to the reinvention of peasant society. then the modern world brutally invades the story in the shape of an American airborn plateon

who are rounding up survivors
The idea of Europe as a strategic plaything of the super-powers is one element that dates the play. If Russia and America nuke their satellites out of existence while restricting their own exchanges to conventional weapons, the way is open to arguing in favour of Trident and cruise to redress the balance; an idea that would surely horrify the totally antimilitarist author.
That kind of hindsight is easy

Before Lord Justice Cumming-Bruce and Sir Denys Buckley

[Judgment delivered July 1]

after a lapse of 30 years. Miss Laski may not have foreseen the nuclear proliferation; what she did grasp was the colonial American viewpoint. Her por-trait of the invading group under their bellicose Christian captain may conform to the ugly American stereotype, but it takes the country's ethnic history into account, and forecasts the defoliation of Vietnam.

Theatrically, there is a nasty gap between the agit-prop treatment of the Americans and the domestic realism of the family. Jeff Harding succeeds in showing the ruins of a civilized conscience stirring within the indoctrinated Captain. But, as in the writing, so in Michele Frankel's production, the best performances come from the gentle British trio, Peter Sullivan, Erika Spotwood, and Anna

Irving Wardle where he worked.
Patrick Carnegy in his pro-

Kafka. "The closest truth", Kafka "Books", said Kafka, "should once remarked, "is only this: you are beating your head against a windowless, doorles-cell". Sometimes the frontier between fact and fantasy be-comes hazy and indistinct. For example, one of Richard Baker's guests on Start the Wee; (Radio 4, Monday, produced b. Jenny Danks was Larry Gostin, who was kept locked up in a t American mental institution while he attempted to convince the specialists that he was neither mentally unstable, nor the rapist that the police claimed him to be.

What made Mr Gostin's story into a terrifying. Kafkaesque drama was that he was telling the truth. He was, in fact, a "plant", employed by the US government to report from inside on the running of the cosily named Cherry Hill Hospital. His problem was to win his discharge without any help from the authorities who had engaged him. They and h: expected the imprisonment to last three weeks. In the event it took him four months to escape.

Crime and punishment also provided the subject for this week's edition of You the Jury (Radio 4, Saturday and Friday, produced by Sally Thompson) which debated the restoration of the death penalty. Proposed by Eldon Griffiths and opposed by Enoch Powell, it proved a timorous affair containing a lot of civilized discussion of "deterrents", but carefully avoiding the emotional subject of "vengeance". The proposition was defeated as easily as John McEarce's opponent on Wimbledon's centre court.

Brian Sibley

Court of Appeal

charges occurring, but neither plaintiff did so. In those circums-stances it could not be said that any

solicitor's charges accruing there-after had been incurred through the

such leave shall be granted unless it evinced a common intention as to shall be made sufficiently to appear the system of law by reference to to the court that the case is a proper one for service out of the jurisdiction under this Order." Mr Colin Ross-Munro, QC and Miss Barbara Dohmann for the appellants; Mr Adrian Hamilton, QC, and Mr Roger John Thomas for

LORD DIPLOCK said that the appellant was a shipping company incorporated in Liberia but its head office and business was carried on in Dubai. It was the owner of a cargo vessel, the Al Wahab.

The company sought to litigate in the English commercial courts its claim against the respondent insurers for a constructive total loss of the vessel which was insured under a hull and machinery policy of insurance against marine and war risks that had been issued in Kuwait by the insurers who had their head office there and branch offices elsewhere in the Gulf but had no office or representative in England.

The policy was on the insurers' standard printed form of policy and was in the English language. The wording followed meticulously (with minor and immaterial omissions of references to London) that of the Lloyd's SG policy

Amin Rasheed Shipping Corporation v Kuwait Insurance to be issued in Kuwait and claims if any expressed to be payable in

In order to pursue its claim in the English courts, the company had two obstacles to overcome. First, it had to bring the case within Order 11, rule 1(1). That obstacle was the jurisdiction point.
Second, the company had to satisfy the requirements of rule 4(2).
That was the discretion point.

The jurisdiction point on which judicial opinion in the courts below was evenly divided was one which was of considerable importance in transnational commercial contracts. The jurisdiction point was one that fell to be determined by English law and by English law alone. The relevant rules to be applied were the English rules of conflict of laws, not

The applicable English conflict rules were those for determining what was the "proper law" of a contract, that is, the law that governed the interpretation and the validity of the contract and the

the conflict rules of any other

To identify a particular system of kuwait of a writ in respect of an insurance policy on their ship, issued by the respondent insurers.

Liwait Insurance Co.

Order 11, rule 1 of the Rules of law's of the contract. The purpose of entering into a contract was to create legal rights and obligations between the parties; interpretation of the contract involved determining what were the legal rights and obligations to which the words used in it gave rise. That was not possible

whether the parties had by its English law."

Order I I, rule 4 provides: "(2) No implication from the language used ch leave shall be granted unless it evinced a common intention as to which their mutual rights and obligations under it were to be

If it was apparent from the terms of the contract itself that the parties intended it to be interpreted by reference to a particular system of law, their intention would prevail and the question as to the system of law with which in view of the court. the transaction had its closest and most real connexion did not arise. Under English conflict rules the proper law of a contract was the

substantive law of the country which the parties had chosen as that by which their mutual legally enforceable rights were to be ascertained, but excluding any rentoi, whether of remission or transmission, that the courts of that country might themselves apply if the matter were litigated before

them.
The relevant surrounding circum-The relevant surrounding creamstances at the time the policy was issued could be stated briefly since although the policy contained no express provision choosing English law as the proper law of the contract, nevertheless its provisions taken as whole, by necessary implication pointed inclustably to the conclusion that the intention of

the parties was that their mutual rights and obligations under it should be determined in accordance with the English law of marine

The company carried out the insurance of its ships through the London office of an English company that was a member of the Rasheed Group. As brokers for that purpose it used J. H. Minet & Co. Ltd (Minets) who also acted as re-insurance brokers for the insurers.

Premiums were paid to Minets in London, policies were issued by the London, policies were issued by the insurers in Knwait and sent on by them to Minets who passed them on in London to the English company. Claims, though expressed by the policies to be psyable in Knwait, were in practice settled in running accounts in sterling in London between Minets and the insurers and between Minets and the assured.

In these days of modern methods of communication where so in-quently negotiated by telex, whether what turned out to be the final offer was accepted in the country where one telex was situated or in the country where the other telex was installed was so often a mere matter of chance. In the result the tex loci contractus had lost much of its significance in determining what

was the proper law of the contract.

The crucial surrounding circumstance was that it was common ground between the expert witnesses on Kurwaiti law that at the time the policy was entered into there was no policy was entered into there was no indigenous law of marine insurance in Knwait. A commercial code existed in Knwait dealing with commercial counsets but not specifically with contracts of marine

The legal effect of the obsolete language of the Lloyd's SG policy was discoverable only by reference to the Marine Insurance Act 1906. But that statute was directed to determining what were the mutual-rights and obligations of parties to a contract of marine insurance, whether the clauses were in the obsolete language of the Lloyd's SG policy or whether they were in the up-to-date language of the Institute War and Strike Clauses that were

attached to the policy.

Except by reference to the English statute and to judicial exegesis of the code that it enacted it was not possible to interpret the policy or to determine what those mutual legal rights and obligations were. So, applying English rules of conflict of laws, the proper law of the contract can be directly in the proper law of the contract.

Goodall v Jolly were not always appropriate for them and such cases would be bester dealt with in the original court. Mr Justice Wood on leaving a

mother's appeal in the Family Division on July 4 from the refusal of Brighton Justices to vary upwards an order of £10 a week made in 1979 former marriage made an interior order of £15 a week and remitted the case to the Tunbridge Wells Davorce County Court.

wisting in a legal vacuum. They were devoid of all legal effect unless they were made by reference to some system of private law which defined the obligations assumed by

necessary bacause it was the only system of law by reference to which it was possible for a Kuwaiti court to give a sensible and precise meaning to the language that the parties had chosen to use in the policy. Applying English conflict rules in determining the invisable in rules in determining the jurisdiction point, that made English law the proper law of the contract.
The jurisdiction exercised by an

The jurisdiction exercised by an English court over a foreign corporation which had no place of business in this country was an exorbitant jurisdiction. Judicial discretion to grant leave under Order 11, rule 1(1) should be exercised with circumspection where there existed an alternative forum. Such a forum was afforded by the courts of Kuwait.

His Lordship could not accept the

suggestion of the Master of the Rolls that, for the purposes of the application by national courts of the doctrine of county between one national court and another, the Commercial Court in London far more than a national or domestic court; that it was an domestic court; that it was an "international commercial court". The company failed to satisfy Mr Justice Bingham in favour of granting leave to compel the insurers to submit to the exorbitant pristiction of the English courts. There was no reason for differing from Mr Justice Bingham on the appeal would be dismissed.

LORD WILBERFORCE said
that what had to be done was 10 look

carefully at all those factors normally regarded as relevant when the proper law was being searched for, including the nature of the policy itself, and to form a judgment as to the system of law with which that policy in the circumstances had the closest and most real connexion. The classic process of weighing the factors had to be followed. It was not without importance that the policy contained no choice of law clause. With no great confidence, his Lordship reached the conclusion that English law was the proper law His Lordship agreed with Lord Diplock on the discretion point and ismissed the appeal.

Lord Roskill, Lord Brandon and

## Too complex for justices

dealt with m the original court.

The magistrates' court was well able to deal with simple straightfurward matters but in more complex financial issues the clark to the justices should draw the justices' attention to section 4(4) of the Maintenance Orders Act 1958 which provided that if for any reason the magistrates thought it

HIS LORDSHIP said that in a substantial number of cases justices appropriate there was power a were attempting to doal with remit the case to the original court.

some system of private law which defined the obligations assumed by the parties. That was so however widespread geographically the use of a contract employing a particular form of words might be.

Recourse to English law was

[Judgment delivered July 1]

The Court of Appeal held that although in each case a defence had been filed solely for the purpose of causing a small claim in the county court to be referred for arbitration when the defendant had no intention of disputing liability except as to quantum, the plaintiff was not entitled to recover any solicitors' charges not referred to in the summons since the charges accruing after the filing of the defence had not been incurred defence had not been incurred through the unreasonable conduct

Their Lordships in a reserved judgment allowed consolidated appeals by the two defendants, Mr Boardwell and Mrs Plant, from the judgment of Judge Edward Jones on June 18, 1982, at Liverpool County Court, who dismissed their appli-cations to set aside the awards of the registrar in favour of the plaintiffs, His Lordship could not accent the

registrar in favour of the plaintiffs, Mrs Newland and Mr MacDonald.
Order 19, rule 10 f the County Court Rules 1936 [now Order 19, rule 6 of the County Court Rules 1981] provides: "(4) Any proceedings in which the sum claimed or amount involved does not exceed £500 shall stand referred for arbitration by the registrar upon the receipt by the court of a defence to the claim ....
"(11) No solicitor's charges shall be allowed as between party and party in respect of any proceedings referred to arbitration under Order 19, rule 1(4), except for (a) the costs of enforcing the award; and (c) such of enforcing the award; and (c) such costs as are certified by the arbitrator to have been incurred through the unreasonable conduct of the opposite party in relation to the proceedings or the claim

Mr Michael Wright, QC and Mr John Pupps for the defendants; Mr Timothy R. A. King for the

LORD JUSTICE CUMMING-BRUCE giving the judgment of the court, and that two appeals involved identical question general interest and importance. In the Newland case in May 1981 a collision occurred between a motor counted occurred between a many vehicle owned and driven by the plaintiff and another driven by the defendant. The plaintiff sued the defendant in the county court for

defendant. In the county court for defendant in the county court for damages are exceeding £500, which brought the case within the scope of Order 19, rule 1(4) of the County Court Rules 1936 (as amended).

On September 18 the defendant gave notice to the plaintiff and her solicitors that he had paid £350 into court. On September 22 he filed a defence admitting negligence but not admitting the injuries, loss and damage. The proceedings were automasically referred to arbitration under Order 19, rule 1(4).

On October 20 the plaintiff gave notice of acceptance of the sum paid into sourt. On November 25 the registrar after hearing solicitors for both parties gave a certificate in favour of the plaintiff under Order 19, rule 1(11) (c) and ordered that her costs of the action taxed under Scale I should be paid by the defendant by reason of the

Insurers used specious defence

defendant's unreasonable conduct in defending the action.

The defendant applied to the judge to set aside the registrar's award. That application was heard at the same time as that in the other case, and there was no significant difference between the two cases. The plaintiffs employed a solicior throughout to conduct their cases, and in each case the effective defeater was a factor to their cases, and in each case the effective defeater was a factor to conduct their cases, and in each case the effective

defendant was an insurance com-

pany.

The first question was whether it was unreasonable conduct on the part of the defendant for the purposes of Order 19, rule 1(11) to file a defence admitting negligence but putting damage whofly in issue, thereby putting liability in issue, notwithstanding that the defendant had in fact no defence on liability and no real intention to dispute and so real intention to dispute liability except as to quantum.

In the county court, where a plaintiff claimed unliquidated damages, if the only issue was the quantum of those damages, the asual practice was for the registrar to enter interlocutory judgment for the plaintiff for an amount of damages to be assessed. Upon the reference for assessment each party could adduce evidence and cross-

could adduce evidence and cross chamine his opponent's witnesses.

There was a full opportunity to litigate the question of quantum.

There could be no prejudice to either work on the appropriate to either party on the quantum being assessed in that way instead of being adjudicated in a formal trial. The denial of liability implicit in

tiff after becoming aware that a defence had been filed could have determined the solicitor's retained

each defence was a davice to take advantage of Order 19, rule 1(4) and protect the defendants from liability for costs. That device involved a misuse of the pleading process. It speciously purported to raise an issue between the parties which the defendant in neither case genuinely

intended to pursue.

It was designed to exclude the plaintiff from the benefit of the summary procedure of interlocutory judgment for damages to be assessed, while at the same time debarring the plaintiff from seeking the exercise of the court's discretion to award costs in his favour occasioned by a specious defence

There were sufficient grounds in each case to justify certificates under Order 19, rule 1(11)(c) to the extent that through the filing of the defences the plaintiffs incurred solicitors charges which they would not otherwise have incurred. The not otherwise have incurred. The words "to have been incurred through the unreasonable conduct of the opposite party" could not affect any costs incurred before the occurrence of the unreasonable conduct of the defendant.

If either plaintiff incurred further solicitors' charges for services-rendered between the date of the summons and the filing of the

defence, those charges would seem to be made unrecoverable by rule I(11).
But what about solicitors' charges incurred after the occurrence of the unreasonable conduct? Either plainemploy a solicitor he would be prohibited from recovering any solicitor's charges from his or-ponent except under Order 19, rule 1{113/c}. If he did not protect himself by determining the solicitor's retainer his liability to pay any solicitor. charges arising thereafter wou have been incurred as a conseimself and not as a consequence L the reference to arbitration or to the filing of a defence which occasioned

would be allowed and both awares set aside. The consequence would be that each plaintiff would only recover against the defendant the solicitors' charges referred to in the

There was room for doubt whether that result really accorded with what the rule-making authority intended to be a proper consequence of Order 19, rule 1(11)(c).

#### Guilt by association with illegal importation of prohibited drug

Regina v Neal and Others Before Lord Justice Griffiths. Mr

[Judgment delivered July []

A person could be guilty of an offence under section 170(2) of the Customs and Excise Management Act 1979, of being concerned in the frauduleut evasion of the prohibition on the importation of cannebis secretaristication. notwithstanding that there was no evidence of his involvement with the actual act of importation.

The Court of Appeal (Criminal Division) dismissed appeals by John Frederick Neal, Michael Phillip Cardwell, Anthony John Cardwell and Salvatore d'Antoni against their respective convictions in Swansea Crown Court on April 24, 1982 before Mr Justice Kenneth Jones of an offence contrary to section 170(2) of the 1979 Act.

Section 170 provides; "(2) . . . if any person is, in relation to any goods, in any way knowingly concerned in any fraudulent evasion ... (b) of any prohibition or restriction for the time being in Mr Louis Blom-Cooper, QC and fr Gordon Bennett for the appellants Neal, Michael Cardwell and Anthony Cardwell; Mr E. John Prosser, QC and Mr Roger Everest for the appellant d'Antoni, all assigned by the Registrar of Criminal Appeals; Mr Robin Auld, QC and Mr Lawrence Griffiths for the Criminal

LORD JUSTICE GRIFFITHS. delivering the judgment of the court, said that this case concerned six hundredweight of cannabis found at the appellant Neal's farmhouse in Wales.

There was no evidence as to where or how the cannabis had been imported, although Neal admitted that he knew it had been imported.

The question was whether the statutory provision was directed only to cases where an accused was part of or connected with the actual smoggling operation, or whether it included cases where the goods came into the possession of the accused who had not been involved with the act of importation as such. The weight of authority was in favour of the latter construction.

The statutory forerunners of section 170 of the Act had been consistently viewed as longstop or catch-all sections: see for example Lord Salmon's judgment in DPP v Doot ([1973] AC 807). Moreover, on

offences under section 170(1) could be committed after the importation by persons not directly involved with the importation of the the importation prohibited goods: see R v Williams
(1971) 1 WLR 1029), and R v
Ardalan (1972) 1 WLR 463), A
fortiori, therefore, under section
170(2), which used even wider

The dictum of Lord Justice Bridge in R v Watts and Stack ((1980) 70 Cr App R 187, 192) to the effect that a nexus had to be established by the Crown between the actus reus of the offence and some prohibited importation in order to prove intent to evade the prohibition on importation, was to be taken to mean only that where the Crown was leading evidence to prove such intent, it was insufficient to rely alone upon evidence of dealing with goods whose import-ation was in fact prohibited.

Some cases would be more appropriately dealt with by a charge relating to possession of the goods in question. That dictum was in any event obuer, and in so far as it conflicted with the authorities carrier cited, they were to be preferred. The appeals would be

half The shares have only just Leading blue chips prices shares despite the local worner recovered, but still stand 3p bore the brunt of the mark over public spending. This time

Last account shares of MFI Furniture stood as high as 160p, but yesterday tumbled 5p to 137p ahead of full year figures on July 19. Brokers Grieveso Grant reckon the selling has been overdone and are looking for pretax profits of £26m

Yesterday's comments in The Times that the market might be down op at one stage before ripe for a further fall of up to 50 recovering to close 2p down at points did little to inspire 212p. Last November the confidence. The FT Index Government sold off the bulk of having been 11.6 down at one its stake in Britoil and looked point closed 7.1 off at 683.9 - its on as small investors saw their worst level in more than two

short of last year's offer for sale.

A further sell-off in the shares had been considered doubtful, but in the light of the Chancellor's determination to cut public spending the market is taking on renewed speculative support.

Spending the market is taking on renewed speculative support. Dealers are confident that there may soon be a bid from across the water. Close observers estimate the assets may soon be

worth £8 a share. GEC dipped to 205p at one stage before returning to 210p following Thursday's full year figures. These showed pre-tax profits up from £584m to £670m with the electrical group's cash mountain topping £1,300m.

Renewed selling wiped 10p from BTR at 504p. Marks & Spencer lost a further 4p to 192p after Thursday's annual meeting, while Thorn EMI slid 7p to 517p.

The Americans continued to take an active interest in British

against the trend, falling 10p to 516p. More than 2 million

The insurance market has been one of the worst performers over the past month. Among the casualties has been Britannic Assurance down 20p to 486p. But despite signs of a rally yesterday dealers reckon the worst is yet to come,

shares have found their way across the Atlantic this week. Gilts remained unsettled by the upward pressure on

However, the announcement of a major "tap", feared in certain quarters, failed to materialize. The experts feel the Government may soon need to cut the price of its existing stock before clearing the backlog.

Among the newcomers Gable House Properties established a healthy premium in first time dealing on the Unlisted Securi-ties Market. Strauss Turnbull, the healthy of the 1.15 the brokers, offered the 1.15 million shares at a placing price of 48p. They opened with a premium of 7p.

Yesterday's newcomer S. R. Gent-encountered profit-taking losing &p of original striking price of 190p. The shares had hit a high of 212p. The group is one of the principal suppliers of womenswear to the Marks & Spencer chain. The 9 million hares were offered for sale at a minimum tender price of 160p.

The best performer of the week among the newcomers was Biomechanics International, the domestic long-term interest industrial effluents process rates losing as much as £4 in group. The 3 million shares longs as nervous selling per-placed by broker Northcote at sisted. On the foreign exchange 50p a share opened at 108p the pound gaind 0.2 at \$1.5400. before hitting a high of 125p.

De Beers may now be over the

worst after a smart rise in Central Seiling Organization sales of rough diamonds. But with the economic recovery still fragile and the possibility that interest rates will rise, De Beers is still cautious. European Community regualtions on tied public houses give greater freedom to publicans to buy supplies from different sources. Arthur Bell and Guninness, among others could benefit.

#### Inchcape looks to improvement

Sir Daved Orr, chairman of the Inchcape group, told share-holders at yesterday's annual meeting that measures taken to improve efficiency within the group will make it possible to take advantage of the upturn in international trade when it comes. However, Incheape does not expect to benefit before the end of this year, he said.

● RECORD VOLUME: Contract volume on the London International Financial Futures Exchange was a record 35,089 for the week to the close of business yesterday. Uncertanity about interest rates and the Government's debt prompted particularly heavy trading in gilts contracts.

■ LOAN DEAL: Chase Manhattan Bank has reached an agreement with Iran on loan claims dating to the Iranian hostage crisis. It will receive \$92m (£59m) from Iran but must pay \$121m for interest on Iranian Government accounts frozen in the US at the time.

RESERVES RISE: China's foreign exchange reserves rose 11.6 per cent in the first three months of the year to \$12.41bn. Gold reserves remained unchanged at 12.67 million

DEBT AGREEMENT: Western government creditors have agreed to reschedule Central African Republic's debt service payments due on public debt this year. The Agreement was reached yesterday at Paris Club talks between a Central African delegation and representatives from Austria, US, France, Italy and Switzerland.

British talks win aim to avert trade war

# Howe calls for urgent European action on US steel curbs

By Edward Townsend and John Lawless

Geoffrey Howe, Foreign Sectetary, yesterday called for urgent European Commission discussions on the new United States restrictions on steel imports, a move that has angered governments around the world and soured international trade relations. After a special council meet-

ng with other EEC foreign ministers in Brussels, Sir Geoffrey said everyone has accepted the need for urgent action. His remarks came after a varning from Dr Ootto Lambsdorff, the West German Econ-

omics Minister of the "un-pleasant political side effects" that would result from the US European Commission trade experts immediately began a detailed analysis of of the restrictions, imposed by the Americans to asist their beleaguered home steel industry and to combat "unfair" import,

Fund yesterday joined the attack on United States fiscal policy. M Jacques de Larosiere, managing director of the IMF.

said that the United States and

reduce their budget deficits if

the world economic recovery

He said central government

borrowing in the seven main industrial nations last year accounted for 57 per cent of net

private savings - much higher than the 48 per cent figure during the 1975 recession.

"Deficits of this number as

well as the uncertain budgetary

outlook in a number of countries, particularly in the United States, are keeping inflationary expectations alive,"

Addressing the United

Nations Economic and Social Council in Geneva, he said the

big deficits were also reponsible for keeping interest rates so

high. But he warned against

trying to tackle the problem with expansionary monetary policies. Because of the conse-

quencies of inflationary expec-

tations, interest rates would be

more likiey to rise than fall," he

egers to make more use of

anderwritten offer price.

scotched that.

The meeting was arranged after a series of telephone calls had been made to Brussels. Washington, Tokyo and Ottawa by the London-based Trade Policy Research Centre.

Those expected to attend include Mr Paul Channon, the British Minister for Trade, Herr Wilhelm Haferkamp, the EEC's External Affairs Commissioner, Mr Gerald Regan, Canadian Minister for International Trade, and Mr Sosuke Uno, new minister at Japan's Minis-try of International Trade and Industry.

The meeting which Mr William Brock, the US Special Trade Representative, has agreed to attend, is expected to last throughout next Saturday night and possibly continue into Sunday.

The haste with which the

need for such a conference has been accepted underlines the concern now felt about the sudden deterioration in international trade relations. The idea was floated two weeks ago, as part of the so-

called "quadrilateral talks" agreed at the Ottawa summit in 1981, but it was rejected. It was rumoured yesterday

that Viscount Davignon, the EEC's Industry Commissioner, is likely to attend, and so strengthen the EEC's representation - which will put forward Britain's view.

The unusual starting time for the meeting is necessary be-cause Mr Brock was already scheduled to be at Leeds Castle Kent, where the talks will take

He will arrive there on Thursday for three days of private talks with ministers and businessmen from around the world about what can be done to correct the structure of world trade and so

WALL STREET

#### Shares ahead in mixed trading

New York (AP-Dow Jones) – Wall Street Stocks drifted yesterday in mixed trading. The Dow Jones industrial average rose 3.40 points to 1213.84. Losers were seven to

five ahead of advances. The 10 3/8 per cent long bond due in 2012 was 1/4 point higher on the day at 92 8/32

With federal funds at 9 per cent down from their opening level of 9 1/8 per cent and from the previous day's effective average rate of 9.23 per cent money market rates were three to nine basis points lower. Municipal dollar bond prices

were 1/8 to 3/8 point lower in quiet dealings with little interest retail from investors, traders Corporate bond prices were unchanged to 1/8 point higher in firm but featureless trading.

International International Business Machines traded at 120% up ½. General Motors was 70½ up ¼. General Electric was 53½ up ½. Honeywell was 112, up ½. Digital Equipment was 116½ up ½. Texas Instruments was 120½, down ½. Chase Manhat-

tan was 51%, up 3/2; Citicorp was 37%, up 3/2; Dart & Kraft was 64%, down 1/2; ASA was 67% down 1/2;

down 7<sub>h</sub>.

Lockheed rose 21<sub>h</sub> to 1207<sub>h</sub>;
International Telephone rose
11<sub>h</sub> to 447<sub>h</sub>; American Telephone American response to 62½, American Stores rose 2½ to 103; Kansas City Southern fell 2½ to 69½; James River fell 2½ to 39; GCQ fell 1½ to 48½; Data General fell ½ to 55½;

Phillips & Drew, the London stockbrokers, expected the United States money supply, M Figure to show a decline of about \$1.5m (£980m). This movement, which follows last week's announement of an unexpected ncrease in the variable of \$600m, would leave the annualized rate of growth well above the upper limit of this year's guideline.

The United States unemployed rate last month fell to 10 per cent of the workforce. The jobless total compared with unemployment rates of 10.1 per cent in May and 10.2 per cent in small and rarely grave. The verdict seems fair. The number of such complaints and inquiries rose 14 per cent in the 12 months to last March, but was still below 300.

The second booklet from the Stock Exchange detail-

ing how its brand of self-

regulation works was pub-

In it, the joint Exchange

chairmen examine the

Exchanges proceedures

when dealing with com-

plaints and inquiries by

clients. The report con-

ciudes, in essence, that the

stock market is a big place

and the complaints are

lished yesterday.

Of these, 236 came under the heading involving standards of profesionl conduct. but when broken down show that the specific number dealing with professional conduct dropped from 10 to 7.

The first booklet in this campaign came last month from the Stock Exchange quotations department whose job is central to the whole system of securities regulation in Britain, though by comparison, this clients' annual report is less glossy and less impressive. But for the publication of both, the Stock Exchange should receive some applause.

Its system of self-regulation has been one, which, by the nature of the way the Exchange is constructed. has been publicity sby.

The Exchange admits that its desire to begin a more open relationship with its "users" - the investors from whom it derives a living - has been prompted by "one or two nasty scares" recently. These have not always

been in the Exchange's own back yard, but it appears those in charge are concerned that there may be an "information gap" between the way it really operates and how some think it operates. And it is important it

gets its message across -

the complaints given the present pressure for more disclosure and the possibility of increased government involvement in the regulation of financial

#### Hands-on for capital funds

Scarcely a week seems to pass without some new venture capital fund appearing on the scene - each promising something unique and in growing number aiming at backing

high-technology companies.

Morgan Grenfell, the
Prudential and PA Consulting Services are the latest to ioin forces. Between them they have spawned Managed Technology In-vestors, a limited partner-ship with £6m of funds at present from various institutions and probably at least £2m more to come.

Besides concentrating on a small number of hightech companies, MTI will take a "pro-active" role. This unhappy piece of American jargon means taking a hands-on approach, involving both a large measure of financial control - possibly a majority stake - and participation in management.

The "pro-active" proach is common in the US but newer in Britain

The entrepreneur with bright ideas is not necessarily good at running a business and, significantly, the high-tech venture capital arm of Investors in Industry (formerly Finance for Industry) has steadily adopted a more hands-on approach. Of course, entrepreneurs

are notoriously rejuctant to cede control of their businesses and competition to supply funds for promising innovations in the high-tech sector is also intense.

The proof of the pudding wili be the capital gains MTI produces for its investors, of which the largest will be Morgan Grenfell

# Schroder Money Funds Limited

# Benefits of a £100 million corporate money fund now available to the private investor

If you are thinking of investing £10,000 or more in an offshore "roll-up" money fund consider these advantages offered by Schroder Money Funds Limited.

- The Fund's basic investment objective is to provide a secure, highly-liquid, short-term investment offering good returns close to prevailing short-term wholesale interbank rates.
- All of the Fund's income, after expenses, is re-invested and no dividends are paid. Consequently the Shares steadily rise in value and the whole return is achieved as a capital gain. Under present legislation the first £5,300 of chargeable gains realised by an individual in the current tax year is exempt from capital gains tax, and any excess is taxed at 30%.
- The Fund invests in short-term first-class bank deposits, all but the very shortest of which are re-valued to market prices each week to ensure fair and
- Management fees are a low 0.75% p.a. There is no initial charge and no difference between bid and offer prices.
- The Fund was specifically designed to meet the requirements of the sophisticated corporate investor, and the Fund's present assets exceed £100
- The Fund's Investment Adviser is J. Henry Schroder Wagg & Co. Limited, one of the City's oldest and most respected merchant banks and investment

Reduced Minimum Investment The Fund presently issues Shares in sterling, U.S. dollars, deutschmarks and

Swiss francs, and the Directors of the Fund recently reduced the minimum holding of any class of Shares from approximately £70,000 to £10,000. Provided this minimum holding is maintained, additions and withdrawals may be made in minimum amounts of £1,000, and conversions between classes of Shares may be made in minimum amounts of £5,000.

nent is issued by 1. Henry Schröder Wago & Co. Limited, an exempted deviat to securition

Executex Clothes Pretax profit, £51,000 (loss, £571,000). Stated earnings, 2.39p (loss, 24.03p). 24.63p;. Turnover, 23.27m (23.58m). Net dividend, nil (nil).

Edenspring Investments reports that a conditional contract has been exchanged for the acquisition of a freehold industrial property at 134 King Street, Hammersmith, for £300,000, to be satisfied by the issue of 3.75m new ordinary shares in Edenspring.

Application will be made to the Council of the Stock Exchange for the admission of the shares to the official list. The board of Edenspring have had the property professionally valued at £300,000 and the current rental of £18,500 is subject to a review in December.
The vendor of the property is Mr Nicholas Charles de Savary, who will retain the shares as an

which makes it clear there is no obligation on either side and that the relationship does not have the usual criteria of employment."
There is, it appears, no formal ist of criteria, but the

rather than an employee taxed contract is a "contract for service" or a "contract of There is a greater scope for claiming expenses, particularly

Does the worker own and

Does the employer have the

I'M SELF-EMPLOYED? MLAND REVENUE MARVIN

DO I LOOK AS IF

pension plans which would point to an employed rather than a self-employed deal?

Do you have more than one client" or "employer"? The Inland Revenue has

moved first on those groups it believes has evaded tax consistently by not declaring their "self-employed" earnings over the years. In Fleet Street's notorious "Mickey Mouse" scandal it was revealed that newspapers made cash pay-ments to a host of fictional characters - all untraceable.

Anyone sweating through O and A levels might be interested to learn that the teachers and lecturers marking their papers were also thought to be among the worst offenders.

There is a danger that many the 2.5 million who are genuinely self-employed could now find themselves swept into

the PAYE net. For the Inland Revenue has a 300-strong team investigating companies' PAYE Operations.

Such is the fear and havoc caused by these activities that many employers would rather put everyone onto PAYE rather than risk running foul of the Inland Revenue. As several employers have

found, there are harsh penalties for not deducting tax. The amount you have paid out gross to the self-employed worker is treated by the Inland Revenue as a net payment. The taxman then grosses this payment up to work out how much tax should have been due and demands it not from the individual, but from the company.

One nationalized industry had to pay the Revenue £1.750m back-tax and national insurance contributions as the

No wonder many companies are trying to avoid trouble. But what can you do if you find tax is being deducted at source and feel that you are genuinely self-employed? It is unlikely that you will persuade the company to change its mind it has everything to loose and

result of a PAYE investigation.

nothing to gain. The company may ask for a letter from the Inland Revenue confirming your tax position under schedule D. You are most unlikely to get this out from the taxman.

And past returns will probably not be accepted as proof of self-employed status cither. You will have to go through the normal Inland Revenue appeals procedure. Ask the taxman for a formal assessment and then lodge an appeal with the commissioners within the

requisite 30 days. You have the choice of appearing before either the special commissioners in London or the local general commissioners. The former are full time tax lawyers and Inland Revenue officials - the latter are generally local worthies.

If you are a "self-employed" electrician who has been work-ing for a local housebuilder for the last five years, it might not be a good idea to appear before the general commissioners, many of whom will no doubt be aware of this fact.

In either case the only appeal if the decision goes against you is to the High Court, and on points of law only.

#### FAMILY MONEY edited by Lorna Bourke

#### Top 20

#### **Overseas** funds dominate table

The London stock market may have reached a peak last month, but for the most part it has been those unit holders who have held their money abroad over the past six months who have seen the best returns.

Only the £3m Henderson Recovery Trust, with about 98 per cent of its portfolio in the Britain denies the overseasinvested funds a clean sweep of the top 20 places in this year's

unit trust league table.

Mr Christopher Clarke, one of the investment directors at Henderson Unit Trust Management attributes Henderson's success to searching out gennine recovery situations rather than those shares suffering from just a temporary price setback "Some recovery stocks, such as Pilkington and Turner & Newell, have had a real move in recent weeks.

Prospects in the British stock market are very much influenced by events in the United States. Wall Street touched record levels last month, but stock market indices have dropped on fears of higher United States interest rates.

Mr Jim Mellon, who is responsible for the fortunes of the GT US & General Pund is enthusiastic about the Ameri-

can market. He points out that "in the three previous bull markets the gains were between 95 per cent and 350 per cent, the duration of the bull markets was between 41/2 and 71/2 years. The one that we are now in has been going eleven months and it is up only 60 per cent. It is still very much a baby, with a lot more growing

Several of the funds investing in the United States market recorded some good gains in June. Allied Hambro American Special Situations, Craigmount North American, Mercury American Growth and Target US Special Bond Fund all notched up offer price increases of 10 per cent or more.

However, these rises look mediocre when compared with the performance of the £240,000 International Oppenheimer Growth portfolio. This fund where stock selection is undertaken by Oppenheimer Management Corporation in New York achieved a 35.4 per cent price ump last month.

#### Thinking small

Shopping around the smaller building societies is the only way to get the best return for your money. Mornington Building Society of 158 Kentish Town Road, London NW5, is offering 8.5 per cent on its ordinary share accounts with no term restrictions or withdrawal penalting. This is acquirement to 13.4 and penalties. This is equivalent to 12.4 per cent for basic rate texpayers.

#### Picnic perk

New investors with Town & Country Building Society can enjoy the fine weather with a tree pionic set. The sets wearrer with a free partie set. Into sets are being given away to investors who open an ordinary share account with \$250 or more, and are available from Town & Country's 70 branches while

#### Leeds link account

Leeds Permanent has launched a new pay-and-eave account teaming up with Yorkshire Bank and Barclaycard to enable investors to apply for the Yorkshire Bank Barclaycard. The interest rate paid will be 6.75 per cent net basic rate tax (9.64 per cent gross) improving to 6.86 per cent net (9.80 per cent gross)

#### where interest is left to compound halfyearly. Carcholders can authorize payments

direct to Barclaycard from the new account as well as use Barclays Bank cash dispensers. Salaries can be automatically credited to the Leeds account and automatic transfers can be made to subscription shares, save-seyou-earn accounts and mortgage

#### Halifax at home

Helical culturn Society is learnering a free quarterly family magazine. Homes and Savings, covering all aspects of home life, house maintenance and ment and personal finance. The magazine, due in September, will itially be posted to 250,000 customers

# with another 250,000 available at branches and agencies throughout the country. It will be published by Headway Publications.

Money show An exhibition has been launched for enyone interested in money and how to manage it. The Money Show, at the Kensington Exhibition Centre in London from February 2-5 next year will aim to

#### make the individual or the small businessman aware of what products:

and services are available.

Clearing banks, building societies, consumer finance organizations, life assurance companies and financial advisers will be brought together to meet their market financial.

#### Pension relief

How pension mortgages work for the self employed or those without a pension is the subject of a booklet from Sun Alliance, it explains how your mortgage and in finited to a pension of pension plan. Aliance. It explains how your mortgage can be limited to a personal pension plan which allows you normal tax relief on your mortgage interest and full tax relief on pension plan premiums.

When the plan expires, you will get a tax tree sum to pay off the mortgage and an annual pension for your retirement. The leaflet is available from any branch of Sun Aliance or from financial advisors.

#### Card protection

The article last week on the difficulty of stopping chaque cards and cradit cards when they have been stolen brought a large response from readers.

#### Card Protection Plan, a company which deals with this eventuality, was among the first with its thoughts on the

For an annual subscription of SB, it will notify banks and credit card companies by telex of any loss or theft of credit cards. When you sign up, a record is taken of the numbers of your credit cards, cheque guarantee cards, service till cards and so on. If they are stolen or lost, you make one phone call to Card Protection Plan on a line which is manned round the clock and the company moves into action. You also get 2250 worth of insurance cover against traudulent use of the card and useful key racovery services. Details from Card Protection Plan, Tel: 01-938 1041.

#### Tax relief delay

Hemebuyers with a loan of more than 225,000 are being asked to wait for the extra tax relief due on their mortgages. "Where tax relief is due at the higher rates, or the loan is not included in the Miras arrangements, appropriate relief is given in the PAYE code, in these cases the lokand Revenue will be appropriate. the Inland Revenue will leave codes funchanged for 1983/84 and check the refer due after the end of the tax year".

the Inland Revenue says in a statement. This seems a bit hard on taxpayers since they are already suffering the effects of clawback of the underpayment of tax on mortgages for 1982/83. The Revenue does say, however, that anyone who would prefer to have the code adjusted for 1983/84 should write to the tax office. Applicants will have to obtain tax office. Applicants will have to obtain from their bank or building society an estimate of the total interest likely to be

#### Mortgage fears

The Times/Money Programme Unit Trust competition

peld in 1983/84.

Middle Bank its confirmed that it will not be increasing its mortgage rates. Homebuyers will continue to pay the quoted rate of 10.75 per cent, which compares favourably with the building societies' new rate of 11.25 per cent. This leaves Middlend as the cheapest source of house purchase finance -

though do not go rushing round for a loan because unless you are a long-standing customer, you will not get one. Midland, in common with the other banks, has reduced drastically its lending for house purchase to 210m a month compared with £60m or £70m at the same time last year. The bank's rate of 10.75 per cent

works out at an APR of 11.2 per cent. NatWest is now the most expansive of the banks with an APR of 11.8 per cent. But all the banks are cheaper than the building societies where the quoted rate of 11.25 per cent is equivalent to an APR of that the trainer 12 per cent.

#### Rebuilding costs

The cost of robuilding a house of bungalow rose by 1.3 per cent on average during the second quarter of 1983 and by 7.1 per cent in the 12 months ended June 1983. If the index is applied to a house which would have cost £40,000 to rebuild in June 1982,

there would have been an increase of nearly £3,000 by June 1983. The British insurance Association emphsizes that homes should be insured for the rebuilding cost, not the market value, and its leaflet "The Home Owner's Guide to Buildings Insurance", helps to estimate the cost of rebuilding houses and bungalows on a £-per-square foot basis, according to type and size of property, its age and situation. The leaflet can be obtained by sending

a stamped addressed envelope to: Leaflets (H), Aldermary House, Queen Street, London EC4N 1TU.

#### Savings

#### Why so many banks don't really love you

How traumatic, especially for Canadian and Australian banks those seduced by slogans about have joined the exodus.

The decision to withdraw bank, the friendly, neighbourhood, open-on-Saturdays bank, to discover that your bank manager does not really love you, after all!

Such a discovery was made

last month by 200 customers of the London branch of the Banque du Rhone, a Swiss hank now owned by Alexander and Alexander, the US insurance group. They were told, politely but firmly, to go. The decision - which pro-

voked surprisingly little wrath was taken on purely commer-cial grounds. The accounts were not profitable enough, either because the average belance was too low or activity was negligible. In any case, they seemed unlikely to generate much

The Banque du Rhone will not say precisely how much it expects customers to keep in their accounts (£200 qualifies for free banking) but it is not the only bank to insist on a minimum balance.

The Banque Nationale de Paris, with a branch (open to 1 pm on Saturdays) oppostie Harrods, has lately been telling customers about the need to maintain a minimum balance of £100 "at all times". And, unlike the Banque du Rhone, it does not pay interest on current

Credit Lyonnais, another French bank with three branches in London and one in Edinburgh, is not interested in current accounts of less than

Some foreign banks have branches altogether rather than persist with unprofstable (or not profitable enough) private business. The Americans set the tone when they pulled out of retail banking almost as fast as they moved in.

easy one. Accounts may be unprofitable but every bank is obliged to have a certain number of depositors if it is to obtain a licence from the Bank of England. The question is:

The National Commercial Bank of Australia – which has done its share of rationalizing – still has 700 private accounts in London, But, over the past two years, it has told hundreds more customers - including many who have banked with it for years "down under" - that they would be better off elsewhere.

So, why do people who could, say, enjoy entirely free banking at Williams and Glyn's with only 1p to their name, insist on soing - as thousands of Britons do - to a foreign bank? Clearly, the answer has something to do with the fact that the smaller the bank, the more important the individual

But foreign banks also have snob appeal. This is precisely the factor that prompts winners of the football pools to switch their accounts from the Co-op to Coutts, where the average balance required is £1,000.

Where, then, should one go if the big four banks do not appeal and you can not yet afford Courts? Next to Williams and Glyn's, Co-op, Yorkshire, and Giro bank which impose charges only if an account goes into debit, the best bet is undoubt-

edly the Hong Kong and Shanghai. Its services are entirely free. The drawback, as the big four are quick to point out, is that the Hongkong and Shanghai does not have a branch in

# Contest leader pinpoints the way with a random selection

The well tried "pin" method was used by Dr Roy Marshall to Times/Money Programme Unit Trust competition. "I was looking for an American trust. We have millions available but other than that it was a case

> of making a stab with a pin," he At the half-way stage (the competition does not end until December) he is one of the front runners with Mercury American Growth, one of the Warburg stable of trusts, "I thought the American market would do well - particularly with the election coming up -though I didn't really expect it

to do so well at the beginning of the year," Dr Marshall said. A geophysicist on the exploration side at BP, Dr Marshall's interest in investment is purely ecademic at the moment, but he hopes to be able to back his bunches with hard cash one

day. Top performers in the competition are a mixed bag of rusts with little in common Overall best is Oppenheimer's International Growth (formerly Great Winchester Overseas) which is showing 50 per cent appreciation over the five months since the competition began. In second position is GT European with Mercury Ameri-

can Growth at number three. Three competitors chose the Oppenheimer fund - Mr Alan Maidment and his son and Mr. Christopher Wesolowski. Mr Maidment and Mr Wesolowski both work for Oppenheimer so their entries are a display of loyalty for the home team. M Martin Page, who is responsible for the Oppenheimer trust, explained

philosophy "Basically 70 per cent of the trust is invested in the United States. Stocks have been selected by our American colleagues and the vast majority have been over-the-counter stocks. That market has gone up 100 per cent since the August low of last "There have been some tremen-

dous moves there. The other 30 per cent of the fund has been invested in Japan." Some profits on stocks have been taken and the fund is now. 9 per cent liquid. Will they

How much will it cost

position was the second choice of Mr Mark Searle of Richards Longstaff; Mr Jamie Berry's second choice, Britannia World Technology, is at number 12, and Mr Peter Edwards of Premier Unit Trust Brokers picked eighth-placed M & G American Recovery as his

First choices were all Far

maintain 70 per cent of the fund Eastern trusts and Mr Peter-

in the United States? "Yes - we believe we can pick the stocks", Mr Page said. Among our panel of pro-

fessional advisers, it is the second choices that are doing best. GT US & General in ninth

Edwards is doing best here with Henderson Japan Special Situations in eighty-third position. "I think the feeling is now that we were all ahead of ourselves in January when we tipped Japan", he said. "There has been disappoint-

ment on the currency but by the autumn, one does really expect the yen to appreciate."

How is he advising intending investors now? "We haven't changed our view - we still recommend 30 per cent in the United States, 30 per cent in the United Kingdom and 30 per cent in Japan. It is a very clever

one economy or one stock market which will best benefit from the emerging world

recovery."

Mr Berry is still optimistic that his first choice of GT Far East and General, now at number 243, will come right over the longer term, "I felt at the beginning of the year that the United States would make all the running for the first half of this year, but would be overtaken by Japan towards the end.

What does he read into the current situation with no one type of trust or geographical area dominating the perform-ance tables? "Selectivity will become more and more important." Mr Kean Seaser of White-

church Securities is the tailender at the moment, but with three Far Eastern trusts and a Hongkong trust for first choice. there could easily be a dramatic change of fortunes. His best performing trust is S & P South East Asia Growth at number 254. His first choice of Britannia Hongkong Performance is languishing only 17 places from the bottom of the table and is one of the 17 trusts actually to show a loss.

The Houskong market has come back very suddenly in the past two weeks. I still think this is an area that is very attractive", he said. "The economic growth that is coming through there is going through very fast and will be further stimulated by the recovery in the United States.

He believes that the Hongkong market has held back his second choice, the S & P South East Asia fund.

His third choice, M & G Australasian, only 22 places off the bottom, is doing considerably worse than Target Commodity, the commodity trust picked by Mr Berry, which has managed a 15 per cent appreciation.

Mr Seager is undaunted.
"With the American economy\_ picking up faster than people had anticipated it is good for raw materials in general and the commodity based economies

# Coghlan and Scott have sights on Coe's record

Sebastian Coe's world one mile record of 3 min 47.33 secs., set in Brussels two years ago, could be broken in the Oslo

Games tonight. In the absence of Coe. Ovett and Sydney Marce, the princi-pal contenders for a new record are the constant enemies, in the best sense - Steve Scott of the United States, and Earnonn Coghlan of Ireland. In this same meeting, last year, Scott came within a stride of Coe's record when he won in 3.47.69, for the second best-ever mile time. And his recent form has been impressive, even if Coghlan has beaten him outdoors for the first time in four years.

Coghlan's victory a month ago was by the narrowest of margins, of one hundredth of a second, 3.52.52 to 3.52.53. But then Scott went on to win the US Championships, and two weeks ago, although admittedly after a relatively sedate pace for the first two laps, Scott won the USA v GDR match 1500 metres with one of the fastest ever final laps of 52.8 seconds. Coghlan's victories over Scott have normally been reserved for the indoor circuit, where the Irishman has proved unbeatable. After missing the whole of last summer through injuries, Coghlan broke his own indoor world mile best in March this year with the astonishing time of 3.49.78 on an 11 laps to the mile track. As in several other indoor meetings last winter, Scott finished a close second to

Coghlan. The other factor in Coghlan's favour is that he is the only man this year to have beaten the impressive US 5,000 metre runner, Doug Padilla, in a sprint finish. Coghlan has endured the frustation of two consecutive 4th places in the Olympic games - in the 1,500m Montral, and in the 5,000m Moscow. The Irishman

#### WORLD STUDENT GAMES

## Nigerians hit the gold trail

Edmonton (Reuter) - Nigeria, who had never won a gold medal at the World Student Games, collected three in the athletics events yesterday. Their coach, John Okoro, yesterday. Their coach, John Okoro, called it the greatest day ever for Nigerian sport. The Nigerian winners were Chidi Imoh in the men's 100 metres, Sunday Uti in the men's 400 metres and Yussef Ali in the long jump.

Nigeria's most impressive per-former was Uti, who is ranked third in the world over 400 metres. He defeated Victor Markin, of the Soviet Union, who is the Olympic 400 metres champion, and Sunder Rix, of the United States, Britain's best was Judith Livermore, who won a bronze medal in the women's heptathlon. Miss Livermore, aged 22, and a Commonwealth games silver medal winner, gained 6,184 points, 102 points below a personal best. She runs for Birchfield

# When Hollywood language can diminish the word and moment

If you saw something described as great, brilliant, superb, glorious, breathtaking, awesome, stupendous, marvellous, amazing, unforgettable, magnificent, tremendous, stunning, devastating and fascinating devastating devastating and fascinating devastating and fascinating devastating and fascinating devastating devastation devast lous, amazing, unforgettable, magnificent, tremendous, stuning not to mention fantastic and incredible, what do you think it might be? One of the wonders of the world? A vision of the universe? The birth of a nation? The apocalypse?

If so, you would be wrong, and you can go and stand in a corner for your ignorance. Something far more momentous is being described - I mean Tom's goal and Jerry's try and Tweedledum's century and Tweedledee's return of service. With increasingly indiscriminate and hysterical emphasis, newspapers and commentators have been seeing sport in these terms for years, until the terms have lost meaning and become stock reactions, like a child's grab at a piece of chocolate. Whenever I read or bear

these words now, I recoil instinctively and tell myself, because I have seen and heard them a thousand times before, that in at least 999 cases they cannot be true. I do not object so much to the terms themselves: only to their over-use and misuse, to the piling of superlative on top of superlative, in accounts of events and can be used on the everwhich in the heat of the more popular moral plane,

"Pretty, ain't it?" Substitute "Good, ain't it?" and you have a paraphrase of the kind of sporting journalism I am talking bout I would in fact like to see the honourable old word, good, restored to favour; but there is scant chance of that.

It is not good enough for the media. It is not thought exciting enough. It sounds too like damning with faint praise. We are so conditioned to extravagant language in sport that if we see anything described as good we dismiss it with a sniff, telling ourselves that we want no truck with such duliness, and that we expect better from our heroes. Which brings us to the

villains without whom there would be no heroes. Things do 20 wrong in sport, and then a diffenent vocabulary, just as tired, non-concrete and inappropriate, comes into play.

An own-goal in football is "tragic", a dropped catch in cricket "disastrous." Any kind of mistake is liable to be called "appalling" or "horrifying", as if hundreds died as a result. The same words are interchangeable.

"concepts" and "imperatives" and "double standards" fill the reader's mind with fog.

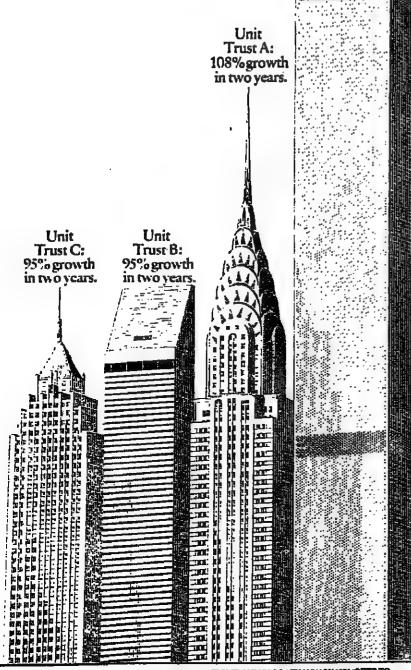

While I am at it, I would also

like to see the adverb put in its place - out of sight, for preference. Graham Greene has said it is a greater enemy of the writer then the adjective. It is almost always padding "Sadly" and "happily" crop up most often. "Sadly, he broke a leg in a tackle." And later: "Happily, he did not, as was at first feared, break his leg in the tackle." An example of running the gamut of emotion from A to B. One day I shall no longer be able to live because, sadly (or is it

happily?), I shall be dead.
When I think of the "unforgettable" sporting occasions that I have completely forgot-ten. I sigh. To me, a goal is a goal and a century a century, no more, probably less. Watching one, I never undergo the mystical experiences that others apparently do. If I did, I would not stand the strain for long.

Breathtaking, magnificent, stupendous, and the rest of the heavyweights ought to be used sparingly, if at all. They are Hollywood words, straight from posters extolling King Kong and Gone With The Wind. They have all the impact now of a

Charlton

face

closure

order

Charless Athletic will face a court order to close down if they cannot pay £145,000 in tex debts, a High Court Chancery Division hearing in Leeds was told yesterday. The hearing was brought by the second division clab Leeds United, who were said to be owed £35,150 from the transfer of the Welsh international winger Carl Harries.

Representing Charless, Mr James Alless successfully applied for the hearing to be adjourned until July 25. Nir Alless said he hesped that by then the clab world be able

July 25. Nir Alten said he hoped that by thest the club world be able to pay their twors before the Inland Revenue served a winding up order.

The judge was told that at the next learing the Inland Revenue, to whom £145,740 was due to be paid, would replace Leeds United as the petitioning creditors.

After yesterday's brief hearing Peter Leviue, representing Leeds United said: "It is the earnest hope of Leeds United that Charlton will be able to satisfy both Leeds and the other supporting creditors of the

petition - including the Inland Revenue.

"Loods United have been reasonable right through this matter and, even at the 11th hour, hope that a fellow league chib will survive."

A cash deposit of 250,000 or bank guarantee is one of nine conditions imposed by the Football League on anyone trying to form a new company to save Bradford City. The League, suctious to preserve the credibility of football as more clubs consider bankruptcy as a means of survival, have presented the official receiver with a bineprint for any lateous.

**Burnley** get

their man

Burnley have completed the signing of Kevin Reeves from Manchester City for a fee of £100,000 - only three years after the Maine Road club paid Norwich City £1m for him. Reeves is Bond's second signing following the £20,000 transfer of the former Norwich goalkeeper Roger Hansbury last week from the Hong Kong club Eastern A.A.

The Swanset City club captain Robbie James cold become a Stoke City player next week with the transfer ree decided by a league tribunal. Stoke want James as a replacement for Paul Bracewell recently solk to suaderland, but their replacement wall helper the

their valuation is well below the £250.000 that Swanses want. Swanses have offered Magdeburg. August 23 and August 31 as possible dates for their preliminary round European Cup Winners' Cup tie.

Tony Towner, the Rotherham winger has signed for Wolverhampton Wanders in a £50,000 deal.

US officials consider their options

# FIFA decision over next World Cup may be challenged in court

lew York

Inquiries confidently suggests: apparently without having to Officials of the United States that FIFA's refussal to disclose give its reasons. The US, at

finals to Mexico.

I understand that the USSF submitted by the arbitrary deadline of March 11, and that this document, a mere dozen pages or so, contains no more details or guarantees than the initial American application, the alleged inadequacy of which was said to be the basis of FIFA's rejection of it.

All the comparative data of the two documents, together with details of the charade of FIFA's special meeting in Stockholm on May 20 – at which the US delegation led by Dr Henry Kissinger was cynically and openly humiliated, together with the Canadian delegation, by the invitation to present their case afresh to the FIFA executive committee on an argument now seen to have been already settled long before-

hand - have been circulated There are now three possible courses of action. A decision to proceed against FIFA could be taken either by the seven-man executive committee, or by the 19 directors, or by the full USSF council of over 200 members. There is no scheduled meeting of the executive committee, but the council will hold their annual general meeting on August 28.

After the meeting in Stock-holm, at which Jozo Havelange, the FIFA president, announced "unanimous" decision to award the finals to Mexico, even though no vote was ever taken, the USSF delegation wanted to see three documents: the Mexican application, which they now have seen; the report and recommendation of the FIFA special commission, which inspected only Mexico; and the minutes of that deicisive executive committee meeting of May 20, which rubber-stamped the award to Mexico before the represen-tations of the US and Canada

Soccer Federation are currently the contents of the special divided over whether to take commission's report to one of action against FIFA, either their own member countries within the limited scope of could be overruled in a Swiss FIFA's own regulations, or by court of law. But the question civil law, on the decision to remains whether this could be award the 1986 World Cup achieved in time to be relevant

for 1986. A US committee including have now seen a copy of the Dr Kissinger has already dis-original Mexican application cussed the option of resorting to the civil courts before the departure for Stockholm, but had agreed to wait to see if they

received a fair hearing.
Yet now there are two schools of opinion within the USSF. Some officials, led by Werner Fricker, chairman of their World Cup committee, and vice-president of the federation, and Howard Samuels, president of the North American Soccer League, believe that the US should act, not only in protest, against the disgraceful treatment they received in Stockholm, but in the interests of the whole game, worldwide.

No other individual or body seems prepared to challenge FIFA's conduct, which at the least, is high-handedly auto-cratic, but more ominously appears consistently to violate democratic procedure and its own constitution. Several members of the executive committee have admitted that no formal vote was taken, either to approve the special commission's report or to award the

finals to Mexico. On the other hand, Gene Edwards, president oof the USSF, is of the opinion that it should be accepted that "we lost the game", and that no boats be rocked for fear of jeopardizing even further the USSF's less than powerful position within the clandestine committee ranks of soccer's raling international body.

Where the USSF has been completely outmanoeuvred up to the moment is in the lack of knowledge among all but a handful of people more used to the world of corporate business, of the complex manoeuvring and lobbying in amateur committees of some distant, foreign, allegedly non-commercial body which can actually determine what happens in a major sport

present, is like a dinosaur which has had a toe severed by an adversary it cannot see.

wat action should be taken. Dr Kissinger is on the sidelines, for he has no official position following the inevitably doomed Stockholm bid, though seven weeks ago he was in favour of challenging FIFA if the USSF was short-changed.

Other reasons why militant USS officials want action concern more general aspects of FIFA's administration. Why, for instance, has no-one, not for instance, has no-one, not even any of the 24 participating finalists, challenged the fact that the World Cup accounts for 1982 in Spain do not show any figures for the marketing of official souvenirs and mementoes - prsumably a substan-tial sum - or that several bundreds of thousands of pounds was spent on buying out the unexpired contracts of two long-standing officials, Helmut Keiser, the former general secretary, and René Court, the former Press secretary? Not a

few people will be watching events on August 28 with interest. Many of the grass-roots council members of the US federation are angry at the way their country has been abused and consider it should not have been done with impunity.

It is now probably of academic interest only how the host American team might have fared had the finals been awarded to the US. In expectation of that, it was decided this season to form Team America to participate as a national side in the NASL; and, in their opening game, they had proved to be dour, difficult to beat, and occasionally dirty.

But, when, for the first time, they ran into real class on Wednesday night, they fell apart. New York Cosmos put four goals past them and it could have been eight in an exciting match watched by a 33,000 crowd in the breathtaking Glants Stadium at Meadow lands. East Rutherford. New

Eamonn Darcy of Ireland, ft at the first, a nine iron to less wood, which placed Biocchi under seventy on Thursday, maintained a clear lead in the than a foot at the second, short of the green and Darcy in State Express tournament at the Belfry, Sutton Coldfield, yesterday. Withou playing noticeably of a long putt, all of ten yards. A surface of the huge lake that less well than on the second day five at the eighth did not dominates the hole. he yet reached a total for the round of 72, nine strokes more than he, or more precisely his putter, had contrived on Thursthe tenth. day. This gave bim a three round total of 206, two strokes fewer than his nearest pursure, Hugh Baiocchi, of South Africa, (70 yesterday) and three fewer than Manuel Calero, of Spain

(69).
Darcy may not have been the green quite so tidy through the green this day, but the main difference was that his putter behaved more conventionally than on the day before when he seemed unable to fail from any distance any any direction. He took 34 putts yesterday, 25 the day before, showing the same disparity as his separate scores for the two rounds.

He reached the turn without a birdie to his record, an absurd contrast to Thursday, since he was hitting the greens with much the same regularity. He did get away with two wayward drives at the first two holes, first from a bunker and then from the light rough. Then, for a time, it was mundane stuff as the putts refused to drop -Darcy's nearest and dearest would not describe him as a shining personality - until he was hauled back from ten under par to nine under when he failed to get up and down from a bunker at the eighth.

Briefly, Darcy's overnight four-shot lead disappeared as Biocchi, his playing partner, profited from a blistering start. Biocchi played a seven iron to 8

Meanwhile, Frank Sheridan, who recently spent £4.2m turning the Old Course Hotel into a country club, was suitably apologetic. "I want to make it clear that, in my epinion, 199.9 per cent of St Andrew's wanted this match to go shead - but just one member of the links management committee did not want it staged."

Nickians can't have been cheered up when he later shot a four-over-par 75 compared with Ballesteros's tidy 69. However, he can take lation from the £50,000 he is reputed to have earned for the event

VACHTING

#### Solent tide wears its best smile

By John Nicholis

For an hour or two yesterday morning, the Western Solent was not the place for a faint-hearted yachtsman. Various clubs were starting races at about the same time and, altogether, there were more than 300 boats queueing up to start on the ebbing tide. First away were a fleet of French Royale cruiser racers accompanied by an escort vessel labelled Tour de France. One hopes they were not in Cowes by accident.

Next off were the various classes
of the Royal Ocean Racing Club's
race to Dinard and St Malo. In Classes One and Two were several of the overseas Admiral Cup entries, together with two of the British team, Dragon (Brian Saffery Cooper) and Indulgence (Graham Walker). The third British boat, entered but not seen to be racing.

No doubt there will be races within races on the way to France, with the Admiral's Cup contenders doing their best to upstage one another. Unfortunately, conditions were less than comfortable for exciting racing, with the tide doing more than the breeze to help the

more than the breeze to help the boats on their way.

Last away, sensibly waiting until they had the water to themselves, were the Sonatas, competing in the third race of their national champloashlp. Their event, sponsored by Pimm's, has now suffered two days of frustratingly light winds, but the programme is so far on schedule. Yesterday's race was their long-distance one to Christchurch long-distance one to Christchurch Ledge and back. It seemed an ambitious project in the circum-stances, but, for once, the Solent tide was helpful. First, he fleet were sucked out through the Hurst Narrows and a few hours later they re-appeared. Places changed out in Christchurch Bay but, once back into the Solent, Michael Finch held

on to his lead to the finish.

RESULTS: Thursday, first race: 1, Duette (A. Joppe); 2, Intpromptu (P. Sonksen); 3, Frust (R. Eight), Second race: 1, Duette; 2, Marimba (P. Marchamt); 3, Captain Seaky (R. Harnes). Yesterday: 1, The Magic Flute (M. Finch); 2, Esicny (W. Colbard; 3, Cimaruta (W. St. Clair); 4, Hey Do (D. Rowley); 5, Impromptu; 6, Duette.

Range Rover J 24 championship at Abersoch was hotly contested to the end.

The sixth race was won by David Peacock in Mother by just two seconds from Colin Hall in Dreadnought, who promptly protested that the winner had committed an infringement.

There was a commanding win There was a commanding win overall for the second successive year by Eddie Warden-Owen.

#### Cup wave of protest

Newport, Rhode Island (AP) -Victory '83, coming fro behind, achieved a win over Canada 1 in America's Cup on Thursday. The British yzuht kept pace with the winning record of leader Australia

Trailing by 22 seconds on the windward fourth leg of the triannular course, Victoy '83 overtook the Canadian entry on the downwind run under Spinnakers, and spread its lead to 34 seconds at the finsih in changing winds of

about eight knots.
However, Australia II's comgirls' 1500 metres record while winning her heat. The 18-year old manding lead in the June trials kept the boat ahead overall with 7.2 from Reading College won in 4 min 24.80 sec to trim the seven-year old points to 6.6 points for Vicotry '83, under the complex scoring system.

Meanwhile, Australia II, whose record by three tenths of a second.
The holder, Julie Rose from Kent, could only finish fourth in her heat crew are making their fourth bid for the America's Cup, manissined winning ways with a 2.10 victory over France 3. and missed the final for the first time in six years.

over France 3.

In the only other race of the day,
Advance, the Australian entry
which has yet to win, and is
skippered by Murray, appeared to
be on the verge of its first victory
since the trials began. But it was
overtaken on the downwind fifth leg
by Aggreg of Italy enided by Scale Surrey's Ian Lewis who won the best of 15.01 metres.

Simpson stretches for a forehand. (Photograph by Chris

The start for Lewis, the New Zealand hero was faltering, perhaps predictably. He lost the first four games and was not far from losing a love set when break point down to lose the fifth game. He had, he admitted, been tired earlier in the week after his Wimbledon final, and had been recomperating by listening to David Bowie, T. Rex and other old English rock music.

"I can't believe that all that's

happened will hurt my performance," he said, "And I've never had rouble preparing for the Davis Cup". But it did not look that way. His opponent, Mats Wilander, had his own music, a symphony of service return winners against Lewis's variable delivery. The New Zealander's old problem, foot-faulting, also began to reappear at important moments.

Lewis's best chance of making a psychological breakthrough came in

the second set when he twice milled back breaks of service to reach 5-5. However, another indifferent serand Wilander then served out to love to take a two-set lead, 6-4, 7-5. Wilander went on to win in four sets, 6-4, 7-5, 6-8, 10-8

EASTBOURNE: IT Simpson (NZ) bt H

NEWPORT, Phode Island (US triess stated): Second round: P Annacare by 8 Kleege, 6-4, 6-7, 6-1, Charter-Gretic S Davis by Ten Guillacon, 7-5, 7-5; M Mitchell by J van Hostrand, 7-6, 7-8;

#### Nastase storms to defeat

Australia took a 2-0 lead over Romania yesterday on the first day of their Davis Cup quarter-finals in Brisbane. Pat Cash beat Florin Segarceanu 6-2, 6-1, 6-1 in the opening singles match, and Mark Edmondson beat Ilie Nastase 4-6, 6-3, 14-12, 6-2 in the second.

Nastase was at his temperamental tecerving a caution, but also playing to the replaced, a caution, but also playing

The worst moment came in the twentieth game of the third set with the match balanced at one set all. Nastase was foot-faulted, camioned by John Holsinger, the umpire, then penalised a point after he smashed penalised a point after he smashed his first service over a stand. Although the referee overruled the penalty, Nastase continued to tauni the baseline judge, who foot-faulted him several times.

At one stage. Nastase asked Holsinger if the linearman could be replaced, and also complained to the referre about Edmondson, who he said was swearing at the other

end.
There was little controversy surrounding Cash's clinical straightsets win over Segarceanu. The teenage Australian, playing only his second Davis Cup tie, took the first set in 31 minutes - and completed the rout in 82 minutes. Segarceanu defeat I've ever had."

In the quarter-final between Argentina and Italy in Rome, Guillermo Vilas beat Adriano Panatta, the Italian veteran, 6-2, 6-

Panatta, the Italian veteran, 6-2, 6-2, 6-1 to give Argentina a 1-0 lead on the first day.

The Argentinian took just one hour 40 minutes to win a one-sided match against Panatta, who at 32 years of age was playing in his one hundredth Davis cup match, in Marseilles Thierry Tulasue held off a second-set challenge from Francisco Gonzalez of Paraguay to give France the lead in their quarter-linal.

Leconds went on to increase

Leconbe went on to increase France's lead to 2-0 when he best Victor Pecci 6-3, 1-6, 6-2, 6-3,

#### CRICKET

#### Bairstow's humour not for diehards

HARROGATE: Northamptonshi beat Yorkshire by eight wickets.
Northamptonshire retained the
Tikon Trophy by way of an
emphatic victory against Yorkshire
here, as the curtain fell on
Harrogate's cricket week. Northamptonshire's success was a special triumph for Wayne Larkins who was the day's outstanding bowler and bataman too. It was be who brought Yorkshire to their knees in the 13th over when he took

the wickets of Kevin Sharp, Hartley and Love in four balls, and it was bewho came to the crease later to make a hard-hitting hundred. If Larkins' achievement assured him of the title Man of the Match, then he would be first to mention the part played by Tim Lamb and Williams, both of whom took two wickers, arriers: George Sharp winams, both or whom took two wickets apiece; George Sharp, behind the stumps, who held two fine catches among eight altogether; and Willey, who, like Larkins was in

making 64 not out. These two put on 175 runs for the second wicket. If Yorkshire had been overwhelmed and outclassed, too, then their score of 178 in 54.3 overs one on the wrong side of 100. But Yorkshire survived long enough to make the match more than an embarrassing formality, thanks principally to Sidebottom and to a lesser extent Carrick, Sidebottom's partner in a gritty, stimulating stand for the seventh wicket of 78 runs in

They can be proud of Sidebottom in the West Riding and Barnsley, the place of his birth, for he

qualities as he guided his county away from the misery of 34 for six. By the time Larkins and Williams had rounded him up, Sidebottom had hit two sixes over long-on to go with soven fours. Yorkshire's members rose to make a special award, a standing ovation. It was all award, a standing ovation and while these good festival stuff, and while there were undoubtedly a few dichards who might have not seen the joke when Bairstow got out, there were very many more, your correspondent included, who thought this moment to be the funniest yet seen on a cricket field. Bairstow's attacking instinct, and

his breezy, busting style makes him an engaging player to watch, and, as he lead his own counter attack all eyes around the bounderies were focused on him. We were in the 23rd overwhen a ball from Larkins hit Bairstow on the front pad and looped upwards above his head. It is doubtful whether the ball would the bails on a line with the middle stump but Bairstow, who once turned down an offer to play for Bradford City, was taking no chances. He leapt upwards to head the ball over the bar, so to speak, to a coconut-type report. That, by itself was unbearably funny but when Bairstow then sent his stumps askew as he descended the hilarity was too much for Larkins who was soon in

## The GRIP can squash reformed character next time

By Alan Gibson Bristol: Gloucestershire drew with the New Zealanders.

My wife has been telling that, when I go to Bristol, I drink too much; though what she really meant was something slightly different. that I spend too much money on drink. My explantions about old friends have been coldly received. When I went to a bar for my first one yesterday, with the sun well over the yardarm, the man by my side had just purchased a pint of grapeficit squash and was putting in plenty of ice, and I decided that was just what I wanted. It was a very hot just what I wanted, it was a very hot day. As I opened my mouth to give the order, however, I found that the Glorious Red-headed Imperturbable Pamela had already placed a whisky before me. So much for the path of reform.

The cricket was only mildly

Karen Pugh, a 17-year old college student from Nuneaton, produced the outstanding display on the first

day of the English Schools' Championships at Plymouth yester-day, hurling the senior girls discus 50.44 metres to break the UK age

group record she set at Cosford only

last week, by 1.14 metres.

Other record breeakers were

interesting except for the most intense Gloucestershire partisan, who could take satisfaction from his IN BRIEF

side's stubborn batting, and particu-larly an admirable hundred by Bainbridge. At the start, they were 218 behind, with their second innings to come. They had nothing to hope for but a draw.

At lunch, at 100 for three, it looked as if New Zealand would bowl them out. There was not much batting to come. Stovold had been caught at slip and Romaines was run out, or rather ran himself out, for he hesitated in response to the striker's call for a fessible single. Hignell was bowled, beaten for pare, I thought by Snedden.

The pitch was easy, the kind of pitch where it is not too difficult to prica where it is not too difficult to stay in, if you make up your mind not to get out. This was what Bainbridge basically did, thought he revealed from time to time his pleasing cover drives. It was his highest score in first-class cricket. He lost Wright, caught at short leg. at 133, and Doughty, caught at silly

FOOTBALL: Mike Watterson, the

snocker millionaire has resigned from the board of Derby County

best to bring up

Miss import to victory over the favourite, Munnay's Treasure, in York's Lin Pac Handicap yesterday. than on a straight one. Pat Eddery and Fandangie encountered all sorts of trouble in He then brought his tally of winners on the Knavesmire to 264 by completing a 20-1 double on Lord running in the Whitson Cup at Sandown, and today the pair can make amends by account-The Yorkshire trainer, David ing for Basil Boy and Felthorpe Baron, gaining his first Flat success this year through Miss Import, has been lucky in his use of top jockeys. "Joe Mercer, Willie Carson and now

The John Smith's Brewery Centenary Stakes sees a meeting between some fast two-year-old fillies. Deccan Queen was well backed before beating Pageantic at Pontyfract on Tuesday. Eric Eldin's in-form filly is well suitd by the prevailing fast ground However, the choice must be Nile Emprest, Robert Sangster's filly showed a fine burst of ed when sprinting away from Pendori at Haydock and should be hard to beat.

Apart from Majestic Endeavour, Stoute also runs Commodore Blake in the Land of Burns Stakes at Ayr and Bid Again in the Truman's Bitter Stakes at Lingfield. Commodore Blake won pattern races in France and Italy last season and also finishedm third to Stanerra in the Prince of Wales's Stakes at Ascot. However, Sabre Dance finished second on that

Uplands Park comes home well ahead of No-U-Turn in Lingfield's July Handicap

mile, and raced five lengths clear of Timber Tycoon.

The champion was on the joint favourite, Garrulous, in the Black Duck Stakes, but the Doncaster winner found the newcomer, Al winner found the newcomer, Al Mamoon, far too good for him. Al Mamoon took the measure of Piggott's mount below the distance and, after riding Mirwan Al Maktoum's \$310,000 colt clear,

ite about 50 yards from the post and beat him by threequarters of a length, with the bottom weight, Spanish Point, third, two lengths further back. This was Miss Import's ninth victory for her owner-breeder, Mrs Isabelle Raine, who lives "over the garden wall", from Barrow's stables at Maunby, pear Thirsk Paul Cook allowed him to ease before the post. "Al Mamoon is clearly the best of the two-year-olds I have worked", Tom Jones, the winning trainer said. The former Polish cavalry officer. The former Polish cavalry officer, John Ciechanowski, trained his first winner on the Flet in Britain when Non-Wet swept to victory in the Litho Tech Colour Printers handicap at Lingfield. The globe-trotting Ciechanowski, aged 61, has vast experience of international racing, having trained in Dubsi and France and been assistant to Vincent O'Brien. Harry Thomson and Lord Proctor, who disappointed when odds-on favourite in an amateur event at Lingfield, was fitted with a tongue strap for the first time in the Monkgate Stakes. and comfortably justified his position as market leader. Piggott bought the former classic hope through approaching the last quarter

Maurice Zilber. He was formerly a leading amateur jockey in Europe, and had three rides in the Grand

He now trains a team of 34 for He now trains a team of 24 for Sheikh Mohammed at Lambourn, and employs Sandy Barclay as stable jockey. It has been a slow start for the trainer, his first winner coming with the season almost halfway through.

Ciechanowski did train a winner over jumps at Hereford in 1970.

France. Barclay took Non-Wei to the front the moment the stalls opened and the combination led all the way to win by a comfortable two and a half lengths from Rear Action.

The Tote bookmakers have the Vincent O'Brien stable 5-2 favourites to win the King George and Queen Elizabeth Diamond Stakes, they have yet to nominate their runners.

#### Load the Cannons to hit target

The improving three-year-old, Load the Cannons, could land the 12-and-a-half-furlong Prix Maurice de Nienil at St Cloud tomorrow, Desmond Stoneham writes. By the 1974 Kentucky winner Cannonade, out of Hurry Harriet, who took the previous year's Champion Stakes, Load the Cannons has won his last three rocs.

Trained by Olivier Douieb, Load the Cannons, most recent success came in the 12-furloog Prix du Bois-Roussel at Longchamp. He gave 3lb and easily accounted for Olindo who has since won a good race at Every by the legants. The detaces to Evry by six lengths. The dangers to my selection may be Flower Prince and Karkour, who won the two-anda-half-mile Prix du Cadran in May.

### Spinks to offer champion a match

BOXING

Frankfurt (Reuter) – When the Dutch boxer Rudi Koopmans defends his European light-heavy-weight title here tonight against the local challenger Manfred Jassmann, two of the most interested spectators will be Americans.

The world champion Michael Spinks, the brother of the heavy-weight Leon Spinks, and his manager Bob Arum will be in ringside seats waiting to offer the winner a crack at the world title in a \$250,000 match later this year.

S250,000 match later this year.
For the 35-year-old Koopmans, the chance of a world title fight would crown an already dis-

Beaten in just one of his 43 professional bouts, the Dutchman has held the European title for four years, defending it successfully on eight occasions.

But he knows he is rapidly

running out of time at the ton and faces a tough nut to crack in the 31-year-old Jassmann who has won all his 51 bouts since turning proressional two years ago. Jassmann, son of Romanian immigrants and one of 11 children, started boxing with gloves when was about 20 but had seen plenty of action before then.

"Whenever there was a punch-tip, at school or elsewhele, we were always there," he said. "There was always something up. We were insulted as refugee children and had to watch out that we weren't trodden on."

"We" refers to brother Reinhard, who took the West German amaleur middleweight tale in 1980 the year.

middleweight title in 1980, the year Manfed won the light-middleweight title. A controversial figure, Jassmann once slept through the weigh-in for the 1978 amateur final and though he later won the bout, the title was awarded to the loser.

He was also given a two-month suspended jail sentence in 1979 for inflicting grievous bodily harm on someone he hit during a free-for-all his fans and busloads will be coming

to Frankfurt from his home town of Korbach to cheer on their "manni".

The West German receives 40,000 marks (£9,000), the biggest purse of his career, while the champion picks up 60,000 marks.

Nicky Wilshire of Bristol knocked out Pedro Guerrero of Guatemala in the fourth round of a scheduled 10-round junior middle-weight fight in Los Angeles. Lucien Rodriguez, European heavyweight champion, will defend his title against Albert Syben of Belgium on August 5 in Nimes.

IN BRIEF

#### **Injury too** painful for Smith

A shoulder injury forced Jonathan Smith, the British Davis Cup player, to withdraw from the Scottish championship, sponsored by Ford, at Craiglockhart yesterday when he was leading Mike Bauer, the top seed, 5-2 in the opening set of their semi-final, Lewine Mair

Serving was becoming too painful for Smith after he had aggravated the injury which first troubled him the week before Wimbledon.

Cathy Drury, who was later involved in a lengthy women's doubles, had a 6-1, 7-5 win over the industrious Sally Reeves. Miss Drury, the number one seed played a confident and adventurous first set but was somewhat tense in the second. Her opponent today is Louise Fitzgerald, a 17-year old Australian who yesterday came through an erratic match against Lorns Browne of Scotland.

MOTOR RACING: The organisers of the proposed Paris grand prix have been given an extension date for setting down guarantees for the controversial race.

The first-ever grand prix in the French capital, set for August 26, 1984, has run into a welter of protest, mainly over pollution and cost. The rare is to be staged on the Champs Elysees and along the banks of the River Seine.

#### SHOOTING

#### Reward for bravery

By Our Shooting Correspondent The First Battalion, Welsh Guards, had decided early last year to make a strong challenge for the unit championship at the Services rifle meeting at Bisley but the Yesterday, their Bisley team of nine, who also had service in the Falklands, some of them having been seriously wounded, achieved the ambition and unseated the Gurkha Rifles, who had held the major Unit Championship for the last six years.

the week, the Welsh Guards collected 866 points to beat the 2nd/2nd Gurkha Rifles into second place by 16.

place by 16.

#### **NHS** cuts 'a threat to 30,000 iobs'

Continued from page 1

Fowler on Monday to protest at the £130m cutback in NHS

Mr Rodney Bickerstaffe, general secretary of the National Union of Public Employees, said that estimates of job losses in the NHS varied between 20,000 and 30,000. "It would be nonsense to suggest that other than thousands of jobs are at stake," he added.
"There is going to be one hell of a lot more trouble."

The £30m cut in the education budget is expected to mean less money for the universities, cuts in staffing and administration at the Department of Education and Science and a possible reduction in the student grant this autumn (Lucy Hodges, Education Correspon-

It amounts to a 1 per cent cut in the £3,000m budget which the department administers centrally. There will be no cut in the £9,000m sum which the local authorities receive for local authorities receive for education so schools remain untouched.

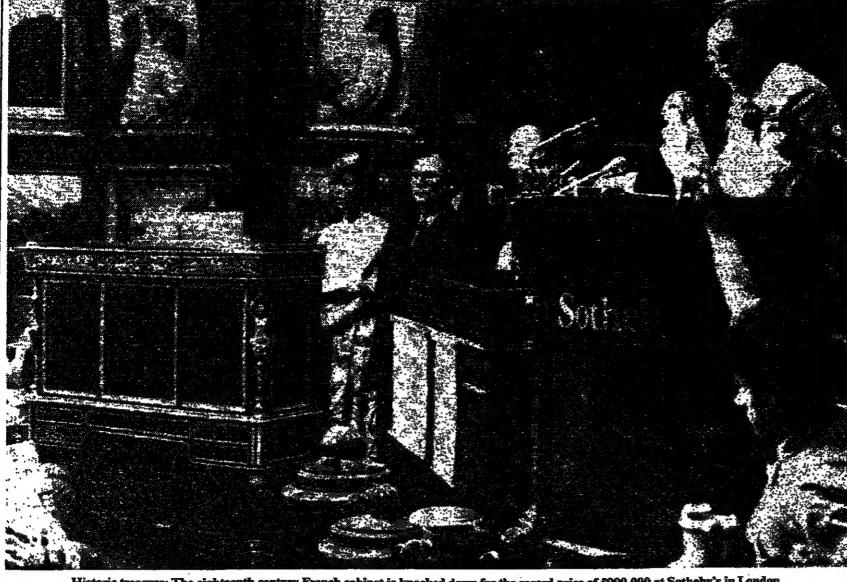

The student grant may also be cut because the regulations spelling out the agreed 4 per cent increase this autumn have not yet been made and can be

At the Ministry of Defence official began the task of seeking the savings demanded by the Chancellor. The cuts which the defence programme will have to bear in the present financial year will be £240m, made up of about £60m in manpower costs and administration, and £180m

on capital spending.

Officials from Bush
House, headquarters of the BBC
External Services, went to the Foreign Office to discuss a reported cuts of £1.2m in the department's £77m budget. If cuts are imposed they will b the eighth in 10 years.

The Foreign and Commonwealth Office will have to review its 199 overseas missions and its total staff requirement of 5,500, to make space for the Treasure cuts.

Historic treasure: The eighteenth century French cabinet is knocked down for the record price of £990,000 at Sotheby's in London

## Louis XVI cabinet sells for record £990,000

By Geraldine Norman, Sale Room Correspondent

Mrs Seward Johnson, aged 46, who has inherited the Johnson beby powder and pharmaceuticals fortune, paid the record price of £990,000 for a French black lacquer cabinet at Sotheby's yesterday. It was the highest price recorded at auction for a piece of

She said afterwards: "I am 2 very discreet collector". Indeed, without drawing any attention to themselves she and her husband, who died eight weeks ago, aged 87, built a large Palladian residence outside Princeton, New Jersey, and over the past 10 years have filled it with Old Masters, Impression-

farniture.
Mrs Seward Johnson said her husband had always dreams of collecting art. "But he did not know how to start until I came along. I had a master's degree in history of art when I left Poland in 1968."

This summer she bought most of the finest furnishings offered at English auctions and set a new auction record for a pair of cusions at £15,120 at Christie's sale at Godmersham Park,

Yesterday's purchase was regarded as a bargain in the trade and, according to Mr Frank Partridge of Bond Street, it "was the finest piece of French

furniture on the market for 20 or 30 years". "It should have fetched £2m," he added,

The exquisite cabinet was made from panels of black and gold Japanese lacquer with superb gilt-bronze mounts for King Louis XVI, almost certainly by the famouse cabinetmaker, Adam Weisweiler.

It was delivered to Versailles for the king's study in 1784 and was one of the pieces of furniture that he chose to take with him when he was held "under house arresr" at the Taileries, before being sentenced to the gaillotine.

Its history since it was recorded in a Tuileries inventory in 1790 is obscure,

Sotheby's disclosed that the sale was Someoy's discussed that the said was handled by lawyers in Switzerland. Mr Johnsthon Bourne said yesterday: "Of course we pressed them about the recent history, but apparently the owner does not want to be known."

The expectations of a higher price were built on the expectation that the Getty Museum of Malibu, with their large purchaing power, would be interested. It was also considered that Versailles would make a big effort to here it healt.

buy it back.

It is understood that a representative of Versailles was the undebidder at yesterday's sale and that the Getty Museum had agreed before the sale not to bid against Versailles.

#### Letter from Moldavia

#### Bread and butter issue upsets 'toaster capital'

for other products, mostly agricultural: its wines are distributed all over Russia, and it produces a third of the Soviet Union's tobacco, as well as chemies and strawberries galore.

But it is toasters that figure largely in Beltsy's exhibition of economic achievement. The Beltsy factory makes only one kind of toaster, a long, thin stainless steel model. But nobody else in the entire country makes any toasters at all. The situation exercises local officials a great deal, and has been taken up by the national press, which has dubbed it the "toaster-roaster" problem.

"Roaster" is the Russian for a mini-grill, and Beltsy is in the forefront of the controversy over whether the Soviet Union should produce more roasters than toasters, or vice versa. Nedelya, the Sunday supplement of Izvestiva, has pursued the question obsessi-

vely.

In a recent article beaded "A toaster is a good thing", the paper complained that Beltsy, a small town not far from the Romanian border, should not have to carry the toaster burden on its own. Officials replied that a factory in Moscow would soon begin to turn out both toasters and roasters, and would produce a hundred thousand by 1985. Nedelya was not satisfied, and confronted the Minister for Electrotechnical Industries, Mr Mikhail Zhuchkov. Was it true that roasters were being given precedence over toasters? the paper demanded.
Well yes, Mr Zhuchkov said.

Roasters were universal whoreas toasters were not. Roasters could make toasted sandwiches, for example. "Nor is that all," the minister added. "Roasters are

more technological, and easier to make " Officials in Beltsy were as puzzled by this paradox as most Nedelya readers, but

Beltsy (pop 123,000) is the showed off their new model toaster capital of the Soviet roaster with pride. It did not Union. Moldavia is famous look particularly technologies roaster with pride. It did not look particularly technological. As for toasters, a new factory in Tbilisi in Georgia will follow the one in Moscow in 1986.

But surely demand outstrips supply? I was referred to Nedelya and Mr Zhuchkov. "Let us be self-critical," the minister suggested. "The fact is, we did not foresee the demand for this very handy appliance. In my opinion, every home should have one. He said his ministry had formed a special study group, and talked in visionary terms of a time when there would be 250,000 roasters and toasters

on the market every year. At present the Beltsy factory has the capacity to produce up to 11,000 a year, although one official told us that it actually turned out only 800 toasters.

The serious side of toasters and roasters is that they make better use of bread, a constant theme in the Soviet press. Bread prices are deliberately kept low, although the real cost is growing due to grain imports. Yet a great deal goes to waste, with families throwing away stale loaves after a day or less.
The booklet which comes

with the Beltsy toaster gives full and careful instructions to those who may not have seen a toaster before. It says you should use a sharp knife to cut the bread into slices no more than 12 millimetres thick, but than 12 millimetres thick but without spreading butter, fat or anything else on them. You then take the slice (Figure 1) and place it in the slot (Figure 4), pressing down the knob (Figure 2). The booklet does not tell you what to do if the knob jarus or will not stay down (all too frequent occu-rences in our household).

Still, it does list toaster repair shops in nine Soviet cities from Donetsk to Vilnius, which suggests that the toaster habit is catching on and Beitsy is pioneering yet another advance toward the consumer society.

Wephmist Park, Wisboroogh Green, Billingshurst, large garden, perennials, rock and water garden; vegetable garden and greenhouse; 2 to 7.

In the garden

Herbs may be gathered now to dry for winter use - tie them in small bundles and hang in an airy shed, or lay in a single layer on trays in a cool any shed or garage.

Pests - greenfly and blackfly particularly - continue to be really troublesome, and are appearing on plants like campanulas, and likes which are not normally much troubled by them. They can also infest hedges, especially those of myrobolan and other prunuses, so check your hedges when inspecting the garden for possible trouble. HH Bradford Rong, Lexus, as interchange.
Scotland: MB: Closed eastbound overnight from junctions 18 (Charing Cross) to 15 (Townhead). Congestion in Glasgow between Blythwood Square and Queens Park because of demonstration.

Information supplied by the AA.
